**Convenience Translation of the Independent Auditors' Review Report
Originally Prepared and Issued in Turkish**

To the Board of Directors of
Türkiye Sınai Kalkınma Bankası Anonim Şirketi

We have reviewed the consolidated balance sheet of Türkiye Sınai Kalkınma Bankası A.Ş. ("the Bank") and its subsidiaries (collectively "the Group") as of 30 June 2011 and the related consolidated income statement, statement of cash flows and statement of changes in shareholders' equity for the six-month period then ended. These consolidated financial statements are the responsibility of the Bank's management. Our responsibility as independent auditors is to issue a review report on these consolidated financial statements based on our review.

We conducted our review in accordance with the regulations related with the "Accounting and Recording Rules" and "Independent Auditing Standards" of the (Turkish) Banking Law No 5411. These regulations require that we plan and perform the review to obtain limited assurance as to whether the consolidated financial statements are free of material misstatement. A review is limited primarily to inquiries of the personnel of the Bank and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit, and accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly the consolidated financial position of the Group as of 30 June 2011 and the consolidated results of its operations and its cash flows for the period then ended in accordance with the prevailing accounting principles and standards set out as per the Article No: 37 and Article No: 38 of the Banking Act No: 5411, and other regulations and pronouncements in respect of accounting and financial reporting made by Banking Regulation and Supervision Agency.

İstanbul,
9 August 2011

Akis Bağımsız Denetim ve Serbest
Muhasebeci Mali Müşavirlik
Anonim Şirketi

Orhan Akova
Partner

Additional paragraph for convenience translation to English:

As explained in Section 3 Note I, the accompanying consolidated financial statements are not intended to present the financial position and results of operations in accordance with the accounting principles and practices generally accepted in countries and jurisdictions other than Turkey.

**THE CONSOLIDATED FINANCIAL REPORT OF

V. Summary on the Parent Bank's functions and areas of activity

Türkiye Sınai Kalkınma Bankası A.Ş. ("the Parent Bank") is the first private investment and development bank which was established by the Council of Ministers resolution number of 3/11203 established in 1950 with the support of World Bank, T.R. Government, T.R. Central Bank and commercial banks. As per the articles of association published in the Official Gazette on 2 June 1950, the aim of TSKB is to support all private sector investments but mostly industrial sectors, to help domestic and foreign capital owners to finance the new firms and to help the improvement of Turkish capital markets. The Bank is succeeding its aims by financing, consulting, giving technical support and financial intermediary services.

The Parent Bank, which operates as a non-deposit accepting bank, played a major role on manufacturing and finance sectors in every phase of the economic development of Turkey. The Parent Bank has supported the development of the private sector by extending medium-term loans to more than 4.000 firms. After 1960's the Parent Bank had continued to finance over 100 firms by investing in these entities as a shareholder. The Parent Bank has also participated in improvement of capital markets by organizing public offerings of some firms.

The Parent Bank has opened two branches in Izmir and Ankara in April 2006 to enhance marketing and valuation operations.

TSKB Bahrain Branch, is the only branch of TSKB in abroad, started its operations on 18 January 2005 after obtaining the off-shore banking license from Bahrain Central Bank (BMA) on 30 December 2004. The mission of the branch is to expand to Middle East and exercise all activities including capital market transactions and giving foreign currency loans.

TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY – 30 JUNE 2011
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE

ACCOUNTING POLICIES

I. Basis of presentation

I.a Presentation of financial statements

As prescribed in the Article 37 of the Banking Act No. 5411, banks shall, in line with the principles and procedures to be established by the Banking Regulation and Supervision Agency (“BRSA”) upon consulting the associations of financial institutions and the Turkish Accounting Standards Board taking into consideration international standards, ensure uniformity in their accounting systems; correctly record all their transactions; and timely and accurately prepare their financial reports in a style and format that will meet disclosure requirements, clearly reliable and comparable, and suitable for auditing, analysis and interpretation.

The Parent Bank prepares its financial statements and underlying documents according to Communiqué on Banks’ Accounting Practice and Maintaining Documents, Turkish Accounting Standards, Turkish Financial Reporting Standards, other communiqués, pronouncements and explanations about accounting and financial reporting issued by the Banking Regulation and Supervision Agency, the Turkish Commercial Code and the Tax Legislation.

Amounts in the financial statements, the underlying explanations and disclosures are expressed in Thousands of Turkish Lira unless otherwise stated.

Additional paragraph for convenience translation to English

The differences between accounting principles, as described in the preceding paragraphs, and the accounting principles generally accepted in countries, in which the accompanying consolidated financial statements are to be distributed, and International Financial Reporting Standards (“IFRS”), may have significant influence on the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

I.b The valuation principles used in the preparation of the consolidated financial statements

The accounting rules and the valuation principles used in the preparation of the financial statements were implemented as stated in the related regulations, announcements and decrees of Turkish Accounting Standards and Banking Regulation and Supervision Agency. These accounting policies and valuation principles are explained in the below notes through II to XXIV.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

II. Explanations on usage strategy of financial assets and foreign currency transactions

The main sources of the funds of the Group have variable interest rates. The financial balances are monitored frequently and constant and variable interest rate placements are undertaken according to the return on the alternative financial instruments. The macro goals related to balance sheet amounts are set during budgeting process and positions are taken accordingly.

Due to the fact that the great majority of the loans extended by the Parent Bank have the flexibility of reflecting the changes in market interest rates to customers, the interest rate risk is kept at minimum level. Moreover, the highly profitable Eurobond and the foreign currency government indebtedness securities portfolio have the attribute of eliminating the risks of interest rate volatility.

The Group liquidity is regularly monitored. Moreover, the need of liquidity in foreign currencies is safeguarded by currency swaps.

Commercial placements are managed with high return and low risk assets considering the international and domestic economic expectations, market conditions, creditors' expectations and their tendencies, interest-liquidity and other similar factors. Prudence principle is adopted in the placement decisions. The long term placements are made under project finance. A credit policy is implemented such a way that harmonizing the profitability of the projects, the collateral and the value add introduced by the Parent Bank.

The movements of foreign exchange rates in the market, interest rates and prices are monitored instantaneously. When taking positions, the Bank's unique operating and control limits are watched effectively besides statutory limits. Limit overs are not allowed.

The Group's strategy of hedging interest rate and foreign currency risks arising from fixed and variable interest rate funds and foreign currency available for sale securities:

A great majority of foreign currency available for sale securities are financed with foreign currency resources. Accordingly, the expected depreciation of local currency against other currencies is eliminated. A foreign currency basket is formulated in terms of the indicated foreign currency to eliminate the risk exposure of cross currency rates.

To mitigate the interest rate risk, a balanced asset composition is established in compliance with the structure of fixed and variable rate funding resources.

The hedging strategies for other foreign exchange risk exposures:

A stable foreign exchange position strategy is implemented: To be secured from cross currency risk, the current foreign exchange position is taken by considering a specific basket of foreign currencies.

The foreign exchange gains and losses on foreign currency transactions are accounted for in the period of the transaction. Foreign exchange assets and liabilities are translated to Turkish Lira using foreign exchange bid rate as of the reporting date, and the resulting gains and losses are recorded in foreign exchange gains or losses.

TÜRKİYE SINAI KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY – 30 JUNE 2011
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

III. Information about the Parent Bank and its subsidiaries and associates subject to consolidation

Türkiye Sınai Kalkınma Bankası A.Ş. and its financial institutions, Yatırım Finansman Menkul Değerler A.Ş., TSKB Gayrimenkul Yatırım Ortaklığı A.Ş., TSKB Yatırım Ortaklığı A.Ş. are included in the accompanying consolidated financial statements by line by line consolidation method; İş Finansal Kiralama A.Ş., İş Girişim Sermayesi Yatırım Ortaklığı A.Ş. and İş Factoring Finansman Hizmetleri A.Ş. are included in the accompanying consolidated financial statements by equity method. Financial institutions included in the consolidation are determined in accordance with “Communiqué on Preparation of Consolidated Financial Statements of Banks” published in the Official Gazette dated 8 November 2006 numbered 26340. The Parent Bank and the entities included in the consolidation are referred to as “the Group” in this report.

The financial statements of the subsidiaries and associates, which were prepared in accordance with the prevailing principles and rules regarding financial accounting and reporting standards in the Turkish Commercial Code and/or Financial Leasing Law and communiqués of the Capital Markets Board of Turkey (“CMB”), are duly adjusted in order to present their financial statements in accordance with Turkish Accounting Standards and Turkish Financial Reporting Standards.

When there are differences between the accounting policies of the subsidiaries and the Parent Bank, the financial statements are adjusted in accordance with the principle of materiality. The financial statements of the subsidiaries are prepared as of 30 June 2011.

The transactions and balances between the consolidated entities and the Parent Bank are eliminated.

TSKB Yatırım Ortaklığı A.Ş.:

The Company was established under the title of Sınai Yatırım Bankası Yatırım Ortaklığı A.Ş. on 10 November 2000. The Company’s title, Sınai Yatırım Bankası Yatırım Ortaklığı A.Ş., was changed into TSKB Yatırım Ortaklığı A.Ş. on 17 April 2003 since its parent Sınai Yatırım Bankası A.Ş. ceased to operate and merged with Türkiye Sınai Kalkınma Bankası A.Ş. The title change was published in the Turkish Trade Registry Gazette No: 5784 on 24 April 2003. The Company’s headquarters is in Istanbul.

The purpose of TSKB Yatırım Ortaklığı A.Ş. is to manage capital market instruments and gold or other precious metal portfolios in the local or international markets or over-the-counter markets, without having the control or significant effect over/on management and capital of the investees, under the principles and guidelines specified by the related legislation.

TSKB Yatırım Ortaklığı A.Ş. and Yatırım Finansman Yatırım Ortaklığı A.Ş. merged under TSKB Yatırım Ortaklığı A.Ş. on 25 June 2009 according to prior approval of the Capital Market Board on 13 May 2009 and resolution of the Extraordinary General Assembly, by ceasing all rights, receivables, liabilities and legal jurisdiction of Yatırım Finansman Yatırım Ortaklığı A.Ş..

Yatırım Finansman Menkul Değerler A.Ş.:

Yatırım Finansman Menkul Değerler A.Ş. was established with the title of Yatırım Finansman A.Ş. and registered in Istanbul Trade Registry on 15 October 1976 and it was announced in the Turkish Trade Registry Gazette No: 81 on 25 October 1976. Title of the Company was changed into Yatırım Finansman Menkul Değerler A.Ş. by the announcement made in the Turkish Trade Registry Gazette No: 4762 on 2 April 1999. The Company’s purpose is to perform capital market operations specified in the Company’s main contract in accordance with the CMB and the related legislation. The Company was merged with TSKB Menkul Değerler A.Ş. on 29 December 2006.

III. Information about the Parent Bank and its subsidiaries subject to consolidation (continued)

TSKB Gayrimenkul Yatırım Ortaklığı A.Ş.:

Core business of TSKB Gayrimenkul Yatırım Ortaklığı A.Ş. is real estate trust to construct and develop a portfolio of properties and make investment to capital market instruments linked to properties. The Company was established on 3 February 2006.

İş Finansal Kiralama A.Ş.:

İş Finansal Kiralama A.Ş. was established on 8 February 1988 and it has been performing its operations in accordance with the Financial Leasing Law No: 3226. The Company started its leasing operations in July 1988. The Company's headquarters is located at İş Kuleleri, Kule: 2 Kat:10 34330 Levent-Istanbul/Türkiye.

İş Factoring Finansman Hizmetleri A.Ş.:

İş Factoring Finansman Hizmetleri A.Ş., was incorporated in Turkey on 4 July 1993 and started its operations in October 1993. The Company's main operation is domestic and export factoring transactions. The Company is a Türkiye İş Bankası A.Ş. Group entity and the parent is İş Finansal Kiralama A.Ş. with 78,23% shareholding. The direct share of Türkiye Sınai Kalkınma Bankası A.Ş. is 21,75%.

İş Girişim Sermayesi Yatırım Ortaklığı A.Ş.:

The principal business of İş Girişim Sermayesi Yatırım Ortaklığı A.Ş. is to make long-term investments in companies existing in Turkey or to be established in Turkey, having a development potential and are in need of financing. The Company is continuing its operations at İş Kuleleri Kule: 2, Kat: 8, Levent, Istanbul.

IV. Explanations on forward and option contracts and derivative instruments

The Parent Bank is exposed to significant financial risk originating from the changes in the interest and foreign exchange rates as part of its normal operations. The Parent Bank exercises derivative financial instruments to manage these interest and foreign exchange financial risks.

The Group generally exercises foreign currency forward, swap, futures and option agreements.

The derivative instruments are accounted for at their fair values as of the date of the agreements entered into and subsequently valued at fair value. Some of the derivative instruments, although economic hedges, are accounted for as trading transactions since they are not qualified to be hedging instruments as per "Financial Instruments: Recognition and Measurement" ("TAS 39"). Realized gains or losses are reflected in the income statement on these derivative instruments.

According to Capital Markets Board legislation, Intermediary Institution warrants are capital market instruments that give the holder the right, but not the obligation, to buy or to sell an underlying asset at a specified price on or before a predetermined date where such right is exercised by registered deliver or cash settlement and these warrants are called securitized derivative transactions. In this context, the Bank that issued warrants on foreign currencies, has accounted the costs of issued warrant on liabilities. Warrants are valued on a daily basis over the market value created by the market maker and valuation differences are recorded in the income statement. On withdrawal of the issued warrants, the balance is netted-off with the cost on the balance sheet and gain/losses are associated with the income statement. On the other hand, issued warrant is recorded on the statement of off-balance sheet with its nominal value.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

V. Explanations on interest income and expenses

Interest income and expenses are recognized in the income statement for all interest bearing instruments on an accrual basis using the effective interest method (the rate that equalizes the future cash flows of financial assets and liabilities to the current net book value).

In accordance with the related regulation, realized and unrealized interest accruals of the non-performing loans are reversed and interest income related to these loans are recorded as interest income only when collected.

VI. Explanations on fees and commission income and expenses

Fees and commissions received from cash loans, that are not an integral part of the effective interest rate, and fees for various banking services are recorded as income when collected. Fees and commissions paid for the funds borrowed, which are not integral parts of the effective interest rate of the funds borrowed, are recorded as expense on the date of the payment. All other income and expenses, fee and commission income and expenses, including commissions received from non-cash loans are recorded on an accrual basis.

VII. Explanations on financial assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments constitute the both of the Group's trading activities and operations. Risks related with these instruments constitutes majority of total risks. Financial instruments affect liquidity, market, and credit risks on the Group's balance sheet in all respects. The Group trades these instruments on behalf of its customers and on its own behalf.

Basically, financial assets create the majority of the commercial activities and operations of the Group. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date i.e. the date that the asset is delivered to or by the Group. Settlement date accounting requires (a) accounting of the asset when acquired by the institution, and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. In case of application of settlement date accounting, the entity accounts for the changes that occur in the fair value of the asset in the period between commercial transaction date and settlement date as in the assets that the entity settles.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Fair value differences are not accounted for assets presented at cost or amortized cost; gain or loss of financial assets at fair value through profit and loss are reflected in the income statement, gain or loss of available for sale assets are accounted for under the shareholders' equity.

The methods and assumptions used in determining the reasonable estimated values of all of the financial instruments are explained below.

Cash, Banks and Other Financial Institutions:

Cash and cash equivalents comprise cash on hand, demand deposits, and highly liquid short-term investments with maturity of 3 months or less following the purchase date, not bearing risk of significant value change, and that are readily convertible to a known amount of cash. The book values of these assets approximate their fair values.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VII. Explanations on financial assets (continued)

Marketable Securities:

The Group classifies its marketable securities in three groups:

Financial assets at fair value through profit and loss: These transactions are classified in two categories. (i) Trading securities for the purposes of short term profit taking through sale or buying back in a near future. (ii) The financial assets classified at inception as financial assets at fair value through profit or loss by the Group. The Group uses such classification above when permitted or for the purposes of providing a more proper disclosure.

In this category, trading securities are initially recognized at cost and measured at fair value on the financial statements. Fair values of securities that are traded in an active market are determined based on quoted prices or current market prices.

Any gains or losses resulting from such valuation are recorded in the profit and loss accounts. As per the explanations of the Uniform Code of Accounts (UCA), any positive difference between the historical cost and amortized cost of financial assets are booked under the “Interest Income” account, and in case the fair value of the asset is over the amortized cost, the positive difference is booked under the “Gains on Securities Trading” account. If the fair value is under the amortized cost, the negative difference is booked under the “Losses on Securities Trading” account. Any profit or loss resulting from the disposal of those assets before their maturity date is recognized within the framework of the same principles.

Investments held to maturity include securities with fixed or determinable payments and fixed maturity where there is an intention of holding till maturity and the relevant conditions for fulfillment of such intention, including the funding ability. This portfolio excludes loans and receivables. After initial recognition held to maturity investments are measured at amortized cost by using effective interest rate less impairment losses, if any.

The interests received from held to maturity investments are recorded as interest income in the income statement.

Available for sale financial assets are initially recognized at cost including the transaction costs. The interest income related to securities with fixed and variable interest under available for sale financial assets are recorded in interest income. After the initial recognition, available for sale securities are measured at fair value and the unrealized gain/loss originating from the difference between the amortized cost and the fair value is recorded in “Marketable Securities Value Increase Fund” under the equity. All unquoted available for sale stocks are recorded by considering impairment, since respective fair values cannot be reliably measured. At the disposal of available for sale financial assets, value increases/decreases that are recorded in the securities value increase fund under equity are transferred to income statement

Loans:

Loans are financial assets which have fixed payment terms and are not traded.

Loans are initially recognized at cost and measured at amortized cost by using effective interest rate. The duties, charges and other expenses paid for the collaterals obtained against loans are accepted as transaction costs and reflected to customers.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VII. Explanations on financial assets (continued)

Turkish Lira (“TL”) cash loans are composed of foreign currency indexed loans, loans for marketable securities purchased by customers, and working capital loans; foreign currency (“FC”) cash loans are composed of investment loans, export financing loans and working capital loans.

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the income statement.

Provision is set for the loans that may be doubtful and the amount is charged in the current period income statement as well as their classification to non-performing loans as per the related regulations. The collections made related to loans including those on non-performing loans for which provision is made in the current period are recorded in “Provision for Loans and Other Receivables” and “Interest Received from Non-performing Loans” account.

Releases of loan loss provisions are recorded by reversing the provisions booked during the year and the collections made related to loan losses previously accounted for are recorded to collections related to the prior period expenses.

VIII. Explanations on impairment of financial assets

At each reporting date, the Group evaluates the carrying amounts of its financial asset or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss. If any such indication exists, the Group determines the related impairment.

A financial asset or a financial asset group incurs impairment loss only if there is an objective evidence related to the occurrence of one or more than one event (“loss event”) after the first recognition of that asset; and such loss event (or events) causes, an impairment as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of high probability the expected losses for future events are not recognized.

Loans are classified and followed in line with the provisions of the “Regulation on Identification of Loans and Other Receivables and Provisioning against Them”, published on the Official Gazette nr.26333 dated 1 November 2006. Specific provision is allocated for the total amount of loans and other receivables, which is deemed non-performing, without being restricted by the minimum legal requirements stated in the related regulation, and such specific provisions are recognized in the income statement. The provisions, which are released within the same year, are credited to the “Provision Expenses” account and the released parts of the provisions from the previous years are transferred to and recognized in the “Other Operating Income” account.

Other than specific provision, the Parent Bank provides “general provision” for loans and other receivables classified in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables. The Parent Bank was providing 0,5% general provision for cash loans and other receivables; 0,1% general provision for non-cash loans until 1 November 2006. With the changes in the regulation on “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” published in the Official Gazette No: 26333 dated 1 November 2006, the Parent Bank started to provide general provision as follows: after 31 October 2006, if standard cash loans and other receivables increased; for the increased part, the provision is 1%; for the account of 31 October 2006 it is 0,5%; after 31 October 2006, if there is an increase in non-cash loans, for the increased part it is 0,2%; and for the account of 31 October 2006 it is 0,1%.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VIII. Explanations on impairment of financial assets (continued)

Subsequent to the change in the regulation on “Change in the Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” published in the Official Gazette No. 27947 dated 28 May 2011; in case of the extension of the payment plan of the loans which are followed under loans and receivables, the general loan loss provision ratio for standard and for the first group loans and receivables should not be less than 5% and for the second group loans and receivables should not be less than 2,5%.

As a consequence of the regulation published in Official Gazette No. 27968 dated 18 June 2011 amending the “Change in the Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”, for the banks, of which the consumer loans exceed 20% of total loans, general loan loss provision ratio is 4% for consumer loans which are followed under standard loans and receivables except car and housing loans; and is 8% for the loans under close monitoring except car and housing loans. Since the consumer loans of the Parent Bank are composed of personnel loans as of 30 June 2011 and do not exceed the ratios mentioned above, additional general loan loss provision has not been calculated.

IX. Explanations on offsetting of financial assets and liabilities

Financial assets and liabilities are offset when the Group has a legally enforceable right to set off, and when the Group has the intention of collecting or paying the net amount of related assets and liabilities or when the Group has the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

X. Explanations on sales and repurchase agreements and lending of securities

Funds provided under repurchase agreements are accounted under “Funds Provided under Repurchase Agreements-TL” and “Funds Provided under Repurchase Agreements-FC” accounts.

All of the repurchase agreements of the Group are based on the short-term government bonds. In the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under securities held for trading, available for sale and held to maturity depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios. The income and expenses from these transactions are reflected to the interest income and interest expense accounts in the income statement.

Receivables from reverse repurchase agreements are recorded in “Receivables from Reverse Repurchase Agreements” account in the balance sheet.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XI. Explanations on assets held for sale and discontinued operations

Assets held for sale are measured at the lower of the assets' carrying amount and fair value less costs to sell. Held for sale assets are not amortized and presented separately in the financial statements. In order to classify an asset as held for sale, only when the sale is highly probable, experienced quite often and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale. Highly saleable condition requires a plan by the management regarding the sale of the asset to be disposed (or else the group of assets), together with an active program for determination of buyers as well as for the completion of the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or canceling the plan is low. Various circumstances and conditions could extend the completion period of the sale more than one year.

If such delay arises from any events and conditions beyond the control of the entity and if there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or else group of assets) are continued to be classified as assets held for sale (or else group of assets).

A discontinued operation is a division that is either disposed or held for sale. Results of discontinued operations are included separately in the income statement.

XII. Explanations on goodwill and other intangible assets

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognized at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in a subsequent period. On disposal of a subsidiary or a jointly controlled entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Intangible assets that are acquired prior to 1 January 2005 are carried at restated historical cost as of 31 December 2004; and those acquired subsequently are carried at cost less accumulated amortization, and any impairment. Intangible assets are depreciated over their expected useful lives. Depreciation method and period are reviewed periodically at the end of each year. Intangible assets are mainly composed of rights and they are depreciated principally on a straight-line basis between 3-15 years.

TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY – 30 JUNE 2011
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XIII. Explanations on tangible assets

Tangible assets, purchased before 1 January 2005, are accounted for at their restated costs as of 31 December 2004 and the assets purchased in the following periods are accounted for at acquisition cost less accumulated depreciation and reserve for impairment.

Gain or loss resulting from disposals of the tangible assets is reflected to the income statement as the difference between the net proceeds and net book value.

Normal maintenance and repair expenditures are expensed.

There is no pledge, mortgage or any other lien on tangible assets.

Tangible assets are depreciated with straight-line method and their useful lives are determined in accordance with the Turkish Accounting Standards

Depreciation rates and estimated useful lives of tangible assets are as follows:

Tangible Assets	Expected Useful Lives (Years)	Depreciation Rate (%)
Buildings	50	2
Cashboxes	2-50	2-50
Vehicles	5	20
Other Tangible Assets	2-25	4-50

XIV. Explanations on investment property

i) Operating investment property

Operating investment properties are those which are held either to earn rental income or for capital appreciation or for both. Investment properties are recognized when it is probable that the future economic benefits that are associated with them will flow to the Group and the cost of them can be measured reliably. Fair value model was chosen in the measurement of the investment properties. Gains and losses arising from changes in the fair values of investment properties are recognized in profit or loss for the period in which it arises.

ii) Investment property under construction

Investment properties under construction are those which are held either to earn rental income or for capital appreciation or for both, in the future. When the fair values of such properties cannot be determined reliably until the construction is completed, the Group accounts for such investment property under construction using the cost model until the date the construction is completed. All costs directly associated with the purchase and construction of an investment property, and all subsequent capital expenditures for the development qualifying as acquisition costs are capitalized. Borrowing costs are capitalized if they are directly attributable to the investment property under construction. Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Capitalization of borrowing costs may continue until the assets are substantially ready for their intended use.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XV. Explanations on leasing transactions

The Group as Lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Group's net investment in the leases. The lease payments are allocated as principle and interest. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as Lessee

Assets held under finance leases are recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are included in profit or loss in accordance with the Group's general policy on borrowing costs. Tangible assets acquired by financial leases are amortized based on the useful lives of the assets.

XVI. Explanations on provisions and contingent assets and liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Group's best expectation of expenses in fulfilling the obligation, and discounted to present value if material.

Contingent assets consist of unplanned or other unexpected events that usually cause a possible inflow of economic benefits to the Bank. Since showing the contingent assets in the financial statements may result in the accounting of an income, which will never be generated, the related assets are not included in the financial statements, but on the other hand, if the inflow of the economic benefits of these assets to the Bank is probable, an explanation is made thereon in the footnotes of the financial statements. Nevertheless, the developments related to the contingent assets are constantly evaluated and in case the inflow of the economic benefit to the Bank is almost certain, the related asset and the respective income are shown in the financial statements of the period in which the change occurred.

XVII. Explanations on liabilities regarding employee benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Group. In retirement and involuntarily leaving, the Group records the present value of the defined benefit obligation. There is no indemnity obligations related to the employees who are employed with contract of limited duration exceeding 12 month period. Employees of the Parent Bank are members of "Türkiye Sınai Kalkınma Bankası Anonim Şirketi Memur ve Müstahdemleri Yardım ve Emekli Vakfı" and "Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı" ("the Pension Fund"). Technical financial statements of those funds are subject to audit in accordance with the Insurance Law and provisions of "Regulations on Actuaries" issued based on the related law by an actuary registered in the Actuarial Registry.

Paragraph 1 of the provisional Article 23 of the Banking Act ("Banking Act") No: 5411 published in the Official Gazette No: 25983 on 1 November 2005 requires the transfer of banking funds to the Social Security Institution within 3 years as of the enactment date of the Banking Act. Under the Banking Act, in order to account for obligations, actuarial calculations will be made considering the income and expenses of those funds by a commission consisting of representatives from various institutions. Such calculated obligation shall be settled in equal installments in maximum 15 years.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XVII. Explanations on liabilities regarding employee benefits (continued)

Nonetheless, the related Article of the Banking Law was annulled by the Constitutional Court's decision No: E. 2005/39 and K. 2007/33 dated 31 March 2007 that were published in the Official Gazette No: 26479 on 31 March 2007 as of the release of the related decision, and the execution of this article was cancelled as of its publication of the decision and the underlying reasoning for the cancellation of the related article was published in the Official Gazette No: 26731 on 15 December 2007.

After the publication of the reasoning of the cancellation decision of the Constitutional Court, articles related with the transfer of banks pension fund participants to Social Security Institution based on Social Security Law numbered 5754 were accepted by the Grand National Assembly of Turkey on 17 April 2008 and published in the Official Gazette No: 26870 on 8 May 2008.

According to the provisional Article 20 of 73th article of Law No. 5754 dated 17 April 2008, has become effective on 8 May 2008 and was published in the Official Gazette No: 26870, transfer of Pension Funds to Social Security Institution in three years has been anticipated. Related resolution of the Council of Ministers related to two-year extension was published in the Official Gazette dated 9 April 2011. Accordingly, the three-year period, expired on 8 May 2011, has been extended to 8 May 2013 by the resolution of the Council of Ministers. The principles and practices will be determined in the forthcoming Council of Ministers Decree.

Present value for the liabilities of the transferees as of the transfer date would be calculated by a commission that involves representatives of Social Security Institution, Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, SDIF, banks and banks' pension fund institutions and technical interest rate, used in actuarial account, would be 9,80%. If salaries and benefits paid by the pension fund of banks and income and expenses of the pension funds in respect of the insurance branches, stated in the Law, exceeds the salaries and benefits paid under the regulations of Social Security Institution, such differences would be considered while calculating the present value for the liabilities of the transferees and the transfers are completed within 3 years beginning from 1 January 2008.

The Main Opposition Party has appealed to the Constitutional Court on 19 June 2008 for cancellation of some articles, including the first paragraph of 20. Temporary article of the Law, and requested them to be ineffective until the case of revocatory action is finalized. The application of the Main Opposition Party was rejected by the Higher Court with the resolution dated 30 March 2011.

Unmet social benefits and payments of the pension fund participants and other employees that receive monthly income although they are within the scope of the related settlement deeds would be met by pension funds and the institutions employ these participants after the transfer of pension funds to the Social Security Institution.

The present value of the liabilities, subject to the transfer to the Social Security Institution, of the Pension Fund as of 31 December 2010 has been calculated by an independent actuary in accordance with the actuarial assumptions in the Law and as per actuarial report dated 2 February 2011, the liabilities, subject to the transfer to the Social Security Institution, are financed by the assets of the Pension Fund.

In addition, the Parent Bank's management anticipates that any liability that may come out during the transfer period and after, in the context expressed above, would be financed by the assets of the Pension Fund and would not cause any extra burden on the Parent Bank.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XVIII. Explanations on taxation

The income tax charge is composed of the sum of current tax and deferred tax.

The current tax liability is calculated over taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible and it further excludes items that are never taxable or deductible. Liability for current tax is calculated using tax rates that have been enacted by the reporting date.

Deferred tax asset or liability is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounting for using the balance sheet liability method.

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date. Deferred tax is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized and reflected in the income statement as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is also associated directly with equity. Deferred tax assets and liabilities are also offset.

According to the second paragraph of the Article 53 of the Banking Act No 5411 dated 19 October 2005, all specific reserves for loans and other receivables are considered as deductible expense for determining corporate tax base.

Banks in Bahrain are not subject to tax according to the regulations of that country.

Transfer pricing:

Transfer pricing is regulated through article 13 of Corporate Tax Law titled “Transfer Pricing through camouflage of earnings”. Detailed information for the practice regarding the subject is found in the “General Communiqué Regarding Camouflage of Earnings Through Transfer Pricing”. According to the aforementioned regulations, in the case of making purchase or sales of goods or services with relevant persons/corporations at a price that is determined against “arm’s length principle”, the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not subject to deductions in means of corporate tax.

ACCOUNTING POLICIES (Continued)

XIX. Additional explanations on borrowings

Borrowings are recognized at initial cost on transaction date and carried at amortized cost using effective interest method. In the accompanying financial statements, foreign currency debt instruments are valued using foreign exchange rates of the Bank as of the period end and interest expense amounts of related period arising from borrowings are reflected in the financial statements.

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement at the period they are incurred.

XX. Explanations on debt securities issued

In the current period, the Parent Bank's share capital has increased by TL 100.000. In the meeting of the General Assembly held on 25 March 2011; it has been resolved that, paid-in capital of the Parent Bank will be increased from TL 700.000 to TL 800.000 by TL 100.000. In respect of the resolution of the General Assembly, TL 100.000 of this increase will be incorporated from the profit of the year 2010. The increase in paid-in capital was approved by the BRSA on 15 April 2011. It has not been published in the Turkish Trade Registry Gazette as of the report date. and has been published in the Turkish Trade Registry Gazette No: 7824 on 27 May 2011.

In the prior period, the Parent Bank's share capital has increased by TL 100.000. In the meeting of the General Assembly held on 25 March 2010, it has been resolved that, paid-in capital of the Parent Bank will be increased from TL 600.000 to TL 700.000 by TL 100.000. In respect of the resolution of the General Assembly, TL 85.000 of this increase will be incorporated from the profit of the year 2009 and TL 15.000 from extraordinary reserves. The increase in paid-in capital was approved by the BRSA on 27 April 2010 and has been published in the Turkish Trade Registry Gazette No: 7576 on 2 June 2010.

XXI. Explanations on acceptances

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as commitments in the off-balance sheet accounts.

XXII. Explanations on government incentives

The Parent Bank does not use government incentives.

XXIII. Explanations on segment reporting

In accordance with its mission, the Parent Bank mainly operates in investment and corporate banking segments.

Corporate Marketing Management operations are included in the corporate banking. The corporate banking is serving financial solutions and banking services for its large-scale corporate customers. Among the services given to corporate customers are; TL and foreign exchange operating loans, investment credits, project financing, letters of credit and letters of guarantees.

The activities of investment banking are; the operations of Treasury, Corporate Finance, Research, Financial Institutions and Marketable Securities and Portfolio Management departments. Under the investment banking activities, portfolio management for corporate and individual customers, marketable securities intermediary activities, cash flow management and all types of corporate finance services is provided. Information about consolidated associates and subsidiaries for segment reporting is shown as "Other".

SECTION FOUR

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE

I. Explanations related to the consolidated capital adequacy standard ratio

The capital adequacy ratio of the Group is 18,85% as at 30 June 2011 (31 December 2010: 21,62%). Related to the calculation of the capital adequacy ratio, the risk weighted assets, the obligations, non-cash loans are classified according to the collateral groups and evaluated within the particular risk group.

Information related to the capital adequacy ratio:

Amounts Subject to Credit Risk	Risk Weight (*)

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE (Continued)

II. Explanations related to the consolidated market risk

In order to avoid the market risk and restrict the risks carried, the Board of Directors determines the limits on market risk. Risk, nominal and proportional limitation systems are used and the related reports are presented to Board of Directors, relevant committees and top management.

The guidelines prepared by Risk Management Group that is composed of Risk Management Directorate and Risk Management Committee regarding organization, responsibility and operations are approved by the Board of Directors. Risk management policies are determined and announced throughout the Parent Bank.

The standard method is used to calculate the consolidated and consolidated market risk. In addition to the standard method, the Parent Bank applies parametric and historical simulation models to securities portfolio, foreign currency position on a daily or monthly basis to detect the market risks. The success of these models is tested retrospectively. The Parent Bank also makes VaR calculations, scenario analyses and stress tests to detect the risks not caught by using internal models. Market risk is measured on a daily basis and reported to top management, Audit Committee and the Board of Directors weekly and monthly.

The market risk table is as follows:

	Amount
(I) Capital Requirement to be Employed for General Market Risk - Standard Method	28.485
Resulting from Financial Instruments related to Interest Income	22.934
Resulting from Positions in Share Certificates, Investment Fund and Participation Certificates	5.551
(II) Capital Requirement to be Employed for Specific Risk - Standard Method	15.161
Resulting from Financial Instruments related to Interest Income	9.610
Resulting from Positions in Share Certificates, Investment Fund and Participation Certificates	5.551

SECTION FOUR (Continued)

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE (Continued)

III. Explanations related to the consolidated currency risk

No long or short position is taken due to the uncertainties and changes in the markets therefore; no exposure to foreign currency risk is expected. However, possible foreign currency risks are calculated on a weekly and monthly basis under the standard method in the foreign currency risk table and their results are reported to the official authorities and the Parent Bank's top management. Thus, foreign currency risk is closely monitored. Foreign currency risk, as a part of general market risk, is also taken into consideration in the calculation of Capital Adequacy Standard Ratio.

No short position is taken regarding foreign currency risk, whereas, counter position is taken for any foreign currency risks arising from customer transactions as to avoid foreign currency risk.

The Parent Bank has no hedging transactions through derivative instruments for its foreign currency borrowings and net foreign currency investments.

Announced current foreign exchange buying rates of the Parent Bank as at reporting date and the previous five working days in USD, EURO and YEN are as follows:

	1 USD	1 EURO	1 YEN
A. Bank "Foreign Exchange Valuation Rate"			
30 June 2011	1,6150	2,3419	0,0201
<u>Prior Five Workdays:</u>			
29 June 2011	1,6350	2,3508	0,0202
28 June 2011	1,6350	2,3335	0,0247
27 June 2011	1,6360	2,3110	0,0203
24 June 2011	1,6270	2,3185	0,0202
23 June 2011	1,6170	2,3104	0,0201

Simple arithmetic thirty-day averages of the USD, EURO and YEN buying rates of the Parent Bank before the reporting date are TL 1,5973, 2,2959 and TL 0,0198; respectively.

(*****) Has no effect on net off-balance sheet position.

SECTION FOUR (Continued)

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE (Continued)

IV. Explanations related to the consolidated interest rate risk

Interest rate sensitivity of the assets, liabilities and off-balance sheet items are measured by the Parent Bank. General and specific interest rate risk tables in the standard method, by including assets and liabilities, are taken into account in determination of Capital Adequacy Standard Ratio and to calculate the overall interest rate risk of the Parent Bank.

Forecast results which have been formed using estimation-simulation reports are prepared and then the effects of fluctuations in interest rates are evaluated with sensitivity and scenario analyzes. Cash requirement for every maturity period are determined based on maturity distribution analysis (Gap). In addition, a positive spread between the yield on assets and the cost of liabilities is kept while determining interest rates.

The amount of local borrowings is very low considering the total liabilities of the Parent Bank. As the Parent Bank is a development and investment bank, it obtains most of the funding from abroad.

The fluctuations in interest rates are controlled with interest rate risk tables, gap analysis, scenario analysis and stress tests, its effect in assets and liabilities and the probable changes in cash flows are being screened. The Parent Bank screens many risk control ratio including the markets risk ratio to the sum of risk weighted assets and the ratio of the value at risk calculated as per the internal model to the equity.

Under the scope of risk policies, continuous controls are made to prevent assets or shareholders' equity from adverse effects because of fluctuations in interest rates or liquidity difficulties and top management, Board of Directors and Audit Committee are informed of these risks.

V. Explanations related to the consolidated liquidity risk

The Parent Bank's future cash flows and current positions are taken into consideration for managing the market and liquidity risks. The Parent Bank does not invest into illiquid markets and instruments. The liquidity ratios are followed up and the maturity match and the coverage of liquidity need are targeted in the context of asset-liability management.

Although the Parent Bank started to perform tests to calculate liquidity risk with internal models, the risk is still followed up basically by arranging the risks with respect to "holding period" data.

For the purpose of meeting the liquidity requirement, the Parent Bank chooses one of the three or more of the following; disposing liquid assets, increasing short-term borrowing, decreasing illiquid assets or increasing capital. The Parent Bank's liquidity management is implemented by meeting all the obligations on time considering the Parent Bank's reputation. The cash flow projections and the fund requirement predictions are made by using adverse scenarios to determine liquidity risk under urgent and unexpected circumstances.

As seen on interest rate risk tables, the difference in interest rates of assets and liabilities is in favor of the assets. Such mismatch positively affects the profitability and is checked by the Parent Bank Management with regular reports.

The Parent Bank meets its short term liquidity requirements with repurchase agreements and inter-bank money market operations. The Parent Bank may also use its available for sale portfolio for urgent liquidity requirement. The Parent Bank meets its long term liquidity needs from the international institutions through borrowings.

5.i Main principles of liquidating non performing loans and receivables:

If there are collaterals received complying Article 9 of the Communiqué regarding “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”, these collaterals are converted into cash immediately using either administrative or legal procedures in order to collect those receivables.

In cases of no collaterals, several financial investigations are made to determine whether any property holdings are subsequently acquired by applying legal procedures, even if there is evidence of insolvency for the debtor.

Before and after the beginning of the liquidation process; the Bank management makes investigations on the financial data of the debtor companies. As a result of these investigations, if the Bank management agrees that the companies show any indication of operating on an ongoing basis and probably are going to have contributions in the economical environment in the future; the Bank management tries to make the collection through rescheduling the payment terms.

EXPLANATIONS AND DISCLOSURES ON CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

I. Explanations and disclosures related to the consolidated assets (continued)

8. Information related to subsidiaries (net) (continued)

8.a.6 Subsidiaries purchased in the current period:

In the Board of Directors meeting of Yatırım Finansman Menkul Değerler A.Ş., one of the subsidiaries of the Parent Bank, held on 18 March 2011, it has been decided to participate to a company operating in evaluation of renewable energy projects, sustainable environmental management and environmental analysis called “Sürdürülebilir Danışmanlık A.Ş.” with an ownership of 96% and TL 230,4 ownership of the TL 240 full capital and required procedures have been completed on 14 April 2011.

In the prior period, the Parent Bank has obtained bonus shares of Yatırım Finansman Menkul Değerler A.Ş., amounting to TL 7.662 with a capital increase of TL 8.000.

In the current period, the Parent Bank has obtained TL 6.705 bonus shares which comes from capital increase of Yatırım Finansman Menkul Değerler A.Ş., amounting to TL 7.000. In order to increase capital and meet cash requirements of TSKB Gayrimenkul Aracılık Hizmetleri A.Ş. that was established on 10 February 2010 with the 96% participation of the Parent Bank with a capital amounting to TL 48 and TSKB Gayrimenkul Danışmanlık Hizmetleri A.Ş. that was established on 6 June 2010 with 1% participation of the Parent Bank with a capital amounting to TL 0.5, it has been decided to make a General Assembly. The capitals for both of the companies have been decided to be increased by TL 50 from TL 190 to TL 240 separately, and the decision has been published in the Turkish Gazette on 21 June 2010. After the capital increase the Parent Bank’s share at these companies did not change. TL 182.4 of increased capital TSKB Gayrimenkul Aracılık Hizmetleri A.Ş and TL 1.9 of increased capital at TSKB Gayrimenkul Danışmanlık Hizmetleri A.Ş. are paid by the Parent Bank.

9. Information related to entities under common control

In the current period, TSKB GYO, one of the subsidiaries of the Parent Bank, established a joint venture with Bilici Yatırım Sanayi ve Ticaret A.Ş. in Adana under the name of Adana Otel Projesi Adi Ortaklığı (“Adana Hotel Project”) on 26 May 2011. The main operations of Adana Otel Projesi Adi Ortaklığı is to start, execute and complete the hotel project which will be operated by Palmira Turizm Ticaret A.Ş.. The capital structure of the joint venture is designated as 50% of participation for Bilici Yatırım Sanayi ve Ticaret AŞ and 50% of participation for the Company. The nominal paid-in capital of Adana Otel Projesi Adi Ortaklığı comprises 20.000 shares of TL 1 for each amounting to TL 20 in total. TSKB GYO has paid TL 10 in cash for the 50% ownership in Adana Otel Projesi Adi Ortaklığı. (31 December 2010: None).
