INTERIM REVIEW REPORT

To the Board of Directors of Türkiye Sınai Kalkınma Bankası A.Ş.

Introduction

We have reviewed the unconsolidated statement of financial position of Türkiye Sınai Kalkınma Bankası A.Ş. ("the Bank") at 30 June 2017 and the related unconsolidated income statement, unconsolidated statement of income and expense items under shareholders' equity, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by BRSA Legislation (together referred as "BRSA Accounting and Financial Reporting Legislation"). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true view of the financial position of Türkiye Sınai Kalkınma Bankası A.Ş. at 30 June 2017 and of the results of its operations and its cash flows for the six-month-period then ended in all material aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, are not consistent with the unconsolidated financial statements and disclosures in all material respects.

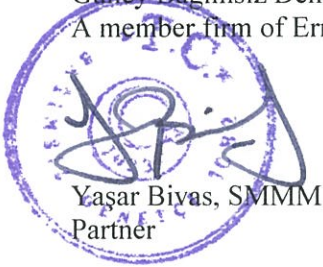

Other Matter

The financial statements of the Bank as of December 31, 2016 and June 30, 2016 were audited and reviewed by another independent audit firm, who expressed an unqualified opinion and conclusion in their audit and review reports dated February 1, 2017 and July 28, 2016 respectively.

Additional paragraph for convenience translation to English

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Financial Reporting Legislation, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION ONE (Continued)

GENERAL INFORMATION (Continued)

IV. Information about the persons and institutions that have qualified shares in the Bank

Explanation about the people and institutions that have qualified shares control the Parent Bank's capital directly or indirectly are described in General Information Section II.

V. Summary on the Bank's functions and areas of activity

Türkiye Sınai Kalkınma Bankası A.Ş. ("the Bank") is the first private development and investment bank which was established by the Council of Ministers resolution number of 3/11203 established in 1950 with the support of World Bank, T.R. Government, T.R. Central Bank and commercial banks. As per the articles of association published in the Official Gazette on 2 June 1950, the aim of the Bank is to support all private sector investments but mostly industrial sectors, to help domestic and foreign capital owners to finance the new firms and to help the improvement of Turkish capital markets. The Bank is succeeding its aims by financing, consulting, giving technical support and financial intermediary services. The Bank, which operates as a non-deposit accepting bank, played a major role on manufacturing and finance sectors in every phase of the economic development of Turkey. The Bank started its journey in 1950 financing the private sector investments in Turkey and today it provides loans and project finance with the goal of sustainable development to corporations in different fields. As a leader in meeting the long term financing needs of the private sector, the Bank also continues to offer solutions with respect to the newest needs and client demands.

The Bank has opened two branches in Izmir and Ankara in April 2006 to enhance marketing and valuation operations.

VI. Differences between the Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards and short explanation about the institution subject to line-by-line method or proportional consolidation and institutions which are deducted from equity or not included in these three methods

Due to differences between the Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Account Standards (TAS), the non-financial subsidiaries and associates, TSKB Gayrimenkul Değerleme A.Ş., TSKB Sürdürülebilirlik Danışmanlığı A.Ş., Terme Metal Sanayi ve Ticaret A.Ş. and Ege Tarım Ürünleri Lisanslı Depoculuk A.Ş. are not consolidated since they are not in scope of financial institutions according to related Communiqué.

The Bank and its financial institutions, Yatırım Finansman Menkul Değerler A.Ş., TSKB Gayrimenkul Yatırım Ortaklığı A.Ş. are included in the accompanying consolidated financial statements line by line consolidation method; İş Finansal Kiralama A.Ş., İş Girişim Sermayesi Yatırım Ortaklığı A.Ş. and İş Faktoring A.Ş. are included in the accompanying consolidated financial statements by equity method.

Financial institutions included in the consolidation are determined in accordance with "Communiqué on Preparation of Consolidated Financial Statements of Banks" published in the Official Gazette dated 8 November 2006 numbered 26340. The Bank has no partnership share on banks and financial institutions, with shareholding of more than 10% and deducted from capital.

Yatırım Finansman Menkul Değerler A.Ş. :

Yatırım Finansman Menkul Değerler A.Ş. ("YF") was established in 15 October 1976. The Company's purpose is to perform capital market operations specified in the Company's articles of association in accordance with the CMB and the related legislation. The Company was merged with TSKB Menkul Değerler A.Ş. on 29 December 2006. The share of Türkiye Sınai Kalkınma Bankası A.Ş. is 95,78%. The company's headquarters is located at Istanbul/Turkey.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE

ACCOUNTING POLICIES

I. Basis of Presentation

I.a Presentation of financial statements:

As prescribed in the Article 37 of the Banking Act No. 5411, the Bank prepares its financial statements and underlying documents in accordance with the “Regulation on the Procedures and Principles for Accounting Practices and Retention of Documents by Banks” and other regulations, explanations and circulars on accounting and financial reporting principles announced by the Banking Regulation and Supervision Agency (“BRSA”) and Turkish Accounting Standards (“TAS”) published by Public Oversight Accounting and Auditing Standards Authority (“POA”) except for matters regulated by BRSA legislation. TAS consists of Turkish Accounting Standards, Turkish Financial Reporting Standards and related appendices and interpretations.

The unconsolidated financial statements have been prepared in TL, under the historical cost convention except for the financial asset, liabilities and buildings revaluation model which are carried at fair value.

The format and content of the accompanying unconsolidated financial statements and footnotes have been prepared in accordance with the “Communique’ on Publicly Announced Financial Statements Explanations and notes to the Financial Statements” and “Communique on Disclosures About Risk Management to be Announced to Public by Banks.”

The amendments of TAS and TFRS, effectiveness date is 1 January 2017, have no material impact on the Bank’s accounting policies, financial position and performance. The amendments of TAS and TFRS, except TFRS 9 Financial Instruments will have no impact on the accounting policies, financial condition and performance of the Bank. The Bank assesses the impact of TFRS 9 Financial Instruments standard.

Amounts in the unconsolidated financial statements, the underlying explanations and disclosures are expressed in Thousands of Turkish Lira unless otherwise stated.

Additional paragraph for convenience translation to English

The effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation and Turkish Accounting Standard 34” Interim Financial reporting” except for the matters regulated by BRSA Legislation accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

I.b The valuation principles used in the preparation of the financial statements

The accounting rules and the valuation principles used in the preparation of the financial statements were implemented as stated in the Turkish Accounting Standards and related regulations, explanations and circulars on accounting and financial reporting principles announced by the BRSA. These accounting policies and valuation principles are explained in the below notes through II to XXII.

I.c The accounting policies for the correct understanding of the financial statements

The following accounting policies that applied according to BRSA regulations and TAS for the correct understanding of the financial statements and valuation principles used in preparation of the financial statements are presented in more detail below.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

II. Explanations on usage strategy of financial assets and foreign currency transactions

The main sources of the funds of the Bank have variable interest rates. The financial balances are monitored frequently and fixed and floating interest rate placements are undertaken according to the return on the alternative financial instruments. The macro goals related to balance sheet amounts are set during budgeting process and positions are taken accordingly.

Due to the fact that the great majority of the loans extended by the Bank have a flexibility of reflecting changes in the market interest rates to the customers, the interest rate risk is kept at minimum level. Moreover, the highly profitable Eurobond and the foreign currency government indebtness securities portfolio have the attribute of eliminating the risks of interest rate volatility.

The fixed rate Eurobond and Greenbond issued by the Bank and a portion of fixed rate funds borrowed are subject to fair value hedge accounting. The Bank enters into interest rate swap agreements in order to hedge the change in fair values of its fixed rate financial liabilities. The changes in the fair value of the hedged fixed rate financial liabilities and hedging interest rate swaps are recognised under the statement of profit/loss.

In the beginning and later period of the hedging transaction, the aforementioned hedging transactions are expected to offset changes occurred in the relevant period of the hedging transaction and hedged risk (attributable to hedging risk) and effectiveness tests are performed in this regard.

The Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the “Dollar off-set model” and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised and recognized in income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

The Bank liquidity is regularly monitored. Moreover, the need of liquidity in foreign currencies is safeguarded by currency swaps.

Commercial placements are managed with high return and low risk assets considering the international and domestic economic expectations, market conditions, creditors’ expectations and their tendencies, interest-liquidity and other similar factors. Prudence principle is adopted in the placement decisions. The long term placements are made under project finance. A credit policy is implemented such a way that harmonizing the profitability of the projects, the collateral and the value add introduced by the Bank.

The movements of foreign exchange rates in the market, interest rates and prices are monitored instantaneously. While taking positions, the Bank’s unique operating and control limits are watched effectively besides statutory limits. Limit overs are not allowed.

The Bank’s strategy of hedging interest rate and foreign currency risks arising from fixed and variable interest rate funds and foreign currency available for sale securities:

A great majority of foreign currency available for sale securities are financed with foreign currency resources. Accordingly, the anticipated possible depreciation of local currency against other currencies is eliminated. A foreign currency basket is formulated in terms of the indicated foreign currency to eliminate the risk exposure of changes in cross currency parity.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

II. Explanations on usage strategy of financial assets and foreign currency transactions (Continued)

Interest rate risk is mitigated by constituting a balanced asset composition in compliance with the structure of fixed and floating rate of funding resources.

The hedging strategies for other foreign exchange risk exposures:

A stable foreign exchange position strategy is implemented and to be secured from cross currency risk, the current foreign exchange position is monitored by considering a currency basket in specific foreign currencies.

The foreign exchange gains and losses on foreign currency transactions are accounted for in the period of the transaction. Foreign exchange assets and liabilities are translated to Turkish Lira using foreign exchange bid rate as of the reporting date, and the resulting gains and losses are recorded in foreign exchange gains or losses.

III. Explanations on forward and option contracts and derivative instruments

The Bank is exposed to financial risk which depend on changes in foreign exchange rates and interest rates due to activities and as part of banking activities uses derivative instruments to manage financial risk that especially associated with fluctuations in foreign exchange and interest rate. Mainly derivative instruments used by the Bank are foreign currency forwards, swaps and option agreements.

The derivative financial instruments are accounted for at their fair values as of the date of the agreements entered into and subsequently valued at fair value. The derivatives instruments including both economic hedges and derivatives specified as hedging items are classified as either "trading purposes" or "hedging purposes" as per the Turkish Accounting Standards ("TAS 39") "Financial Instruments: Recognition and Measurement".

When a derivative financial instrument, is originally designed as a hedge by the Bank, the relationship between the Bank's financial risk from hedged item and the hedging instrument, the risk management objectives and strategy of hedging transaction and the methods that will be used in the measurement of effectiveness, describe in written. The bank, at the beginning of the aforementioned engagement and during the ongoing process, evaluates whether the hedging instruments are effective on changes in the fair values or actual results of hedging are within the range of 80% - 125%.

IV. Explanations on interest income and expenses

Interest income and expenses are recognized in the income statement for all interest bearing instruments on an accrual basis using the effective interest method (the rate that equalizes the future cash flows of financial assets and liabilities to the current net book value).

In accordance with the related regulation, realized and unrealized interest accruals of the non-performing loans are reversed and interest income related to these loans are recorded as interest income only when collected.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

V. Explanations on fees and commission income and expenses

Fees and commissions received from loans, that are not an integral part of the effective interest rate, and fees for various banking services are recorded as income when collected. Fees and commissions paid for the funds borrowed, which are not integral parts of the effective interest rate of the funds borrowed, are recorded as expense on the date of the payment. The fees and commission income and expenses obtained from cash and non-cash loans are recorded under income and expense accounts in the related period by discounting with effective interest method according to matching principle.

VI. Explanations on financial assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Financial instruments constitute the both of the Bank's trading activities and operations. Risks related with these instruments constitutes majority of total risks. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects. The Bank trades these instruments on behalf of its customers and on its own behalf.

Basically, financial assets create the majority of the commercial activities and operations of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date i.e. the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution, and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. In case of application of settlement date accounting, the entity accounts for the changes that occur in the fair value of the asset in the period between commercial transaction date and settlement date as in the assets that the entity settles.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

Fair value differences are not accounted for assets presented at cost or amortized cost; gain or loss of financial assets at fair value through profit and loss are reflected in the income statement, gain or loss of available for sale assets are accounted for under the shareholders' equity.

The methods and assumptions used in determining the reasonable estimated values of all of the financial instruments are explained below.

Cash, Banks and Other Financial Institutions:

Cash and cash equivalents comprise cash in vault and foreign currency cash. Foreign currency cash and foreign currency deposits are reflected to balance sheet in TL which is translated in accordance with prevalent exchange rate on reporting date. The book values of these assets approximate to their fair values.

Marketable Securities:

The Bank classifies its marketable securities in 3 groups:

Financial assets at fair value through profit and loss: These transactions are classified in two categories. (i) Trading securities for the purposes of short term profit taking through sale or buying back in a near future. (ii) The financial assets classified at the inception as financial assets at fair value through profit or loss by the Bank.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VI. Explanations on financial assets (continued)

The Bank uses such classification above when permitted or for the purposes of providing a more proper disclosure.

In this category, trading securities are initially recognized at cost and measured at fair value on the financial statements. Fair values of securities that are traded in an active market are determined based on quoted prices or current market prices.

Gains or losses resulting from such valuation are recorded in the profit and loss accounts. As per the explanations of the Uniform Code of Accounts (UCA), any positive difference between the historical cost and amortized cost of financial assets are booked under the “Interest Income” account, and in case the fair value of the asset is over the amortized cost, the positive difference is booked under the “Gains on Securities Trading” account. If the fair value is under the amortized cost, the negative difference is booked under the “Losses on Securities Trading” account. Any profit or loss resulting from the disposal of those assets before their maturity date is recognized within the framework of the same principles.

Available for sale financial assets are initially recognized at cost including the transaction costs. The interest income related to securities with fixed and variable interest under available for sale financial assets are recorded in interest income. After the initial recognition, available for sale securities are measured at fair value and the unrealized gain/loss originating from the difference between the amortized cost and the fair value is recorded in “Marketable Securities Value Increase Fund” under the equity. All unquoted available for sale stocks are recorded by considering impairment, since respective fair values cannot be reliably measured. At the disposal of available for sale financial assets, value increases/decreases that are recorded in the securities value increase fund under equity are transferred to income statement.

Investments held to maturity include securities with fixed or determinable payments and fixed maturity where there is an intention of holding till maturity and the relevant conditions for fulfilment of such intention, including the funding ability. This portfolio excludes loans and receivables. After initial recognition held to maturity investments are measured at amortized cost by using internal rate of return less impairment losses, if any. Interest income earned from held-to-maturity investments is recognized as interest income on income statement.

The Bank considered expected inflation index of future cash flows prevailing at the reporting date while calculating internal rate of return of the CPI indexed marketable securities. The effect of this application is accounted as interest received from marketable securities in the unconsolidated financial statements.

Explanations on investments in associates and subsidiaries

Investments in associates and subsidiaries are recognized within the scope of “TAS 27-Separate Financial Statements”. Investments in subsidiaries, whose shares are traded in an active market (stock market), are shown in the financial statements with their fair values by taking into account their prices recorded in the related market (stock market). Investments in subsidiaries and associates, whose shares are not traded in an active market (stock market) and fair value is not determined reliably, are followed at their cost of acquisition and these assets are shown in the financial statements with their cost values after the deduction of, if any, impairment losses.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VI. Explanations on financial assets (continued)

Loans:

Loans are financial assets which have fixed payment terms and are not traded.

Loans are initially recognized at cost and measured at amortized cost by using effective interest rate. The duties, charges and other expenses paid for the collaterals obtained against loans are accepted as part of transaction costs and reflected to customers.

Turkish Lira ("TL") cash loans are composed of foreign currency indexed loans and working capital loans; foreign currency ("FC") cash loans are composed of investment loans, export financing loans and working capital loans.

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the income statement.

Provision is set for the loans that may be doubtful and the amount is charged in the current period income statement as well as their classification to non-performing loans as per the related regulations. The collections made related to loans including those on non-performing loans for which provision is made in the current period are recorded in "Provision for Loans and Other Receivables (including received from Loans and receivables with doubtful collectability)" and "Interest Received from Non-performing Loans" account.

Releases of loan loss provisions are recorded by reversing the provisions booked during the year and the collections made related to loan losses previously accounted for are recorded to collections related to the prior period expenses.

VII. Explanations on impairment on financial assets

At each reporting date, the Bank evaluates the carrying amounts of its financial asset or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss. If any such indication exists, the Bank determines the related impairment.

A financial asset or a financial asset group incurs impairment loss only if there is an objective evidence related to the occurrence of one or more than one event ("loss event") after the first recognition of that asset; and such loss event (or events) causes, an impairment as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of high probability the expected losses for future events are not recognized.

Loans are classified and followed in line with the provisions of the "Regulation on Identification of Loans and Other Receivables and Provisioning against Them", published on the Official Gazette No: 26333 dated 1 November 2006. Specific provision is allocated for the total amount of loans and other receivables, which is deemed non-performing, without being restricted by the minimum legal requirements stated in the related regulation, and such specific provisions are recognized in the income statement. The provisions, which are released within the same year, are credited to the "Provision Expenses" account and the released parts of the provisions from the previous years are transferred to and recognized in the "Other Operating Income" account.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VII. Explanations on impairment on financial assets (continued)

Other than specific provisions, the Bank provides general provision for loans and other receivables classified in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables.

VIII. Explanations on offsetting of financial assets and liabilities

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and when the Bank has the intention of collecting or paying the net amount of related assets and liabilities or when the Bank has the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

IX. Explanations on sales and repurchase agreements and lending of securities

Funds provided under repurchase agreements are accounted under “Funds Provided under Repurchase Agreements-TL” and “Funds Provided under Repurchase Agreements-FC” accounts.

The repurchase agreements of the Bank are based on the Eurobonds and government bonds issued by Republic of Turkey Undersecretariat of Treasury. Marketable securities subject to repurchase agreements are classified under fair value profit or loss available for sale or held to maturity financial asset with parallel to classifications of financial instruments. The income and expenses from these transactions are reflected to the interest income and interest expense accounts in the income statement. Receivables from reverse repurchase agreements are recorded in “Receivables from Reverse Repurchase Agreements” account in the balance sheet.

X. Explanations on assets held for sale and discontinued operations

Assets held for sale are measured at the lower of the assets’ carrying amount and fair value less costs to sell. Held for sale assets are not amortized and presented separately in the financial statements. In order to classify an asset as held for sale, only when the sale is highly probable, experienced quite often and the asset (or disposal group) is available for immediate sale in its present condition. Assets held for sale are measured at the lower of the assets’ carrying amount and fair value less costs to sell. Held for sale assets are not amortized and presented separately in the financial statements. In order to classify an asset as held for sale, only when the sale is highly probable, experienced quite often and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale. Highly saleable condition requires a plan by the management regarding the sale of the asset to be disposed (or else the group of assets), together with an active program for determination of buyers as well as for the completion of the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or cancelling the plan is low. Various circumstances and conditions could extend the completion period of the sale more than one year. If such delay arises from any events and conditions beyond the control of the entity and if there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or else group of assets) are continued to be classified as assets held for sale (or else group of assets).

A discontinued operation is a division that is either disposed or held for sale. Results of discontinued operations are included separately in the income statement.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XI. Explanations on goodwill and other intangible assets

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the subsidiary or jointly controlled interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognized at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill is allocated to each of the cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in a subsequent period. On disposal of a subsidiary or a jointly controlled entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

As of reporting date, The Bank has no goodwill on the unconsolidated financial statements.

Intangible assets that are acquired prior to 1 January 2005 are carried at restated historical cost as of 31 December 2004; and those acquired subsequently are carried at cost less accumulated amortization, and any impairment. Intangible assets are depreciated over their expected useful lives. Depreciation method and period are reviewed periodically at the end of each year. Intangible assets are mainly composed of rights and they are depreciated principally on a straight-line basis between 1-15 years.

XII. Explanations on tangible assets

Tangible assets rather than real estate, purchased before 1 January 2005, are accounted for at their restated costs as of 31 December 2004 and the assets purchased in the following periods are accounted for at acquisition cost less accumulated depreciation and reserve for impairment. Gain or loss resulting from disposals of the tangible assets is reflected to the income statement as the difference between the net proceeds and net book value. Normal maintenance and repair expenditures are recognized as expense.

As of the third quarter of 2015, the Bank changed its accounting policy and adopted revaluation method on annual basis under scope of Standard on Tangible Fixed Assets (TAS 16) with respect to valuation of immovable included in its building and lands. The amortization periods of real estates are specified in the appraisal's report. In case of the cost of tangible assets over the net realizable value estimated under the "Turkish accounting standards for impairment of assets" (IAS 36), the value of the asset is reduced to its "net realizable value" and are reserved impairment provision associated with expense accounts. The positive difference between appraisement value and net book value of the property is accounted under shareholder' equity.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)**SECTION THREE (Continued)****ACCOUNTING POLICIES (Continued)****XII. Explanations on tangible assets (continued)**

There is no pledge, mortgage or any other lien on tangible assets. Tangible assets are depreciated with straight-line method and their useful lives are determined in accordance with the Turkish Accounting Standards. Depreciation rates and estimated useful lives of tangible assets are as follows.

Tangible Assets	Expected Useful Lives (Years)	Depreciation Rate (%)
Cashboxes	4-50	2-25
Vehicles	5	20
Other Tangible Assets	1-50	2-100

XIII. Explanations on leasing transactions***The Bank as Lessor***

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Bank's net investment in the leases. The lease payments are allocated as principle and interest. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Bank's net investment outstanding in respect of the leases.

The Bank as Lessee

Assets held under finance leases are recognized as assets of the Bank at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are included in profit or loss in accordance with the Bank's general policy on borrowing costs. Tangible assets acquired by financial leases are amortized based on the useful lives of the assets.

XIV. Explanations on provisions and contingent liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If aforesaid criteria did not form, the Bank discloses the issues mentioned in notes to financial statements. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation, and discounted to present value if material.

Explanations on contingent assets

Contingent assets consist of unplanned or other unexpected events that usually cause a possible inflow of economic benefits to the Bank. Since recognition of the contingent assets in the financial statements would result in the accounting of an income, which may never be generated, the related assets are not included in the financial statements; on the other hand, if the inflow of the economic benefits of these assets to the Bank is probable, an explanation is made thereon in the footnotes of the financial statements. Nevertheless, the developments related to the contingent assets are constantly evaluated and in case the inflow of the economic benefit to the Bank is almost certain, the related asset and the respective income are recognised in the financial statements of the period in which the change occurred.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XV. Explanations on liabilities regarding employee benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Bank. In retirement and involuntarily leaving, the Bank records the present value of the defined benefit obligation. There is no indemnity obligations related to the employees who are employed with contract of limited duration exceeding 12 month period. Actuarial gains and losses are accounted under Shareholder's Equity since 1 January 2013 in accordance with the Revised TAS 19.

Employees of the Bank are members of “Türkiye Sınai Kalkınma Bankası Anonim Şirketi Memur ve Müstahdemleri Yardım ve Emekli Vakfı” and “Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı” (“the Pension Fund”). Technical financial statements of those funds are subject to audit in accordance with the Insurance Law and provisions of “Regulations on Actuaries” issued based on the related law by an actuary registered in the Actuarial Registry.

Paragraph 1 of the provisional Article 23 of the Banking Act (“Banking Act”) No: 5411 published in the Official Gazette No: 25983 on 1 November 2005 requires the transfer of banking funds to the Social Security Institution within 3 years as of the enactment date of the Banking Act. Under the Banking Act, in order to account for obligations, actuarial calculations will be made considering the income and expenses of those funds by a commission consisting of representatives from various institutions. Such calculated obligation shall be settled in equal instalments in maximum 15 years. Nonetheless, the related Article of the Banking Law was annulled by the Constitutional Court’s decision No: E. 2005/39 and K. 2007/33 dated 22 March 2007 that were published in the Official Gazette No: 26479 on 31 March 2007 as of the release of the related decision, and the execution of this article was cancelled as of its publication of the decision and the underlying reasoning for the cancellation of the related article was published in the Official Gazette No: 26731 on 15 December 2007.

After the publication of the reasoning of the cancellation decision of the Constitutional Court, articles related with the transfer of banks pension fund participants to Social Security Institution based on Social Security Law numbered 5754 were accepted by the Grand National Assembly of Turkey on 17 April 2008 and published in the Official Gazette No: 26870 on 8 May 2008.

Present value for the liabilities of the transferees as of the transfer date would be calculated by a commission that involves representatives of Social Security Institution, Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, SDIF, banks and banks’ pension fund institutions and technical interest rate, used in actuarial account, would be 9,80%. If salaries and benefits paid by the pension fund of banks and income and expenses of the pension funds in respect of the insurance branches, stated in the Law, exceeds the salaries and benefits paid under the regulations of Social Security Institution, such differences would be considered while calculating the present value for the liabilities of the transferees and the transfers are completed within 3 years beginning from 1 January 2008.

According to the provisional Article 20 of 73th article of Law No. 5754 dated 17 April 2008, has become effective on 8 May 2008 and was published in the Official Gazette No: 26870, transfer of Pension Funds to Social Security Institution in three years has been anticipated. Related resolution of the Council of Ministers related to four-year extension was published in the Official Gazette No: 28227 dated 8 March 2012. It has been resolved that the transfer process has been extended two year with Council of Ministers’ Decree, has become effective on 9 April 2011 and was published in the Official Gazette No: 27900. The transfer had to be completed until 8 May 2013. Accordingly, it has been resolved that, one more year extension with Council of Minister Decree No: 2013/467, has become effective on 3 May 2013 and was published in the Official Gazette No:28636 and transfer need to be completed until 8 May 2014. However, it has been decided to extend the time related to transfer by the decision of Council of Minister published in the Official Gazette No. 28987 dated 30 April 2014 for one more year due to not to realize the transfer process.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XV. Explanations on liabilities regarding employee benefits (continued)

In accordance with the Health and Safety Law which became effective on 4 April 2015 and published in the Official Gazette No: 29335 and dated 23 April 2015 and together with some amendments and statutory decree, Council of Ministers authorized for the determination of transfer date to the Social Security institution and there is no decision taken by the Cabinet with regards to issue at the date of financial statements.

Unmet social benefits and payments of the pension fund participants and other employees that receive monthly income although they are within the scope of the related settlement deeds would be met by pension funds and the institutions employ these participants after the transfer of pension funds to the Social Security Institution.

The present value of the liabilities, subject to the transfer to the Social Security Institution, of the Pension Fund as of 31 December 2016 has been calculated by an independent actuary in accordance with the actuarial assumptions in the Law and as per actuarial report dated 13 January 2017, as of 31 December 2016, there is no technical or actual shortage requiring provision.

In addition, the Bank's management anticipates that any liability that may come out during the transfer period and after, in the context expressed above, would be financed by the assets of the Pension Fund and would not cause any extra burden on the Bank.

XVI. Explanations on taxation

The income tax charge is composed of the sum of current tax and deferred tax.

The current tax liability is calculated over taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible and it further excludes items that are never taxable or deductible. Liability for current tax is calculated using tax rates that have been enacted by the reporting date.

Deferred tax asset or liability is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and currently enacted tax rates are used to determine deferred tax on income. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax asset is not allocated over the amount of general provisions and provisions for other in accordance with the circular of BRSA dated 8 December 2004 no. BRSA.DZM.2/13/1-a-3.

Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date. Deferred tax is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized and reflected in the income statement as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is also associated directly with equity. Deferred tax assets and liabilities are also offset.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XVI. Explanations on taxation (continued)

According to the second paragraph of the Article 53 of the Banking Act No 5411 dated 19 October 2005, all specific reserves for loans and other receivables are considered as deductible expense for determining corporate tax base.

Transfer pricing

Transfer pricing is regulated through article 13 of Corporate Tax Law titled “Transfer Pricing through camouflage of earnings”. Detailed information for the practice regarding the subject is found in the “General Communiqué Regarding Camouflage of Earnings Through Transfer Pricing”. According to the aforementioned regulations, in the case of making purchase or sales of goods or services with relevant persons/corporations at a price that is determined against “arm’s length principle”, the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not subject to deductions in means of corporate tax.

XVII. Additional explanations on borrowings

The Bank borrows funds from domestic and foreign institutions borrowing from money market and issues marketable securities in domestic and foreign markets when needed.

The funds borrowed are recorded at their purchase costs and valued at amortised costs using the effective interest method. Some of the funds issued by the Bank and resources used with fixed interest rates are subject to fair value hedge accounting

While the credit risk and rediscounted accumulated interest on hedging liabilities are recorded in the income statement under the interest expense, the credit risk and net amount excluding accumulated interest results from hedge accounting are monitored in the income statement under the derivative financial instruments gains/losses by fair value.

All other borrowing costs are recorded to the income statement at the period they are incurred.

XVIII. Explanations on share certificates issued

In the meeting of the General Assembly held on 23 March 2017, it has been resolved that, paid-in capital of the Bank will be increased from TL 2.050.000 to TL 2.400.000 by adding TL 350.000. In respect of the resolution of the General Assembly, all of this increase will be incorporated from the profit of the year 2016. The increase in paid-in capital was approved by the BRSA on 27 April 2017 and disclosed in the dated 12 June 2017 and numbered 9345 Turkish Trade Registry Gazette.

In the meeting of the General Assembly held on 24 March 2016, it has been resolved that, paid-in capital of the Bank will be increased from TL 1.750.000 to TL 2.050.000 by adding TL 300.000. In respect of the resolution of the General Assembly, all of this increase will be incorporated from the profit of the year 2015. The increase in paid-in capital was approved by the BRSA on 6 May 2016 and disclosed in the dated 4 July 2016 and numbered 9110 Turkish Trade Registry Gazette.

XIX. Explanations on acceptances

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as commitments in the off-balance sheet accounts.

XX. Explanations on government incentives

The Bank does not use government incentives.

Details on Subordinated Liabilities:

Issuer	Türkiye Sınai Kalkınma Bankası A.Ş.
Unique identifier (eg CUSIP, ISIN etc.)	XS1584113184
Governing law(s) of the instrument	BRSA, Cominque on Subordinated Liabilities of CMB numbered CMB-II-31.1, SEC, Turkish Law
Regulatory treatment	
Transitional Basel III rules	No
Eligible at stand-alone / consolidated	Stand-alone - Consolidated
Instrument type (Types to be specified by each jurisdiction)	Secondary subordinated loan which is categorized in subordinated loans equalling bill of exchanges
Amount recognised in regulatory capital (Currency in mil, as of most recent reporting date)	1.051
Par value of instrument	1.051
Accounting classification	347011 (Liability) - Subordinated Loans-
Original date of issuance	28 March 2017
Perpetual or dated	Dated
Original starting and maturity date	28 March 2017 - 29 March 2027 (10 years)
Issuer call subject to prior supervisory approval	Yes
Optional call date, contingent call dates and redemption amount	After 5th year
Subsequent call dates, if applicable	After 5th year only for once
Fixed or floating dividend/coupon	Fixed
Coupon rate and any related index	%7,625
Existence of a dividend stopper	None
Fully discretionary, partially discretionary or mandatory	None
Existence of step up or other incentive to redeem	None
Noncumulative or cumulative	Noncumulative
Convertible or non-convertible	
If convertible, conversion trigger (s)	None
If convertible, fully or partially	None
If convertible, conversion rate	None
If convertible, mandatory or optional conversion	None
If convertible, specify instrument type convertible into	None
If convertible, specify issuer of instrument it converts into	None
Write-down feature	
If write-down, write-down trigger(s)	According to number 5411 article, 71th article of Law of Banking and number 6102 article of Turkish Code of Commerce, if BRSA has seem in case of default.
If write-down, full or partial	Full or Partial
If write-down, permanent or temporary	Permanent
If temporary write-down, description of write-up mechanism	None
Position in subordination hierarchy in liquidation (specify instrument type immediately senior to instrument)	After the senior creditors, before the TIER 1 subdebt, same with TIER 2.
In compliance with article number 7 and 8 of "Own fund regulation"	Based on the conditions written on 8th article.
Details of incompliance with article number 7 and 8 of "Own fund regulation"	Not based on the conditions written on 7th article.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**
(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)**SECTION FOUR (Continued)****INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)****II. Explanations related to currency risk**

No long or short position is taken due to the uncertainties and changes in the markets therefore; no exposure to foreign currency risk is expected. However, possible foreign currency risks are calculated on a monthly basis under the standard method in the foreign currency risk table and their results are reported to the official authorities and the Bank's top management. Thus, foreign currency risk is closely monitored. Foreign currency risk, as a part of general market risk, is also taken into consideration in the calculation of Capital Adequacy Standard Ratio.

No short position is taken regarding foreign currency risk, whereas, counter position is taken for any foreign currency risks arising from customer transactions as to avoid foreign currency risk.

Announced current foreign exchange buying rates of the Bank as at reporting date and the previous five working days in US Dollar and Euro are as follows:

	1 US Dollar	1 Euro
The Bank's "Foreign Exchange Valuation Rate"		
30 June 2017	3,5025	4,0062
<u>Prior Five Workdays:</u>		
29 June 2017	3,4825	3,9694
28 June 2017	3,4950	3,9675
23 June 2017	3,4850	3,8896
22 June 2017	3,5050	3,8896
21 June 2017	3,5200	3,9178

Simple arithmetic thirty-day averages of the US Dollar and Euro buying rates of the Bank before the reporting date are full TL 3,4944 and 3,9192; respectively.

SECTION FOUR (Continued)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

III. Explanations related to interest rate risk

Interest rate sensitivity of the assets, liabilities and off-balance sheet items are measured by the Bank. General and specific interest rate risk tables in the standard method, by including assets and liabilities, are taken into account in determination of Capital Adequacy Standard Ratio and to calculate the overall interest rate risk of the Bank.

Forecast results, which have been formed using estimation-simulation reports are prepared and then the effects of fluctuations in interest rates are evaluated with sensitivity and scenario analysis. Cash requirement for every maturity period are determined based on maturity distribution analysis (Gap). In addition, a positive spread between the yield on assets and the cost of liabilities is kept while determining interest rates.

The amount of local borrowings is very low considering the total liabilities of the Bank. As the Bank is a development and investment bank, it obtains most of the funding from abroad.

The fluctuations in interest rates are controlled with interest rate risk tables, gap analysis, scenario analysis and stress tests, its effect in assets and liabilities and the probable changes in cash flows are being screened. The Bank screens many risk control ratios including the markets risk ratio to the sum of risk weighted assets and the ratio of the value at risk calculated as per the internal model to the equity.

Under the scope of risk policies, continuous controls are made to prevent assets or shareholders' equity from adverse effects because of fluctuations in interest rates or liquidity difficulties and top management, the Board of Directors and the Audit Committee are informed of these risks.

IV. Explanations related to stock position risk

The Bank is exposed to equity shares risk arising from investments on firms traded in Borsa Istanbul (BIST). Share certificate investments are almost used for trading purpose. However, these investments are not actively bought/sold by the Bank. The Bank classified its share certificate investments both as available for sale and as trading securities and net profit/loss of the Bank is not affected unless the Bank sell share certificates in portfolio of available for sale.

Equity shares risk due from banking book

Below is the comparison table of the Bank's share certificate instruments' book value, fair value and market value.

Current Period	Comparison		
Share Certificate Investments	Book Value	Fair Value	Market Value
Investment in Shares-Grade A	252.464	-	252.464
Quoted	252.464	-	252.464

V. Explanations related to the liquidity risk management and liquidity coverage ratio

The Bank's future cash flows and current positions are taken into consideration for managing the market and liquidity risks. The Bank does not invest into illiquid markets and instruments. The liquidity ratios are followed up and the maturity match and the coverage of liquidity need are targeted in the context of asset-liability management. Although the Bank started to perform tests to calculate liquidity risk with internal models, the risk is still followed up basically by arranging the risks with respect to (holding period) data.

For the purpose of meeting the liquidity requirement, the Bank chooses one of the four or more of the following; disposing liquid assets, increasing short-term borrowing, decreasing illiquid assets or increasing capital. The Bank's liquidity management is implemented by meeting all the obligations on time considering the Bank's reputation. The cash flow projections and the fund requirement predictions are made by using adverse scenarios to determine liquidity risk under urgent and unexpected circumstances.

The difference in interest rates of assets and liabilities are on behalf of assets as can be seen from the table of interest rate risk. The inconsistency positively affects the profitability and is controlled by the management with regular reports. The Bank meets its short term liquidity requirements with repurchase agreements and inter-bank money market operations. The Bank may also use its available for sale portfolio for urgent liquidity requirement. The Bank meets its long term liquidity needs from the international institutions through borrowings. The liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors relating to both the market in general and specifically to the Bank. For the purposes of monitoring and assessing the liquidity position of the Bank's assets and liabilities, the liquidity rate is weekly calculated.

SECTION FOUR (Continued)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

V. Explanations related to the liquidity risk management and liquidity coverage ratio (continued)

I. Explanations related to the unconsolidated liquidity risk

1.a Information about the governance of unconsolidated liquidity risk management, including: risk tolerance; structure and responsibilities for unconsolidated liquidity risk management; internal unconsolidated liquidity reporting; and communication of unconsolidated liquidity risk strategy, policies and practices across business lines and with the board of director

Bank's risk capacity for liquidity risk is determined by Bank's internal limits and the regulations on liquidity coverage ratio and liquidity adequacy. As per The Regulation on The Calculation of Liquidity Coverage Ratio, minimum limits of 100% and 80% are assigned on consolidated and nonconsolidated basis respectively for total and foreign currency limits while the implementation process is identified by BRSA as setting the limits respectively as 60% and 40% for 2015 and increasing 10 pts per year until 2019 whereas applying this limit as zero per cent for development and investment banks until January 1, 2018.

As per the regulation on liquidity adequacy, development and investment banks, including TSKB, are subject to maintaining the liquidity adequacy ratios above 100% and 80% respectively for total and foreign currency limits both on weekly and monthly basis. In addition, the calculated daily over stock values regardless of maturity ratios' basic arithmetic mean includes 14 days may not be less than 7%.

Regarding it's risk appetite, in addition to legal limits, Bank also applies internal limits for monitoring and controlling the liquidity risk. In this context, it is limited by minimum 25% for the ratio of cash inflow to cash outflow, and by minimum 20% for the ratio of the difference between total inflow and total outflow to total asset within three months' term. It is determined the base limit as 15% for Liquidity ratio (Liquid Asset/ Total Asset). Also for liquidity adequacy ratios on weekly and monthly basis, the capacity risk rating is set as 110%, that is 10% above legal limit, the level of risk appetite as 115% and the risk limit as 120%. Regarding the total liquidity coverage ratio, at the same level as the legal limit, it is determined the capacity risk as 0%, the risk appetite as 40% and the risk limit as 50%.

Internal limits are applied on concentrations basis for single currency, single security and single instrument for the Bank's Treasury placements within Treasury Risk Limits, in purpose of decreasing the liquidity risk related to concentration risk.

Liquidity risk management is conducted by Treasury department in line with the strategies set by Asset and Liability Committee within The Risk Management Policies approved by Board of Directors, and is monitored through reportings from Risk Management, Budget Planning and Financial Control Departments to Audit Committee, Board of Directors, Senior Management and relevant departments.

Asset and Liability Committee has the responsibility of taking the relevant decisions regarding optimal balance sheet management, monitoring the implementations and functions under The General Instruction of Asset and Liability Committee Duties and Responsibilities. The committee that constitutes of Chief Executive Officer, Executive Vice Presidents of Corporate Banking, Treasury, Budget Planning and Department Heads of Corporate Banking, Project Finance, Treasury, Development Finance Institutions, Financial Institutions and Budget Planning and Investor Relations evaluates the market, regulations, cash flow and asset and liability management on monthly basis. Budget Planning and Investor Relations Department is responsible for consolidating the reports to be submitted to Committee, organizing, having signed and archiving the Committee moments and informing the Committee members.

SECTION FOUR (Continued)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

V. Explanations related to the liquidity risk management and liquidity coverage ratio (continued)

I. Explanations related to the unconsolidated liquidity risk (continued)

1.a Informations about the governance of unconsolidated liquidity risk management, including: risk tolerance; structure and responsibilities for unconsolidated liquidity risk management; internal unconsolidated liquidity reporting; and communication of unconsolidated liquidity risk strategy, policies and practices across business lines and with the board of director (continued)

Bank cash management process connotes, within the precedence of fulfilling the future financial obligations and subsequent to credit, placement and borrowing activities, the utilization of the cash position with the highest return in line with the Bank policies and during the liquidity shortfall periods providing funding from the market with the most convenient and low-cost product. Treasury Department carries out this responsibility within the scope of Bank policies, decisions taken in Asset Liability Committees and the limits supplied by Board of Directors. In liquidity shortfall periods, Treasury Department is entitled to provide funding through money market transactions, secured lending or repo transactions. In case of funding except with those products, borrowing transactions are executed with the cooperation of Treasury and Financial Institutions Departments.

Risk Management Department reports to Board of Directors and Asset and Liability Committee on monthly basis regarding the liquidity gap, the legal limits and the internal limits assigned by Board of Directors. Also liquidity stress tests are performed based on various scenarios and reported with their impact on legal limit utilization. Committee evaluates the Bank's one year-term cash position under several assumptions and loan facility projections on monthly basis, it determines strategy for fulfilling it's financial obligations timely and utilizing the idle funds efficiently.

MIS reportings for Treasury Department are conducted by Treasury Control Unit under Budget Planning and Investor Relations Department. Within this scope Treasury Control Unit shares liquidity projections by taking into consideration liquidity position of bank for following week's and three months' cashflows on weekly basis. On monthly basis, cashflow projections on local currency and foreign currency are reported to Asset Liability Committee.

1.b Information on the centralization degree of unconsolidated liquidity management and funding strategy and the functioning between the Bank and the Bank's subsidiaries

There is no liquidity management structure requiring centralization between the Bank and it's subsidiaries.

1.c Information on the Bank's funding strategy including the policies on funding types and variety of maturities

Among the main funding sources of the Parent Bank there are investment bank loans, capital market transactions, syndication loans, DFIs, repo transactions and money market transactions and for minimizing the liquidity risk, diversification on maximum scale with those products within the market conditions is pursued. The funding planning based on those loans is performed long term such as a minimum of one year and the performance is monitored by Asset Liability Committee.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION FOUR (Continued)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

V. Explanations related to the liquidity risk management and liquidity coverage ratio (continued)

I. Explanations related to the unconsolidated liquidity risk (continued)

1.ç Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Bank's total liabilities:

Within the scope of the Bank's balance sheet management, local currency and foreign currency cashflows are monitored diversely. On principal, open position risk is managed actively as a part of liquidity risk management and in context of this strategy required hedging transactions are executed by Treasury Department.

1.d Information on unconsolidated liquidity risk mitigation techniques

Unconsolidated Liquidity limits are defined for the purpose of monitoring and keeping the risk under predefined boundaries. The Bank monitors those limits' utilization and informs Board of Directors, Bank Senior Management and relevant departments regularly. Pursuant to that, the ratio of cash inflows to cash outflows within three months' term is limited to at least 25% whereas for the same term the ratio of the difference between total inflows and total outflows to total assets is limited to at most 20%. The base limit for Liquidity Ratio (Liquid Assets/Total Assets) is defined as 15%. Within those limits, Treasury Department performs the required transactions with the relevant cost and term composition under market conditions from the sources previously defined in Article C. Adequate limits to be utilized in a contingent case remains at the disposal before legal authority.

1.e Information on the use of stress tests

As part of unconsolidated liquidity stress tests, the Bank's compatibility with the legal limits under stress conditions is subject to probe. The legal limits assigned for liquidity risk management consists of five ratios derived from The Regulation on Liquidity Adequacy Ratio and liquidity coverage ratio derived from The Regulation on Liquidity Coverage Ratio. Stress tests are performed over those ratios' calculations by practicing liquidity shocks while assuming that the nonshocked components are held constant. Among liquidity stress tests, the risks arising from funding, intraday liquidity, marketable securities and concentration are addressed. Subject to those, the scenarios of possible funding shortage in Interbank Money Market, liquidity shortage that may arise in private sector and the risk originating from the Bank's loan portfolio due to the concentration risk are applied separately on overall portfolio of the Bank.

1.f General information on urgent and unexpected unconsolidated liquidity situation plans

There is a Contingency Funding Plan for the contingent periods that arises beyond the Bank's control. In a potential liquidity shortfall, Treasury Department is responsible from assessment, taking relevant actions and informing Asset and Liability Committee. In contingent cases, to identify the liquidity risk arising, cashflow projections and funding requirement estimations are exercised based on various scenarios. To assess the stress scenarios, cashflow in terms of local currency is monitored regularly by Treasury Department. Scenario analysis on the Bank's unencumbered sources are conducted daily. Transaction limits for organized markets are monitored timely and essential collateral amount to trade in those markets is withheld at hand. Repo transactions and/or available for sale portfolio securities in local and foreign currency that are major funding sources in shortfall periods for the Bank are monitored consistently. In contingent periods outflows due to the irrevocable commitments, contingencies and derivative transactions can be deferred temporarily in a way that won't hurt the Bank's reputation. TSKB has the optionality of choosing one or more of the following for meeting it's liquidity requirement that are selling liquid assets off, increasing short term borrowing, decreasing illiquid assets, increasing capital.

SECTION FOUR (Continued)

INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)

V. Explanations related to the liquidity risk management and liquidity coverage ratio (continued)

3. Minimum explanations related to the liquidity coverage ratio by Banks

3.a The major components affecting liquidity coverage ratio and the change in the contributing elements in time

Borrowing Securities that mainly comprised of government securities and Required Reserves are major components of High Quality Liquid Assets that affect unconsolidated Liquidity Coverage Ratio essentially. Depending on the market conditions and the Bank's Treasury Department's decisions the proportion of local currency and foreign currency based securities within Borrowing Securities may vary.

3.b Information on the components of High Quality Liquid Assets

High Quality Liquid Assets mainly comprises of exposure to Central Bank, that is Required Reserves and Borrowing Securities, that are government securities.

3.c The components of funding and their proportion in overall

Main funding source of the Bank is long term loans attained from international financial institutions. The ratio of those loans in total funding is around 64% while 88% of it is provided under the guarantee of The Undersecretariat of Treasury of Turkish Republic. The average tenor of long term loans is 11 years. The total ratio of the securities issued in purpose of funding diversification and loans attained through syndication loans in overall borrowing is 26% and alternative funding sources such as repo and syndication loans are also available.

3.ç Cash outflows generating derivative transactions and informations about transactions are liable to warrant completing

The Bank's derivative transactions are mainly executed with the counterparties having ISDA and CSA agreements due to the client transactions and position hedging within Bank's balance sheet management. Those transactions are monitored through market valuation of the transactions with each of the counterparties. Collateralization with counterparties is executed on daily basis.

3.d Counterparty and product-based funding sources and collateral concentration limits on

The funding sources of the Bank, that's main business area is development banking, are international development banks and financial institutions in general. On counterparty and product basis there is no concentration limit.

3.e Taking into account the legal and operational liquidity transfer inhibiting factors, the needed funds and the unconsolidated liquidity risk exposure based on Banks itself, the branches in foreign countries and unconsolidated partnerships

None.

3.f Taken in the calculation of unconsolidated liquidity coverage ratio but not included in the disclosure template in the second paragraph and the information regarding the other cash inflows and cash outflows items which are thought to be related to the Bank's unconsolidated liquidity profile

None.

Total	10.376	819.939	161.276	616.771

(*) Deposits at Central Bank of Turkey held as reserve requirement.

As per the Communiqué numbered 2005/1 “Reserve Deposits” of the CBRT, banks keep reserve deposits at the CBRT for their TL and FC liabilities mentioned in the communiqué. Reserves are calculated and set aside every two weeks on Fridays for 14 days periods. The CBRT has started to pay interest to the Required Reserves held in Turkish Lira according to regulation released at 5 November 2014.

In accordance with the regulation issued at 27 January 2015, CBRT has began to collect monthly commissions over daily balances of Two Days Notice Deposit Accounts and Required Reserves held in the foreign currencies, to be valid from 1 February 2015. The CBRT Required reserves of 2 May 2015 has started to pay interest to the Required reserves, reserve options and unrestricted account held in US dollars according to regulation released at 5 May 2015.

As per the “Communiqué on Amendments to be Made on Communiqué on Required Reserves” of Central Bank of Turkey, numbered 2011/11 and 2011/13, required reserves for Turkish Lira and Foreign currency liabilities are set at Central Bank of Turkey based on rates mentioned below. Reserve rates prevailing at 30 June 2017 are presented in table below:

Reserve Rates for Turkish Lira Liabilities (%)	
Original Maturity	Reserve Ratio
Other liabilities until 1 year maturity (1 year included)	10,5
Other liabilities until 3 year maturity (3 year included)	7
Other liabilities more than 5 year maturity	4

Reserve Rates for FC Liabilities (%)		
Original Maturity	Reserve Ratio If the fund borrowed Before 28.08.2015	Reserve Ratio If the fund borrowed After 28.08.2015
Other liabilities until 1 year maturity (1 year included)	19	24
Other liabilities until 2 year maturity (2 year included)	13	19
Other liabilities until 3 year maturity (3 year included)	7	14
Other liabilities until 5 year maturity (5 year included)	6	6
Other liabilities more than 5 year maturity	5	4

Total	163.627	172.286	125.819	249.626

Bank has entered into extinguishing cross-currency interest rate swaps as part of its strategy to hedge TL denominated fixed rate assets. These swap arrangements provide that, on the occurrence of certain credit-related events in relation to the company (such as failure to make a payment), the swap arrangements may immediately terminate with no further payments due and payable by either party. As of 30 June 2017, the fair value of such swaps is TL 88.994 with a total outstanding notional amount of 200 million. The average maturity of such swaps range between 2020 and 2022 years.

NOTES TO THE FINANCIAL STATEMENTS

III. Explanations related to the off-balance sheet items (continued)

2. Explanation related to derivative financial instruments

Not prepared in accordance with the Article No.25 of the Communiqué on the Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks.

3. Explanations on loan derivatives and risk exposures

Not prepared in accordance with the Article No.25 of the Communiqué on the Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks.

4. Explanations on contingent liabilities and assets

There are 33 legal cases against the Bank which are amounting to TL 1.968 as of the reporting date (31 December 2016: TL 2.115 - 37 legal cases).

Tax Audit Committee inspectors made an investigation for the years 2008-2011 about the payments made by the Bank and employees to “Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı” (Foundation) established in accordance with the decisions of Turkish Commercial Law and Civil Law as made to all Foundations in the sector. According to this investigation it has been communicated that the amount Bank is obliged to pay is a benefit in the nature of fee for the members of Foundation worked at the time of payment, the amount Foundation members are obliged to pay should not been deducted from the basis of fee; accordingly tax audit report was issued with the claim that it should be taken penalized income tax surcharge / penalized stamp duty deducted from allowance and total amount of TL 17.325 tax penalty notice relating to period in question to Bank relying on this report.

The Bank assesses that the Bank’s practice is in compliance with the legislation and there is no legal basis for the tax administration’s suspended assessments, therefore, lawsuits have been filed against the subjected assessments in various tax courts in İstanbul, Ankara and İzmir. Some of the lawsuits are decided favourable, remaining of lawsuits are decided unfavourable by the tax courts of first instance. On the other hand, appeal and objection have been requested by the Bank against the decision of the Court with respect to the Bank and by the administration against the decision of the Court with respect to the administration and completion of appeal process is waited. The tax and penalty notices related to the decision of the tax court of first instance against the Bank are accrued by administration depending on legal process and as of 31 July 2014 the Bank has made total payments amounting to TL 22.091.

A similar case has been submitted to the Constitutional Court (AYM) in the form of individual remedies by the main shareholder of the parent Bank in relation to the parent Bank’s liabilities to pay, the Constitutional Court gave the decision with court file number 2014/6192. According to court decision published in the Official Gazette dated 21 February 2015 and numbered 29274, the assessments against the parent Bank was contrary to the principle of legality and the Bank’s property rights has been violated. This decision is considered to be a precedent for the Bank and an amount of TL 12.750 corresponding to the portion that the parent Bank was obliged to pay for the related period is recognised as income in the prior period.

According to Law Department of the Bank, other cases which are to the detriment of the bank has no significant effect on the financial statements.

5. Custodian and intermediary services:

FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**

SECTION SEVEN

INFORMATION ON INTERIM ACTIVITY REPORT

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities

A. GENERAL INFORMATION

Changes Pertaining to the Board Members, CEO and Executive Vice Presidents of the Bank During the Period

The changes pertaining to the Board of Directors during the period are provided below. There have been no changes in the senior management.

On March 22, 2017, Mr. Mithat Rende was elected as a Board Member, a seat vacated by Mr. Kemal Saç, who resigned from his position. Mr. Rende sworn into office on April 4, 2017. Mr. H. Ersin Özince was elected as a Member and the Chairman of the Board, two positions vacated by Mr. Adnan Bali, who resigned from his capacities as the Board Member and Chairman of the Board on April 7, 2017.

On June 7, 2017, Mr. Fikret Utku Özdemir resigned from his position. Mr. Mehmet Şencan was elected as a Member and Vice Chairman of the Board. Mr. Mehmet Emin Özcan was elected as a Member of the Board, a seat vacated by Mr. Halil Aydoğan, who resigned from his capacity as a Member of the Board on June 14, 2017.

The biographies of Mr. H. Ersin Özince, Mr. Mithat Rende, Mr. Mehmet Şencan and Mr. Mehmet Emin Özcan are provided below:

H. Ersin Özince

H. Ersin Özince was born in Havran in 1953 and graduated from Middle East Technical University, Faculty of Administrative Sciences, Business Administration Department. He started his professional career at İşbank as an Assistant Inspector on the Board of Inspectors in 1976. After working in various managerial positions at İşbank, Mr. Özince was promoted to the post of Deputy Chief Executive in 1994 responsible for Treasury, Financial Management, Capital Markets, Loans and the Credit Information and Financial Analysis departments of the Bank. Mr. Özince was appointed as the 15th Chief Executive Officer of İşbank on 28 October 1998.

Elected as a Board member on 31 March 2011, 28 March 2014 and 31 March 2017, Mr. Özince has been serving as the Chairman since 1 April 2011. He also serves as the Chairman of the Remuneration Committee since 29 December 2011, as a member of the Audit Committee, T.R.N.C. Internal Systems Committee and an alternate member of the Credit Committee since April 4 2017.

Mr. Özince served as the Chairman of the Board of Directors of the Banks Association of Turkey between 2 November 1998 - 31 May 2000, and 3 June 2002 - 1 April 2011, as the Chairman of the Board of Directors of Türkiye Sınai Kalkınma Bankası A.Ş. between 17 April 2009 – 1 April 2011, and the Chairman of the Board of Directors of T. Şişe ve Cam Fabrikaları A.Ş. between 28 November 1998 - 14 April 2006, and 1 April 2011 - 6 April 2017.

In addition to his duties at the Bank, he serves as the Chairman of the Board of Türkiye İş Bankası A.Ş. Members Supplementary Pension Fund, and as a member of the Board of Trustees of Turkish Foundation for Combating Soil Erosion for Reforestation and the Protecting of Natural Habitats (TEMA Foundation), Mr. Özince is also the Chairman of the Board of Directors of Türkiye Sınai Kalkınma Bankası A.Ş. since 7 April 2017.

Mithat Rende

Born in 1953 in Antakya, Mithat Rende graduated from the Faculty of Political Science of the University of Ankara. After graduation he worked in the Ministry of Commerce and then was admitted to the Ministry of Foreign Affairs, where he held posts in Damascus, Rome, Brussels (NATO), Sofia, Vienna (OSCE) and London. Ambassador Rende also served as the Director of the Human Rights Department at the Ministry after completing the post-graduate program in Security and International Relations at the London-Royal College of Defence Studies.

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (Continued)

A. GENERAL INFORMATION (Continued)

Changes Pertaining to the Board Members, CEO and Executive Vice Presidents of the Bank During the Period (Continued)

In 2005 he was appointed as Deputy Director General of Energy Environment and Water Affairs, served as Chairman of the Trade and Transit Working Group of the Energy Charter Conference in Brussels between 2005 and 2008, and was appointed as Ambassador to Doha (Qatar) in 2007. Ambassador Rende served as Director General of Multilateral Economic Affairs and Turkey's Chief Negotiator for Climate Change between 2010-2013. He was also a member on the Turkish Nuclear Energy Commission during the same period. Ambassador Rende was appointed as the OECD Permanent Representative of Turkey in 2013, and was elected as Chairman of the Executive Committee of the OECD in 2014. He retired in 2016 and since April 4, 2017 has been a member of the TSKB Board of Directors.

Mehmet Şencan

Mehmet Şencan was born in Adapazarı in 1964 and graduated from Management Engineering in Istanbul Technical University. He started his professional career at İşbank Galata Branch as officer and joined İşbank's Board of Inspectors. With the title of Financial Analyst and Foreign Exchange Officer, Mr. Şencan appointed to Bursa Branch as Deputy Manager while he has IV. degree inspector title in 1997, then served as Branch Manager at various cities. He became the Capital Corporate Branch Manager in 2011 and Kozyatağı Corporate Branch Manager in 2016. Mr. Şencan was appointed as Executive Vice President of İşbank on 27 April 2017. Mr. Şencan has been the vice president of the TSKB's Board of Directors since June 07, 2017.

Mehmet Emin Özcan

Mehmet Emin Özcan was born in 1960 and graduated from Ankara University, Faculty of Political Science and Department of Economics. Having started his professional career as an Assistant Auditor at İşbank in 1983, he held several managerial positions at Albaraka Türk Katılım Bankası. Between 2003 and 2005, he served as a Managing Board Member at Halkbank. During the same period, Mr. Özcan was a representative of the Bank in the IIF (Institute of International Finance) and a Board member of Demir-Halk Bank/Netherlands, Halk Yatırım Menkul Değerler and Halk Finansal Kiralama. Between 2005 and 2010, he was a member of the Board of Directors of Ziraatbank; he also served as Chairman and board member at various Ziraatbank subsidiaries. Between 2010 and 2013, he was assigned as Deputy Chairman of the Board of Directors at T. Halk Bankası A.Ş. and board member of Demir-Halk Bank Rotterdam. In 2013, he was elected as Deputy Chairman of Vakıfbank and held deputy and board chairman positions in several Vakıfbank subsidiaries. Having been appointed as the Turkish Republic of Northern Cyprus Central Bank Governor in 2017, he resigned from his position at Vakıfbank. In June 9, 2017 he was appointed as the general manager in Vakıfbank. Since 20 June 2017, Mr. Özcan has been a member of board of directors at TSKB.

Information on the Bank's Board Meetings

The Board of Directors made 28 resolutions between January 1, 2017 - June 30, 2017. Members of the Board of Directors were sufficiently involved in the meetings.

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

- I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (Continued)**
- B. ASSESSMENTS OF THE BOARD CHAIRMAN FOR THE PERIOD**

The second quarter of 2017 emerged as a period when the risk appetite recorded a relative growth globally and the flow of hot money to developing countries accelerated. The currencies of developing countries including the Turkish Lira appreciated against the US Dollar. The dissipating political uncertainties and the robust economic recovery in Europe saw the EUR/USD parity, which stood at 1.06 at the end of Q1, rebound to reach 1.14 by the end of Q2. On the other hand, concerns regarding global liquidity rose as the Fed hiked the benchmark interest rate by 25 basis points and outlined its plans to scale back its balance sheet while the European Central Bank and the Bank of England issued tightening signals. This led to an increase in bond interest rates in developed countries. The course of global markets in the upcoming period will be shaped by the decisions the central banks will make and the corresponding expectations.

The macroprudential policies as well as public finance incentives and support which are domestically introduced in the second half of last year all continue to make a visible positive impact on domestic demand. The reviving private consumption also contributed to the Turkish economy, which thereby grew by 5% in the first quarter. This growth was fueled mainly by exports and public expenditures, which closely followed private consumption. Furthermore, some leading indicators including mainly the Purchasing Managers' Index for Turkey's Manufacturing Sector point out to a strong growth in the second quarter of the year. In the light of such indicators, expectations regarding the Turkish economy have recently been revised upwards. Besides, contrary to projections, consumer inflation in June dropped by 27 basis points to an annual 10.90% under the impact of falling clothing and food prices. The recent growth indicators and improving growth expectations has led to a probability that the weakening cost-push inflationary pressure will be replaced by a demand-pull inflationary pressure. Therefore, we believe TCMB (Central Bank of the Republic of Turkey) will sustain its prudent attitude, maintain its firm stance and continue to closely monitor the incoming data for some more time.

Made widely available specifically from April onwards, the Credit Guarantee Fund (CGF) produced positive results in both reinvigorating economic activities and ensuring loan growth in the banking sector. As of the end of June, the limit extended by banks under CGF stood at almost TL 200 billion. The loan growth in the first six months of the year mainly originated from the increase in TL denominated corporate loans and reached 10.7%, and the sector maintained its asset quality. In addition to the CGF, the subordinated loans issued during the period helped the capital adequacy ratio of the sector to stay close to 17%, as reported by the BRSA (Banking Regulation and Supervision Agency) in May. We expect loan growth to decelerate slightly in the second half of the year and complete the year at around 15-20%.

The second quarter saw an acceleration in lending operations in the banking sector and also emerged as a highly productive and successful period for TSKB. In line with its mission, the Bank increased the funding it offered to its customers to around USD 1 billion in the first six months with a 13.1% increase in TL denominated loans and thus attained a loan growth that surpassed the banking sector average for the period. TSKB will continue to support the Turkish economy for the rest of the year through both financial and consultancy products.

Sincerely,

Chairman of the Board
H. Ersin Özince

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

- I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (Continued)**
- C. ASSESSMENTS OF THE CHIEF EXECUTIVE OFFICER FOR THE PERIOD**

The tendency for a horizontal move in domestic markets in the first quarter on a year-on-year basis was replaced by a more optimistic atmosphere when political uncertainties vanished in the second quarter and the incentives and support mechanisms employed by the authorities bore fruit. The leading indicators reported in the aftermath of a 5% economic growth in the first quarter gave rise to higher expectations for Turkey's economic growth in 2017. Our growth projection by year-end is around 5%. At TSKB, we continued to support development at full throttle in the second quarter just as it had been the case in the first quarter. The loan agreements we signed in the first six months amounted to USD 1.6 billion while the amount of cash loans we extended stood around USD 1 billion. The recent loans extended have mainly focused on renewable energy projects, infrastructure investments for organized industrial zones and commercial real estate projects having green certificates. "Women's employment" was a specifically attractive theme for investors among the funding themes available.

We extended our syndicated loans with a renewal rate of 108% which is higher than the current renewal rates in the sector as it had been the case last year. On July 4, 2017, we extended a syndicated loan of USD 300 million with the participation of a total of 18 banks from 12 countries. The loan was comprised of two different tranches, one worth EUR 212,000,000 and the other worth USD 56,500,000. Such performance by our syndicated loan is a solid and reiterated confirmation of the confidence the international finance world has for the Turkish economy and TSKB. We plan to utilize the syndicated loan in order to offer foreign trade financing solutions to private sector companies as a priority.

Another highlight from the period was the awards TSKB received at EMEA Finance Awards 2017. Receiving a broad recognition on international platforms thanks to the innovative themes and products it has developed, our Bank's green bond won the "Best Green Bond in Central and Eastern Europe" award. In project finance, TSKB received a total of four awards for the projects it co-funded as part of a consortium: One award each for Aksa Doğalgaz and Tredaş projects and two separate awards for Galataport project.

Furthermore, we are proud that the IIRC (International Integrated Reporting Council) included TSKB's 2016 Integrated Report, the first integrated report in the Turkish finance industry that we published in the first quarter, among the example reports in its database. We will continue to set examples for the real and financial sectors in this field.

The stable and robust performance we produced enabled us to tally yet another successful quarter. We attained a currency-adjusted loan growth rate of 9.3% and a TL denominated loan growth rate of 13.1% in addition to an asset growth rate of 7.5%. Our equities rose by 14.3% year-on-year to reach TL 3.2 billion. As of June 30, 2017, our net profit for the period increased by an annual 16.9% and stood at TL 291.3 million. Moreover, we had a return on equity rate of 19.1%.

As we leave behind our 67th year of operations, we will continue to maintain this strong performance, strengthen the long-term cooperation we have established with the international financial institutions, diversify our funds through innovative ideas and increase the support we have been extending for the development of our country.

Sincerely,

CEO and Board Member
Suat İnce

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (Continued)

D. ECONOMIC DEVELOPMENTS DURING THE INTERIM PERIOD

Economic Developments in the First 6 Months of 2017

In the first quarter of 2017, Turkish economy grew by 5.0% on a year-on-year basis. In Q1, household consumption rose by 5.1%, thus emerging as the driver for growth. Data adjusted for seasonal and calendar effects indicated that the GDP increased by 1.4% in the first quarter of 2017 when compared to the previous quarter. As of the end of March 2017, the size of Turkish economy stood at TL 2.67 trillion (USD 840 billion).

Inflation data by Turkstat revealed that annual inflation based on consumer prices was 10.90% as of June 2017. As of 2016 year-end, the inflation rate rose to 8.53%. The delayed impact of FX rate increase and the hike in food prices and global commodity prices in the last quarter of last year all contributed to the rising inflation.

Turkstat data suggests that industrial production rose on an annual basis in the first five months of the year excluding February. The increase rate stood at 1.7% on average for the first quarter of the year but accelerated and increased to 3% for the first five months.

The strong growth in iron and steel, energy and automotive exports and the decrease in textiles and gold exports in the first five months of the year led to an increase of 9.5% in total exports which stood at USD 64.3 billion. During the period, energy imports rose by 38% and gold imports surged by 258%, causing the total imports to increase by 11.2% and reach USD 89.1 billion. This led the foreign trade deficit to rise to USD 24.8 billion with an increase of 15.7%. In the first five months, the rate of exports meeting imports stood at 72.1%.

Current accounts deficit completed 2016 at USD 32.6 billion which corresponded to 3.8% of the GDP but rose by 28% to USD 35.3 billion on a year-on-year basis in the first five months of 2017.

Ministry of Finance data showed that the central administration budget had a TL 25.2 billion deficit in the first six months of 2017. The budget previously had a TL 1.1 billion surplus during the same period of the previous year. In the first quarter, tax revenues increased by 13.6% to reach TL 216 billion and primary expenditures rose by 20% to stand at TL 247 billion. Primary surplus, on the other hand, fell by 93% to TL 1.7 billion year-on-year in the first half of 2017.

Markets

During the first half of the year, markets were led by such developments as expectations on the economic policies of the new administration in the U.S., the elections in the Netherlands and France, and the Fed's interest rate decision. The Fed could only hike the rates once a year in the past but dropped the frequency of such hikes to 3 months and thus increased the benchmark interest rate twice during the first half of the year to take it up to the range of 1-1.25%. The U.S. Dollar depreciated in global markets due to the facts that the Fed hiked interest rates by issuing signals in advance in an effort not to disrupt market dynamics, the inflation data remained below expectations and the targeted financial incentives have not yet been introduced. On the other hand, Euro appreciated as growth in the Eurozone became significant and the election calendar unfolded in a way to reduce political risks in the European Union. EUR/USD parity started the year at 1.03 and rose to 1.14 at the end of June. Such developments improved the risk appetite in the first six months of the year and enabled portfolio investments to shift to developing countries despite the political issues in Brazil and South Africa and the referendum process in Turkey.

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (Continued)

D. ECONOMIC DEVELOPMENTS DURING THE INTERIM PERIOD

The currencies of developing countries appreciated and the stock exchanges rose. Interest rates for bonds increased globally due to support expectations for growth, the Fed's steps and statements pointing out to a tightening, expected rise in inflation, and the signals from the European, Canadian and English Central Banks after the Fed that loose monetary policies will be over.

The price of Brent Crude started to climb in the aftermath of the November 2016 OPEC meeting when OPEC made a decision to cut down on production and rose to USD 55 in January but declined to USD 45 due to the weakening U.S. economy and the increase in production in the U.S. and the countries excluded from the OPEC agreement.

Turkey, on the other hand, had a very busy agenda in the first half of the year including items such as the referendum on Constitutional amendments, the Government's incentives programs to support growth, employment and investments, the establishment of the Sovereign Wealth Fund of Turkey, and the upward impact on loan volume as created by the fact that the limit of the Credit Guarantee Fund is increased to TL 250 billion. In order to control inflation and reduce volatility in FX rates, the Central Bank shifted the marginal funding facility for markets to mainly the late liquidity window, the rate for which is taken to 12.75%, thus raising the weighted average cost of funding to 12.0% from 8.3%. Stocks presented a positive outlook mainly due to capital inflow into emerging markets while the global developments, rising inflation and tightening steps by the Central Bank increased the interest rates for bonds. Starting the year at 3.52, USD/TL rate surged to 3.94 during the period but completed it at 3.52 owing to the tightening measures by the Central Bank and the inflow of foreign capital. The two-year benchmark bond interest started the first half of the year at 10.63% and finished it at 11.12%. BIST-100 completed the first half at 100,440 with an increase of 28.5%.

Banking Sector

In the first quarter of 2017, total loans grew by 10.7% on a nominal basis, and by 9.6% on an fx adjusted basis. The loan growth was driven by TL denominated loans and, among them, specifically the growth in TL denominated commercial loans on installment as accelerated by the Credit Guarantee Fund support. Total TL denominated loans increased by 16.6% on a year-to-date basis while the FX-denominated currency-adjusted loans fell by 1.4%. 63% of the rise in TL denominated loans was due to the increase in TL denominated commercial loans on installment. On the other hand, TL denominated corporate loans grew by 22.4% on a year-to-date basis and 76% of this increase originated from the growth in TL denominated commercial loans on installment. FX denominated corporate loans, on the other hand, fell by 1.4% as other FX denominated corporate loans declined by 2.1% on a currency adjusted basis. In personal loans, housing loans grew by 10.1% and general purpose loans rose by 8.0% while individual credit card debts increased by 2.2% and the vehicle loans extended by the banking industry fell by 1.5%. An analysis of the annual loan growth rates shows that the annual growth rate for TL denominated loans reached 23.5% under the impact of commercial loans on installment that increased in the aftermath of the Credit Guarantee Fund support, while the total annual loan growth rate stood at 17.8%. The banking industry both achieved such growth rates and maintained the existing level of asset quality.

E. GENERAL ASSEMBLY RESOLUTIONS (Continued)

- Determining the maximum limit of donations to be made in 2017,
- Granting permission to Board Members in relation to the transactions stated in Articles 395 and 396 of the Turkish Commercial Code,

were adopted by majority of votes.

The General Assembly was informed on the donations made during the year and on the transactions under Article 1.3.6 of the Corporate Governance Communique No.II-17.1 by the CMB.

F. HIGHLIGHTS FROM THE BANK'S OPERATIONS DURING THE INTERIM PERIOD

On July 4, 2017, our Bank signed a syndicated loan agreement comprised of two different tranches, one worth EUR 212,000,000 and the other worth USD 56,500,000, on a maturity of 367 days. Extended on a renewal rate of 108%, the loan agreement was participated by a total of 18 banks under the coordination of Commerzbank Aktiengesellschaft, Filiale Luxemburg with Bayerische Landesbank acting as the facility agent.

During the second quarter of the year, our Bank received new awards from eminent institutions on the international arena. TSKB received 5 distinct awards at the "EMEA Finance Awards 2017" by EMEA Finance, a leading financial publication in Europe, Middle East and Africa. Four of the awards are in the field of project finance while the last one is given as an acknowledgment for the Bank's Green/Sustainable Bond issuance. The awards received are stated below:

- Tredaş "Best Structured Finance Deal in Central and Eastern Europe"
- Syndicated loan agreement for Aksa Doğalgaz Dağıtım and Kazancı Holding "Best Syndicated Loan in Central and Eastern Europe"
- Galataport project "Best Infrastructure Deal" and "Best Privatization Deal in the Middle East and Africa"
- "Best Green Bond in Central and Eastern Europe"

Another highlight from the period is that the IIRC (International Integrated Reporting Council) included TSKB's 2016 Integrated Report, the first integrated report in the Turkish finance industry that is published in March 2017, among the example reports in its database. TSKB retains its position among the leading institutions in sustainability.

Developments Regarding the Bank's Corporate Governance Operations

During the Ordinary General Assembly Meeting of our Bank, it is resolved in relation to cash dividends that a gross TL 82,000,000, which corresponds to 4% of the paid-in capital, out of TL 432,000,000, the total of primary and secondary dividends, be distributed to shareholders in cash, and TL 350,000,000, which corresponds to 17.07% thereof, be given as bonus share to be used in increasing the capital of our Bank to TL 2,400,000,000 from TL 2,050,000,000, and the distribution of the bonus share dividends start following the CMB approval for the issuance certificate regarding the said shares.

On March 27, 2017, dividends were distributed first to shareholders and then to Board Members and employees. In addition, required approvals were obtained from the BRSA and the CMB, and the capital increase transaction was completed on May 29, 2017.

F. HIGHLIGHTS FROM THE BANK'S OPERATIONS DURING THE INTERIM PERIOD (Continued)

On June 19, 2017, an Agreement for Rating Compliance with Corporate Governance Principles was signed by and between our Bank and SAHA Kurumsal Yönetim ve Kredi Derecelendirme Hizmetleri A.Ş., subject to biennial renewal.

During the Board meeting of June 7, 2017, the following decisions were issued in relation to Board Committees due to changes in the membership structure of the Board of Directors:

- Mr. Mehmet Şencan was elected as a member of the Audit Committee,
- Mr. Can Yücel was elected as a member of the Corporate Governance Committee,
- Mr. Mehmet Şencan was elected as a member of the Credit Revision Committee.

G. FINANCIAL DEVELOPMENTS DURING THE INTERIM PERIOD

The summary for the Bank's main financial indicators as of June 30, 2017 is provided below:

The total asset size grew by 18.4% on a year-on-year basis and by 7.5% compared to 2016 year-end to reach TL 25,794 million.

The total loan portfolio stood at TL 19,586 million, marking an increase of 37.5% on a year-on-year basis and 13.1% on a year-to-date basis. The fx-adjusted growth in loans stood at 9.3% on a year-to-date basis. The ratio of non-performing loans to total loans stayed at 0.3% in the first six months.

Shareholders' equity rose by 14.3% on a year-on-year basis and by 8.6% compared to 2016 year-end to reach TL 3,182 million. The capital adequacy ratio stood at 17.4% in the first quarter of 2017 before rising to 17.5% as of the end of June 2017.

As of June 30, 2017, net profit increased by 16.9% on an annual basis to reach TL 291,334 thousand.

Return on equity stood at 18.9% in June 2016, 17.6% at 2016 year-end, and 19.1% in June 2017.

Return on assets stood at 2.3% in June 2016, decreasing to 2.1% at 2016 year-end before rising up to 2.3% again in June 2017.

In the first six months of 2017, total operating income increased by 22.1% on an annual basis to reach TL 465.7 million while other operating expenses rose by 11.9% to TL 67.3 million. The expense-to-income ratio stood at 15.8% in June 2016 but increased to 15% at 2016 year-end before falling to 14.5% in the first six months of 2017.

Forward-Looking Expectations

In consideration of the data and leading indicators for the first half of the year, the 2017 growth projection of the Bank for the Turkish economy has been revised from the initial 3-3.5% in January to 5%, and the annual inflation projection has been revised from 8.5% to 9%. The inflation projection to be considered in appraising CPI-indexed securities is an annual 10%.

TSKB's currency-adjusted loan growth stood at 9.3% in the first half of the year. In line with the Bank's target to attain an annual currency-adjusted loan growth of 10-13%, it is projected that a 13% loan growth will easily be attained by year end.

**INFORMATION ON INTERIM ACTIVITY REPORT
FOR THE INTERIM PERIOD 1 JANUARY-30 JUNE 2017**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (Continued)

G. FINANCIAL DEVELOPMENTS DURING THE INTERIM PERIOD (Continued)

Renewable energy projects including solar and wind power projects as well as environmental, energy and resource efficiency projects, public-private partnership projects and investments supporting sustainable development such as SME financing will continue to stand out in the Bank's efforts to extend new loans. Furthermore, projects on women's employment, occupational health and safety are among the top items on the Bank's agenda.

As the Bank's targets that were publicly announced in January but are not stated above are in parallel with the accomplishments in June, the said projections were not changed.

H. RISK MANAGEMENT

TSKB Risk Management policies and code of conduct regarding such policies are the written standards set out by the Board of Directors and implemented by the senior Bank management.

Within the scope of the TSKB Risk Management Policies, the basic risks that the Bank is exposed to are the loan risks, assets-liabilities management risks (market risk, structural interest rate risks, liquidity risks) and operational risks, and a Risk Management Department has been established within the Bank to for the management of the Bank's risks pursuant to said policies, as well as for the compliance with the aforementioned risk policies and the relevant code of conduct.

TSKB Risk Management Department actively undertakes efforts in all processes related to risk management, and regularly reports to the Board of Directors, Audit Committee, senior management and relevant departments of the Bank. Its functions, responsibilities and structure are set out by the bylaws of the Risk Management Department.

I. FURTHER INFORMATION

Statements regarding the developments that have a significant impact on the Bank's operations are given above. For further information, please kindly visit the following website for the annual report of 2016:
