**Publicly announced consolidated financial statements and
related disclosures at June 30, 2018 together with
auditor's review report and interim activity report**

**(Convenience translation of publicly announced consolidated financial
statements and independent auditor's review report originally issued in Turkish,
See Note I. of Section Three)**

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I. of Section three)

INTERIM REVIEW REPORT

To the Board of Directors of Türkiye Sınai Kalkınma Bankası A.Ş.

Introduction

We have reviewed the consolidated statement of financial position of Türkiye Sınai Kalkınma Bankası A.Ş. ("the Bank") and its consolidated financial subsidiaries (together will be referred as "the Group") at 30 June 2018 and the related consolidated income statement, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the six-month period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by BRSA Legislation (together referred as "BRSA Accounting and Financial Reporting Legislation"). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Basis for Qualified Conclusion

As explained in Note 7 in the Explanations and Disclosures related to the Liabilities, the accompanying consolidated financial statements as at 30 June 2018 include a free provision at an amount of TL 130.000 thousands, of which TL 190.000 thousands was provided in prior years and TL 60.000 thousands reversed in the current period by the Bank management, for the possible effects of the negative circumstances which may arise in the economy or market conditions and include the reversal of deferred tax asset at an amount of TL 41.800 thousands, which was accounted based on the free provision provided in 31 December 2017. Due to the fact that the above mentioned items do not meet the requirements of TAS 37, the "Prior years' income/losses" as of 30 June 2018 is understated by TL 148.200 thousands after deducting the tax effect and the "pretax income" is overstated by TL 60.000 thousands.

Qualified Conclusion

Based on our review, except for the effects of the matter on the consolidated financial statements described in the basis for qualified conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying consolidated financial information do not present fairly in all material respects the financial position of Türkiye Sınai Kalkınma Bankası A.Ş. and its consolidated financial subsidiaries at 30 June 2018 and the results of its operations and its cash flows for the six-month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, are not consistent with the consolidated financial statements and disclosures in all material respects.

Additional paragraph for convenience translation to English

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Financial Reporting Legislation, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

GENERAL INFORMATION (Continued)

IV. Information about the persons and institutions that have qualified shares in the Parent Bank

Explanation about the people and institutions that have qualified shares control the Parent Bank's capital directly or indirectly are described in General Information Section II.

V. Summary on the Parent Bank's functions and areas of activity

Türkiye Sınai Kalkınma Bankası A.Ş. is the first private development and investment bank which was established by the Council of Ministers resolution number of 3/11203 established in 1950 with the support of World Bank, Government of Republic of Turkey, Central Bank of Republic of Turkey and commercial banks. As per the articles of association published in the Official Gazette on 2 June 1950, the aim of the Parent Bank is to support all private sector investments but mostly industrial sectors, to help domestic and foreign capital owners to finance the new firms and to help the improvement of Turkish capital markets. The Parent Bank is succeeding its aims by financing, consulting, giving technical support and financial intermediary services. The Parent Bank, which operates as a non-deposit accepting bank, played a major role on manufacturing and finance sectors in every phase of the economic development of Turkey. The Parent Bank started its journey in 1950 financing the private sector investments in Turkey and today it provides loans and project finance with the goal of sustainable development to corporations in different fields. As a leader in meeting the long term financing needs of the private sector, the Parent Bank also continues to offer solutions with respect to the newest needs and client demands.

The Parent Bank has executed marketing and valuation operations efficiently with two branches opened in Izmir and Ankara on April 2006.

TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE

ACCOUNTING POLICIES

I. Basis of presentation

I.a Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents

The unconsolidated financial statements are prepared within the scope of the Banking Law No.5411 "Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents", dated November 1, 2006 which is published in the Official Gazette No: 26333, which refers to "Turkish Accounting Standards" ("TAS"), put into effect by Public Oversight Accounting and Auditing Standards Authority ("POA"), and "Turkish Financial Reporting Standards" ("TFRS") issued by the "Turkish Accounting Standards Board" ("TASB") and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles (all "Turkish Accounting Standards" or "TAS") published by the Banking Regulation and Supervision Agency ("BRSA") and in case where a specific regulation is not made by BRSA, the format and detail of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements". The consolidated financial statements have been prepared in TL, under the historical cost convention except for the financial asset, liabilities and buildings revaluation model which are carried at fair value.

Accounting policies and valuation principles used in the preparation of the interim financial statements are determined and applied, in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency ("BRSA"), and are consistent except for the application of TFRS 9 with the accounting policies applied in the annual financial statements prepared for the year ended 31 December 2017. The Parent Bank has adopted TFRS 9 "Financial Instruments" which is related to the classification and measurement of financial Instruments published by the Public Oversight Accounting and Auditing Standards Authority ("POA") in the Official Gazette numbered 29953 dated 19 January 2017 instead of "TAS 39 Financial Instruments: Accounting and Measurement" starting from 1 January 2018. TFRS 9 mainly sets out the new principles for the classification and measurement of financial instruments and expected credit loss which will be calculated for financial assets. TFRS 9 permits to defer application of TFRS 9 hedge accounting principles and permits the companies continue to apply hedge accounting principles of TAS 39 as a policy choice. In accordance with the transition rules of TFRS 9, the prior period financial statements and notes are not restated. Accounting policies and valuation principles used for the year 2018 and 2017 periods are separately presented in the notes and the accounting policies for the year 2017 are included in Section three notes XXVI. Impacts of transition to TFRS 9 and its adoption is disclosed in Section three notes XXV. The Group also assessed the effect of TFRS 15 "Revenue from Contracts with Customers" standard.

Additional paragraph for convenience translation to English

The effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation and Turkish Accounting Standard 34 "Interim Financial reporting" except for the matters regulated by BRSA Legislation accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

I.b The valuation principles used in the preparation of the financial statements

The accounting rules and the valuation principles used in the preparation of the financial statements were implemented as stated in the BRSA Financial Reporting Standards. These accounting policies and valuation principles are explained in the below notes through II to XXVI.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

I. Basis of presentation (continued)

I.c In preparing the consolidated financial statements, items which different accounting policies adopted and their ratio on total of related consolidated financial statement

There is no different accounting policy used in consolidated financial statements.

II. Explanations on usage strategy of financial assets and foreign currency transactions

The main sources of the funds of the Group have variable interest rates. The financial balances are monitored frequently and fixed and floating interest rate placements are undertaken according to the return on the alternative financial instruments. The macro goals related to balance sheet amounts are set during budgeting process and positions are taken accordingly.

Due to the fact that the great majority of the loans extended by the Parent Bank have a flexibility of reflecting changes in the market interest rates to the customers, the interest rate risk is kept at minimum level. Moreover, the highly profitable Eurobond and the foreign currency government indebtness securities portfolio have the attribute of eliminating the risks of interest rate volatility.

The fixed rate Subordinated bond, Eurobond and Greenbond issued by the Parent Bank and a portion of fixed rate funds borrowed are subject to fair value hedge accounting. The Parent Bank enters into interest rate swap agreements in order to hedge the change in fair values of its fixed rate financial liabilities. The changes in the fair value of the hedged fixed rate financial liabilities and hedging interest rate swaps are recognized under the statement of profit/loss. At the beginning and later period of the hedging transaction, the aforementioned hedging transactions are expected to offset changes occurred in the relevant period of the hedging transaction and hedged risk (attributable to hedging risk) and effectiveness tests are performed in this regard.

The Parent Bank performs effectiveness test at the beginning of the hedge accounting and at each reporting period. The effectiveness tests are carried out using the “Dollar off-set model” and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness. The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized and recognized in income statement over the life of the hedged item from that date of the hedge accounting is discontinued. The Group liquidity is regularly monitored. Moreover, the need of liquidity in foreign currencies is safeguarded by currency swaps.

Commercial placements are managed with high return and low risk assets considering the international and domestic economic expectations, market conditions, creditors’ expectations and their tendencies, interest-liquidity and other similar factors. Prudence principle is adopted in the placement decisions. The long term placements are made under project finance. A credit policy is implemented such a way that harmonizing the profitability of the projects, the collateral and the value add introduced by the Parent Bank.

The movements of foreign exchange rates in the market, interest rates and prices are monitored instantaneously. While taking positions, the Bank’s unique operating and control limits are watched effectively besides statutory limits. Limit overs are not allowed.

The Group’s strategy of hedging interest rate and foreign currency risks arising from fixed and variable interest rate funds and foreign currency available for sale securities:

A great majority of foreign currency available for sale securities are financed with foreign currency resources. Accordingly, the anticipated possible depreciation of local currency against other currencies is eliminated. A foreign currency basket is formulated in terms of the indicated foreign currency to hedge the risk exposure of changes cross currency parity.

TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

II. Explanations on usage strategy of financial assets and foreign currency transactions (continued)

Interest rate risk is mitigated by constituting a balanced asset composition in compliance with the structure of fixed and floating rate of funding resources.

The hedging strategies for other foreign exchange risk exposures, a stable foreign exchange position strategy is implemented and to be secured from cross currency risk, the current foreign exchange position is monitored by considering a currency basket in specific foreign currencies.

The foreign exchange gains and losses on foreign currency transactions are accounted for in the period of the transaction. Foreign exchange assets and liabilities are translated to Turkish Lira using foreign exchange bid rate as of the reporting date, and the resulting gains and losses are recorded in foreign exchange gains or losses.

III. Information about the Parent Bank and its subsidiaries and associates subject to consolidation

Explanations about the Parent Bank and its subsidiaries and associates subject to consolidation are described in General Information Section V.

IV. Explanations on forward and option contracts and derivative instruments

The Parent Bank is exposed to financial risk which depends on changes in foreign exchange rates and interest rates due to activities and as part of banking activities uses derivative instruments to manage financial risk that especially associated with fluctuations in foreign exchange and interest rate. Mainly derivative instruments used by the Group are foreign currency forwards, swaps, and option agreements.

The derivative financial instruments are accounted for at their fair values as of the date of the agreements entered into and subsequently valued at fair value. Derivative financial instruments of the Parent Bank are classified under "TFRS 9 Financial Instruments" ("TFRS 9"), "Derivative Financial Assets Designated at Fair Value Through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value Through Other Comprehensive Income". Payables and receivables arising from the derivative instruments are recorded in the off-balance sheet accounts at their contractual values. Derivative transactions are valued at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, if the fair value is positive, the amount is classified as "Derivative Financial Assets Designated at Fair Value Through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value Through Other Comprehensive Income", if the fair value is negative, the amount is classified as "Derivative Financial Liabilities Designated at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities Designated at Fair Value Through Other Comprehensive Income". The fair value differences of derivative financial instruments are recognized in the income statement under trading profit/loss line in profit/loss from derivative financial transactions.

When a derivative financial instrument, the originally designed as a hedge by the Parent Bank, the relationship between the Bank's financial risk from hedged item and the hedging instrument, the risk management objectives and strategy of hedging transaction and the methods that will be used in the measurement of effectiveness, describe in written. The Parent Bank, at the beginning of the aforementioned engagement and during the ongoing process, evaluates whether the hedging instruments are effective on changes in the fair values or actual results of hedging are within the range of 80% - 125%.

TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

V. Explanations on associates and subsidiaries

In the unconsolidated financial statements, the financial associates and subsidiaries are accounted for using the equity method in accordance with the Communiqué published on the Official Gazette dated 9 April 2015 no.29321 related to the amendments to the Turkish Accounting Standard 27 (TAS 27) “Separate Financial Statements”.

In accordance with the Turkish Accounting Standard 28 (TAS 28) for “Investments in Associates and Joint Ventures” through the equity method, the carrying value of financial subsidiaries are accounted in the financial statements with respect to the Parent Bank’s share in these investments’ net asset value. While the Parent Bank’s share on profits or losses of financial subsidiaries are accounted in the Parent Bank’s statement of profit or loss, the Parent Bank’s share in other comprehensive income of financial subsidiaries are accounted in the Parent Bank’s other comprehensive income statement. Non-financial subsidiaries and associates are accounted at cost in the financial statements after provisions for impairment losses deducted, if any, in accordance with TAS 27.

VI. Explanations on interest income and expenses

Interest income is recorded according to the effective interest rate method (rate equal to net present value of future cash flows or financial assets and liabilities) defined in the TFRS 9 “Financial Instruments” standard by applying the effective interest rate to the gross carrying amount of a financial asset except for: purchased or originated credit-impaired financial assets or financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets.

If the financial asset is impaired and classified as a non-performing receivable, the Parent Bank applies the effective interest rate on the amortized cost of the asset for subsequent reporting periods. Such interest income calculation is made on an individual contract basis for all financial assets subject to impairment calculation. It is used effective interest rate during calculation of loss given default rate in expected credit loss models and accordingly, the calculation of expected credit losses includes an interest amount. Therefore, a reclassification is made between the accounts of “Expected Credit Losses” expense and “Interest Income From Loans” for calculated amount. If the credit risk of the financial instrument improves to the extent that the financial asset is no longer considered as impaired and the improvement can be attributed to an incident that eventually takes place (such as an increase in the loan's credit rating), interest income at subsequent reporting periods are calculated by applying the effective interest rate to the gross amount.

VII. Explanations on fees and commission income and expenses

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers. Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting throughout the service period. Income from asset purchases to a third party or by natural or legal persons contracts are recognized in the period they occur.

VIII. Explanations on financial assets

Initial measurement of financial instruments

Initial recognition of financial instruments the Parent Bank shall recognize a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. A regular way purchase or sale of financial assets shall be recognized and derecognized, as applicable, using trade date accounting or settlement date accounting. Purchase and sale transactions of securities are accounted at the settlement date.

FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VIII. Explanations on financial assets (continued)

Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on the contractual conditions and the relevant business model. Except for the assets in the scope of TFRS 15 Revenue from contracts with customers, at initial recognition, the Parent Bank measures financial asset or financial liabilities at fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit/loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Classification of financial instruments

On which category a financial instruments shall be classified at initial recognition depends on both the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Assessment of business model

As per TFRS 9, the Parent Bank's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The business model does not depend on the intent of the management on an individual financial intermediary, so the condition is not a classification approach on the basis of a financial instrument but an evaluation by combining the financial assets. When the business model used for the management of financial assets is being evaluated, all evidence is taken into account. Such evidence includes the following:

- How the performance of financial assets held by the business model and business model is reported by the key executive personnel,
- Risks affecting the performance of the business model (financial assets held within the business model) and, in particular type of management,
- How the additional payments to the managers are determined (for example, whether additional payments are determined according to the fair value of the assets being managed or on the contractual cash flows collected).

Business model evaluation is not based on scenarios in which the operator is not expected to be at a reasonable level, such as the "worst case" or "pressure case" scenarios. The same business model does not require a change in the classification of other financial assets as long as the cash flows are realized differently from the expected future date when the business model is assessed, the error correction is made in the financial statements or all relevant information available at the time of the valuation of the business model is taken into account. However, when evaluating the business model for newly created or newly acquired financial assets, information about how past cash flows have been taken into account along with other relevant information is also taken into account. The business models that comprise the bet are composed of three categories. These categories are as follows:

- Business model aimed to hold assets in order to collect contractual cash flows: This is a model whose objective is to hold assets in order to collect contractual cash flows are managed to realise cash flows by collecting contractual payments over the life of the instrument. The financial assets that are held within the scope of this business model are measured at amortized cost when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Business model whose objective is to hold assets in order to collect contractual cash flows: The Parent Bank may hold financial assets in this business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VIII. Explanations on financial assets (continued)

Fair value change of the financial assets that are held within the scope of this business model are accounted under other comprehensive income when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- Other Business Model: Financial assets are measured at fair value through profit or loss if they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets

The contractual cash flows including solely principle and interest on principle

As per TFRS 9, the Parent Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In order to assess whether the element provides consideration for only the passage of time, an entity applies judgement and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. When the contractual conditions are exposed to the risks which are not consistent with the basic lending arrangement or variability of cash flows, the relevant financial asset is measured at fair value through profit or loss.

Measurement categories of financial assets and liabilities

As of 1 January 2018, the Bank classified all its financial assets based on the business model for managing the financial assets. Effect of this classification is explained in Note XXV in Section Three. In this context, Financial assets are classified in three main categories as listed below:

- Financial assets measured at fair value through profit/loss
- Financial assets measured at fair value through other comprehensive income and
- Financial assets measured at amortized cost

a. Financial assets at the fair value through profit or loss

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aimed to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and in case of the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from shortterm fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. According to uniform chart of accounts explanations interest income earned on financial asset and the difference between their acquisition costs and amortized costs are recorded as interest income in the statement of profit or loss. The differences between the amortized costs and the fair values of such assets are recorded under trading account income/losses in the statement of profit or loss. In cases where such assets are sold before their maturities, the gains/losses on such sales are recorded under trading account income/losses.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VIII. Explanations on financial assets (continued)

b. Financial Assets at Fair Value Through Other Comprehensive Income

In addition to Financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are measured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement.

“Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated Other Comprehensive Income or Loss Reclassified Through Profit or Loss” under shareholders’ equity. Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

During initial recognition an entity can choose in a irrevocable was to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

c. Financial Assets Measured at Amortized Cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost. Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

In the “Fair value through other comprehensive income” and “measured at amortized cost” securities portfolio of the Bank, there are Consumer Price Indexed (CPI) Bonds.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

VIII. Explanations on financial assets (continued)

The Parent Bank considered expected inflation index of future cash flows prevailing at the reporting date while calculating internal rate of return of the Consumer Price Indexed (CPI) marketable securities. The effect of this application is accounted as interest received from marketable securities in the consolidated financial statements. These securities are valued and accounted according to the effective interest method based on the real coupon rates and the reference inflation index at the issue date and the estimated inflation rate. As stated in the Investor's Guide of CPI Government Bonds by Republic of Turkey Undersecretariat of Treasury the reference indices used to calculate the actual coupon payment amounts of these securities are based on the previous two months CPI's. The Parent Bank determines the estimated inflation rate accordingly. The inflation rate is estimated by considering the expectancies of the Central Bank and the Bank which are updated as needed within the year.

d. Loans

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate (internal rate of return) Method". Duties paid, transaction costs and other similar expenses on assets received against such risks are considered as a part of transaction cost and charged to customers. Turkish Lira ("TL") cash loans are composed of foreign currency indexed loans and working capital loans; foreign currency ("FC") cash loans are composed of investment loans, export financing loans and working capital loans.

All loans of the Parent Bank has classified under Measured at Amortized Cost, after loan portfolio passed the test of " All cash flows from contracts are made only by interest and principal" during the transition period.

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the income statement

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

IX. Explanations on expected credit losses

The Parent Bank allocates the expected loss provision for financial assets measured at amortized cost and at fair value through other comprehensive income.

As of 1 January 2018, the Group recognize provisions for impairment in accordance with TFRS 9 requirements according to the “Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside” published in the Official Gazette dated 22 June 2016 numbered 29750. In this framework, as of 31 December 2017, method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9. The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions. These financial assets are divided into three categories depending on the increase in credit risk observed since their initial recognition:

Stage 1:

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk is recorded in the amount of 12-month expected credit losses.

Stage 2:

In the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined on the basis of the instrument’s lifetime expected credit losses.

Stage 3:

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized and interest revenue is calculated on the net carrying amount.

Significant increase in credit risk

The Parent Bank makes qualitative and quantitative assessments regarding assessment of significant increase in credit risk of financial assets to be classified as stage 2 (Significant Increase in Credit Risk).

Within the scope of quantitative assessment, The quantitative reason explaining the significant increase in the credit risk is based on a comparison of the probability of default calculated at the origination of the loan and the probability of default assigned for the same loan as of the reporting date. If there is a significant deterioration in PD , it is considered that there is a significant increase in credit risk and the financial asset is classified as stage 2. In this context, the Parent Bank has calculated thresholds at which point the relative change is a significant deterioration. When determining the significant increase in bank credit risk, The Parent Bank also assessed the absolute change in the PD date on the transaction date and on the reporting date. If the absolute change in the PD ratio is above the threshold values, the related financial asset is classified as stage 2.

The Parent Bank classifies the financial asset as Stage 2 (Significant Increase in Credit Risk) where any of the following conditions are satisfied as a result of a qualitative assessment:

- Loans overdue more than 30 days as of the reporting date
- Loans classified as watchlist
- When there is a change in the payment plan due to restructuring

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

X. Explanations on offsetting of financial assets and liabilities

Financial assets and liabilities are offset when the Parent Bank has a legally enforceable right to set off, and when the Parent Bank has the intention of collecting or paying the net amount of related assets and liabilities or when the Parent Bank has the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

XI. Derecognition of financial instruments

Derecognition of financial assets due to change in contractual terms

Based on TFRS 9, the renegotiation or modification of the contractual cash flows of a financial asset can lead to the derecognition of the existing financial asset. When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of the modified financial asset, the modified asset is considered a ‘new’ financial asset. When the Parent Bank assesses the characteristics of the new contractual terms of the financial asset, it evaluates the contractual cash flows including foreign currency rate changes, conversion to equity, counterparty changes and solely principal and interest on principle. When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, it is recalculated the gross carrying amount of the financial asset and recognized a modification gain or loss in profit or loss.

Where all risks and rewards of ownership of the asset have not been transferred to another party and the Bank retains control of the asset, the Bank continues to recognize the remaining portion of the asset and liabilities arising from such asset. When the Parent Bank retains substantially all the risks and rewards of ownership of the transferred asset, the transferred asset continues to be recognized in its entirety and the consideration received is recognized as a liability.

Derecognition of financial assets without any change in contractual terms

The asset is derecognized if the contractual rights to cash flows from the financial asset are expired or the related financial asset and all risks and rewards of ownership of the asset are transferred to another party. Except for equity instruments measured at fair value through other comprehensive income, the total amount consisting of the gain or loss arising from the difference between the book value and the amount obtained and any accumulated gain directly accounted in equity shall be recognized in profit/loss.

Derecognition of financial liabilities

It shall be removed a financial liability (or a part of a financial liability) from the statement of financial position when, and only when, it is extinguished when the obligation specified in the contract is discharged or cancelled or expires.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XII. Explanations on sales and repurchase agreements and lending of securities

Funds provided under repurchase agreements are accounted under “Funds Provided under Repurchase Agreements-TL” and “Funds Provided under Repurchase Agreements-FC” accounts.

The repurchase agreements of the Parent Bank are based on the Eurobonds and government bonds issued by Republic of Turkey Undersecretariat of Treasury. Marketable securities subject to repurchase agreements are classified under assets at fair value through profit or loss, assets at fair value through other comprehensive income or assets at measured at amortized costs with parallel to classifications of financial instruments. The income and expenses from these transactions are reflected to the interest income and interest expense accounts in the income statement. Receivables from reverse repurchase agreements are recorded in “Receivables from Reverse Repurchase Agreements” account in the balance sheet.

XIII. Explanations on assets held for sale and discontinued operations

Assets held for sale are measured at the lower of the assets’ carrying amount and fair value less costs to sell. This assets are not amortized and presented separately in the financial statements. In order to classify a tangible fixed asset as held for sale, the asset (or the disposal group) should be available for an immediate sale in its present condition subject to the terms of any regular sales of such asset (or such disposal groups) and the sale should be highly probable. For a highly probable sale, the appropriate level of management must be committed to a plan to sell the asset (or the disposal groups) , and an active programme to complete should be initiated to locate a customer. Also the asset (or the disposal group) should have an active market sale value, which is a reasonable value in relation to its current fair value. Also, the sale is expected to be accounted as a completed sale beginning from one year after the classification date; and the essential procedures to complete the plan should indicate the possibility of making significant changes on the plan or lower probability of cancelling. Events or circumstances may extend the completion of the sale more than one year. Such assets are still classified as held for sale if there is sufficient evidence that the delay in the sale process is due to the events and circumstances occurred beyond the control of the entity or the entity remains committed to its plan to sell the asset (or disposal group). A discontinued operation is a component of a bank that either has been disposed of , or is classified as held for sale. Gains or losses relating to discontinued operations are presented separately in the income statement.

XIV. Explanations on goodwill and other intangible assets

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the subsidiary or jointly controlled interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognized at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill is allocated to each of the cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit.

TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş. AND ITS SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XIV. Explanations on goodwill and other intangible assets (continued)

An impairment loss recognized for goodwill is not reversed in a subsequent period. On disposal of a subsidiary or a jointly controlled entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal. As of reporting date, The Parent Bank has no goodwill on the unconsolidated financial statements. Intangible assets that are acquired prior to 1 January 2005 are carried at restated historical cost as of 31 December 2004; and those acquired subsequently are carried at cost less accumulated amortization, and any impairment. Intangible assets are depreciated on a straight line basis over their expected useful lives. Depreciation method and period are reviewed periodically at the end of each year. Intangible assets are mainly composed of rights and they are depreciated principally on a straight-line basis between 1-15 years.

XV. Explanations on tangible assets

Tangible assets rather than real estate, purchased before 1 January 2005, are accounted for at their restated costs as of 31 December 2004 and the assets purchased in the following periods are accounted for at acquisition cost less accumulated depreciation and reserve for impairment. Gain or loss resulting from disposals of the tangible assets is reflected to the income statement as the difference between the net proceeds and net book value.

As of the third quarter of 2015, the Group changed its accounting policy and adopted revaluation method on annual basis under scope of Standard on Tangible Fixed Assets (TAS 16) with respect to valuation of immovable included in its building and lands. The amortization periods of real estates are specified in the appraisal's report. In case of the cost of tangible assets over the net realizable value estimated under the "Turkish accounting standards for impairment of assets" (TAS 36), the value of the asset is reduced to its "net realizable value" and are reserved impairment provision associated with expense accounts. The positive difference between appraisement value and net book value of the property is accounted under shareholder' equity. Related valuation models such as cost model, market value and discounted cash flow projections approaches are used in valuation of real estates.

Normal maintenance and repair expenditures are recognized as expense. There is no pledge, mortgage or any other lien on tangible assets. Tangible assets are depreciated with straight-line method and their useful lives are determined in accordance with the Turkish Accounting Standards. Depreciation rates and estimated useful lives of tangible assets are as follows.

Tangible Assets	Expected Useful Lives (Years)	Depreciation Rate (%)
Cashvault	4-50	2-25
Vehicles	5	20
Buildings	50	2
Other Tangible Assets	1-50	2-100

Investment Properties

Investment properties are real estate held to earn rent income, gain in value or both. An investment property is recognized as an asset if it is probable that future economic benefits related to the property will be available to operate and the cost of the investment property can be reliably measured. The fair value model has been chosen for valuation of investment properties. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss in the period in which they arise.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XVI. Explanations on leasing transactions

The Group as Lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Group's net investment in the leases. The lease payments are allocated as principle and interest. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

The Group as Lessee

Assets held under finance leases are recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are included in profit or loss in accordance with the Group's general policy on borrowing costs. Tangible assets acquired by financial leases are amortized based on the useful lives of the assets.

XVII. Explanations on provisions and contingent liabilities

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If aforesaid criteria did not form, the Group discloses the issues mentioned in notes to financial statements. Provisions are determined by using the Parent Bank's best expectation of expenses in fulfilling the obligation, and discounted to present value if material. Contingent assets consist of unplanned or other unexpected events that usually cause a possible inflow of economic benefits to the Group.

Explanations on contingent assets

Since recognition of the contingent assets in the financial statements would result in the accounting of an income, which may never be generated, the related assets are not included in the financial statements; on the other hand, if the inflow of the economic benefits of these assets to the Parent Bank is probable, an explanation is made thereon in the footnotes of the financial statements. Nevertheless, the developments related to the contingent assets are constantly evaluated and in case the inflow of the economic benefit to the Parent Bank is almost certain, the related asset and the respective income are recognized in the financial statements of the period in which the change occurred.

XVIII. Explanations on liabilities regarding employee benefits

Severance pay according to the current laws and collective bargaining agreements in Turkey, is paid in case of retirement or dismissal. The Group calculates a provision for severance pay to allocate that employees need to be paid upon retirement or involuntarily leaving by estimating the present value of probable amount. There is no indemnity obligations related to the employees who are employed with contract of limited duration exceeding 12 month period. Actuarial gains and losses are accounted under Shareholder's Equity since 1 January 2013 in accordance with the Revised TAS 19.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XVIII. Explanations on liabilities regarding employee benefits (continued)

Employees of the Parent Bank are members of “Türkiye Sınai Kalkınma Bankası Anonim Şirketi Memur ve Müstahdemleri Yardım ve Emekli Vakfı” and “Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı” (“the Pension Fund”). Technical financial statements of those funds are subject to audit in accordance with the Insurance Law and provisions of “Regulations on Actuaries” issued based on the related law by an actuary registered in the Actuarial Registry.

Paragraph 1 of the provisional Article 23 of the Banking Act (“Banking Act”) No: 5411 published in the Official Gazette No: 25983 on 1 November 2005 requires the transfer of banking funds to the Social Security Institution within 3 years as of the enactment date of the Banking Act. Under the Banking Act, in order to account for obligations, actuarial calculations will be made considering the income and expenses of those funds by a commission consisting of representatives from various institutions. Such calculated obligation shall be settled in equal instalments in maximum 15 years. Nonetheless, the related Article of the Banking Law was annulled by the Constitutional Court’s decision No: E. 2005/39 and K. 2007/33 dated 22 March 2007 that were published in the Official Gazette No: 26479 on 31 March 2007 as of the release of the related decision, and the execution of this article was cancelled as of its publication of the decision and the underlying reasoning for the cancellation of the related article was published in the Official Gazette No: 26731 on 15 December 2007.

After the publication of the reasoning of the cancellation decision of the Constitutional Court, articles related with the transfer of banks pension fund participants to Social Security Institution based on Social Security Law numbered 5754 were accepted by the Grand National Assembly of Turkey on 17 April 2008 and published in the Official Gazette No: 26870 on 8 May 2008.

Present value for the liabilities of the transferees as of the transfer date would be calculated by a commission that involves representatives of Social Security Institution, Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, SDIF, banks and banks’ pension fund institutions and technical interest rate, used in actuarial account, would be 9,80%. If salaries and benefits paid by the pension fund of banks and income and expenses of the pension funds in respect of the insurance branches, stated in the Law, exceeds the salaries and benefits paid under the regulations of Social Security Institution, such differences would be considered while calculating the present value for the liabilities of the transferees and the transfers are completed within 3 years beginning from 1 January 2008.

According to the provisional Article 20 of 73th article of Law No. 5754 dated 17 April 2008, has become effective on 8 May 2008 and was published in the Official Gazette No: 26870, transfer of Pension Funds to Social Security Institution in three years has been anticipated. Related resolution of the Council of Ministers related to four-year extension was published in the Official Gazette No: 28227 dated 8 March 2012. It has been resolved that the transfer process has been extended two year with Council of Ministers’ Decree, has become effective on 9 April 2011 and was published in the Official Gazette No: 27900. The transfer had to be completed until 8 May 2013. Accordingly, it has been resolved that, one more year extension with Council of Minister Decree No: 2013/467, has become effective on 3 May 2013 and was published in the Official Gazette No: 28636 and transfer need to be completed until 8 May 2014. However, it has been decided to extend the time related to transfer by the decision of Council of Minister published in the Official Gazette No. 28987 dated 30 April 2014 for one more year due to not to realize the transfer process. In accordance with the Health and Safety Law which became effective on 4 April 2015 and published in the Official Gazette No: 29335 and dated 23 April 2015 and together with some amendments and statutory decree, Council of Ministers authorized for the determination of transfer date to the Social Security institution and the transfer of Pension Fund was postponed to an unknown date. There is no decision taken by the Cabinet with regards to issue at the date of financial statements.

FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XVIII. Explanations on liabilities regarding employee benefits (continued)

Unmet social benefits and payments of the pension fund participants and other employees that receive monthly income although they are within the scope of the related settlement deeds would be met by pension funds and the institutions employ these participants after the transfer of pension funds to the Social Security Institution. The present value of the liabilities, subject to the transfer to the Social Security Institution, of the Pension Fund as of 31 December 2017 has been calculated by an independent actuary in accordance with the actuarial assumptions in the Law and as per actuarial report dated 16 January 2018. There is no need for technical or actual deficit to book provision as of 31 December 2017. In addition, the Parent Bank's management anticipates that any liability that may come out during the transfer period and after, in the context expressed above, would be financed by the assets of the Pension Fund and would not cause any extra burden on the Parent Bank.

XIX. Explanations on taxation

The income tax charge is composed of the sum of current tax charge and deferred tax benefit or charge. The current tax liability is calculated over taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible and it further excludes items that are never taxable or deductible. 22% is used in the calculation of the corporate tax. In accordance with the Temporary Article 10 added to the Corporate Tax Law, Corporate Tax will be applied as 22% for corporate earnings for the taxation periods of 2018, 2019 and 2020.

Deferred tax asset or liability is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and currently enacted tax rates are used to determine deferred tax on income. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date. Deferred tax is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized and reflected in the income statement as expense or income.

Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is also associated directly with equity. Deferred tax assets and liabilities are also offset. According to the second paragraph of the Article 53 of the Banking Act No 5411 dated 19 October 2005, all specific reserves for loans and other receivables are considered as deductible expense for determining corporate tax base.

As of 1 January 2018, the Bank started calculating deferred tax for the expected credit losses for Stage 1 and Stage 2 with the transition to TFRS 9.

ACCOUNTING POLICIES (Continued)

XIX. Explanations on taxation (continued)

Transfer pricing

Transfer pricing is regulated through article 13 of Corporate Tax Law titled “Transfer Pricing Through Camouflage of Earnings”. Detailed information for the practice regarding the subject is found in the “General Communiqué Regarding Camouflage of Earnings Through Transfer Pricing”. According to the aforementioned regulations, in the case of making purchase or sales of goods or services with relevant persons/corporations at a price that is determined against “arm’s length principle”, the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not subject to deductions in means of corporate tax.

XX. Additional explanations on borrowings

The Parent Bank borrows funds from domestic and foreign institutions borrowing from money market and issues marketable securities in domestic and foreign markets when needed. The funds borrowed are recorded at their purchase costs and valued at amortized costs using the effective interest method. Some of the securities issued by the Parent Bank and resources used with fixed interest rates are subject to fair value hedge accounting. While the credit risk and rediscounted accumulated interest on hedging liabilities are recorded in the income statement under the interest expense, the credit risk and net amount excluding accumulated interest results from hedge accounting are accounted in the income statement under the derivative financial instruments gains/losses by fair value. All other borrowing costs are recorded to the income statement at the period they are incurred.

XXI. Explanations on share certificates issued

In the meeting of the General Assembly held on 23 March 2018, it has been resolved that, paid-in capital of the Parent Bank will be increased from TL 2.400.000 to TL 2.800.000 by adding TL 400.000. In respect of the resolution of the General Assembly, all of this increase will be incorporated from the profit of the year 2017. The increase in paid-in capital was approved by the BRSA on 26 April 2018 and disclosed in the dated 7 June 2017 and numbered 9605 Turkish Trade Registry Gazette.

In the meeting of the General Assembly held on 23 March 2017, it has been resolved that, paid-in capital of the Parent Bank will be increased from TL 2.050.000 to TL 2.400.000 by adding TL 350.000. In respect of the resolution of the General Assembly, all of this increase will be incorporated from the profit of the year 2016. The increase in paid-in capital was approved by the BRSA on 27 April 2017 and disclosed in the dated 12 June 2017 and numbered 9345 Turkish Trade Registry Gazette.

XXII. Explanations on acceptances

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as commitments in the off-balance sheet accounts.

XXIII. Explanations on government incentives

The Parent Bank does not use government incentives.

XXIV. Explanations on segment reporting

In accordance with its mission, the Parent Bank mainly operates in corporate and investment banking segments. The corporate banking is serving financial solutions and banking services for its medium and large-scale corporate customers. Services given to corporate customers are; investment credits, project financing, TL and foreign exchange operating loans, letters of credit, letters of guarantees and foreign trade transaction services covering letters of guarantee with external guarantees.

XXV. Explanations on other matters

Disclosures of TFRS 9 Financial Instruments

TFRS 9 Financial Instruments ("TFRS 9") published by Public Oversight Accounting and Auditing Standards Authority ("POA") in the Official Gazette numbered 29953 dated 19 January 2017 has been started to apply in lieu of TAS 39 Financial Instruments: "Accounting and Measurement" starting from 1 January 2018. TFRS 9 sets out the new principles for the classification and measurement of financial instruments, impairment for credit risk on financial assets and general hedge accounting.

	Book Value Before TFRS 9 31 December 2017	Remeasurements (6)	Book Value Before TFRS 9 1 January 2018
Loans	170.645	113.357	284.002
Stage 1	107.597	42.763	150.360
Stage 2	9.473	72.091	81.564
Stage 3	53.575	(1.497)	52.078
Financial Assets (1)	3.125	527	3.652
Other Assets (2)	1.809	(1.084)	725
Other Receivables as Loan (3)	11.680	(11.680)	-
Non-Cash Loans (4)	2.446	1.769	4.215
Stage 1	2.439	1.760	4.199
Stage 2	7	9	16
Other Provision (5)	90.000	(90.000)	-
Total	279.705	12.889	292.594
Investment in Associates (Net) (7)	375.481	(15.790)	359.691
TOTAL		(28.679)	

(1) Within the scope of TFRS 9, provisions include provisions for Financial Assets Measured at Amortized Cost, Fair Value Through Other Comprehensive Income, Receivables from Banks and Receivables from Money Markets

(2) Within the scope of TFRS 9, provisions include provisions for Other Assets.

(3) Before TFRS 9, provisions include provisions for transaction as loan as described in the article 48 of Banking Law No 5411 .

(4) According to TFRS 9 articles, expected credit loss for non-cash loans is presented "Other Provision" in liabilities.

(5) As of 31 December 2017, the provision amounting to TL 90.000 for the risks related to the loan portfolio is recorded as income as of 1 January 2018. This provision was included in the first group as of 1 January 2018 and is allocated as an additional general provision for customers who may be subject to the second group.

(6) As of 1 January 2018 deferred tax amounting TL 33.112 is calculated for general loan loss provision.

(7) The equity method is related to the TFRS 9 transition effect of the associates applied.

Effects on equity with TFRS 9 transition

According to paragraph 15 of Article 7 of TFRS 9 Financial Instruments Standards published in the Official Gazette numbered 29953 dated 19 January 2017, it is stated that it is not compulsory to restate previous period information in accordance with TFRS 9 and if the previous period information is not revised, it is stated that the difference between the book value of 1 January 2018 at the date of application should be reflected in the opening aspect of equity. The explanations about the transition effects to TFRS 9 presented in the equity items under the scope of this article are given below.

The amounting to TL 28.679 difference which is an loss between the provision for impairment of the previous period of the Parent Bank and the provision for loss that is measured in accordance with TFRS 9 impairment model as of 1 January 2018 is classified as "Prior years' income/losses" in shareholders' equity.

As stated in the Communiqué on "Uniform Chart of Accounts and Prospectus" issued on 20 September 2017, for general provisions (TFRS 9 expected loss provisions for the loans at first and second stages), deferred tax assets calculation has started as of 1 January 2018. Within this scope, deferred tax assets amounting to TL 33.112 have been reflected to the opening financials of 1 January 2018 and the related amount has been classified under "Prior years' income/losses" in shareholders' equity.

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XXVI. Explanations on prior period accounting policies not valid for the current period

“TFRS 9 Financial Instruments” has been started applying instead of “TAS 39 Financial Instruments: Recognition and Measurement” as of 1 January 2018. Accounting policies lost their validity with the transition of TFRS 9 are given below.

1. Explanations on financial assets

The Group categorizes its financial assets as “Fair value through profit/loss”, “Available-for-sale”, “Loans and receivables” or “Held-to-maturity”. Sale and purchase transactions of the financial assets mentioned above are recognized and derecognized at the “Settlement dates”. The appropriate classification of financial assets of the Group is determined at the time of purchase by the Group management, taking into consideration the purpose of the investment.

Financial assets at fair value through profit and loss: These transactions are classified in two categories. (i) Trading securities for the purposes of short term profit taking through sale or buying back in a near future. (ii) The financial assets classified at the inception as financial assets at fair value through profit or loss by the Group. The Group uses such classification above when permitted or for the purposes of providing a more proper disclosure. In this category, trading securities are initially recognized at cost and measured at fair value on the financial statements. Fair values of securities that are traded in an active market are determined based on quoted prices or current market prices. Gains or losses resulting from such valuation are recorded in the profit and loss accounts. As per the explanations of the Uniform Code of Accounts (UCA), any positive difference between the historical cost and amortized cost of financial assets are booked under the “Interest Income” account, and in case the fair value of the asset is over the amortized cost, the positive difference is booked under the “Gains on Securities Trading” account. If the fair value is under the amortized cost, the negative difference is booked under the “Losses on Securities Trading” account. Any profit or loss resulting from the disposal of those assets before their maturity date is recognized within the framework of the same principles.

Available for sale financial assets: are initially recognized at cost including the transaction costs. The interest income related to securities with fixed and variable interest under available for sale financial assets are recorded in interest income. After the initial recognition, available for sale securities are measured at fair value and the unrealized gain/loss originating from the difference between the amortized cost and the fair value is recorded in “Marketable Securities Value Increase Fund” under the equity. All unquoted available for sale stocks are recorded by considering impairment, since respective fair values cannot be reliably measured. At the disposal of available for sale financial assets, value increases/decreases that are recorded in the securities value increase fund under equity are transferred to income statement.

Investments held to maturity: include securities with fixed or determinable payments and fixed maturity where there is an intention of holding till maturity and the relevant conditions for fulfilment of such intention, including the funding ability. This portfolio excludes loans and receivables. After initial recognition held to maturity investments are measured at amortized cost by using internal rate of return less impairment losses, if any. Interest income earned from held-to-maturity investments is recognized as interest income on income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XXVI. Explanations on prior period accounting policies not valid for the current period (continued)

The Group considered expected inflation index of future cash flows prevailing at the reporting date while calculating internal rate of return of the Consumer Price Indexed (CPI) marketable securities. The effect of this application is accounted as interest received from marketable securities in the unconsolidated financial statements.

Loans: Loans are financial assets which have fixed payment terms and are not traded.

Loans are classified and followed in line with the provisions of the “Regulation on Identification of Loans and Other Receivables and Provisioning against Them”, published on the Official Gazette No: 26333 dated 1 November 2006. Specific provision is allocated for the total amount of loans and other receivables, which is deemed non-performing, without being restricted by the minimum legal requirements stated in the related regulation, and such specific provisions are recognized in the income statement.

The provisions, which are released within the same year, are credited to the “Provision Expenses” account and the released parts of the provisions from the previous years are transferred to and recognized in the “Other Operating Income” account. Other than specific provisions, the Parent Bank provides general loan loss provision for loans and other receivables classified in accordance with the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables.

2. Explanations on forward and option contracts and derivative instruments

The Parent Bank is exposed to financial risk which depends on changes in foreign exchange rates and interest rates due to activities and as part of banking activities uses derivative instruments to manage financial risk that especially associated with fluctuations in foreign exchange and interest rate. Mainly derivative instruments used by the Group are foreign currency forwards, swaps and option agreements.

The derivative financial instruments are accounted for at their fair values as of the date of the agreements entered into and subsequently valued at fair value.

3. Explanations on interest income and expenses

Interest income and expenses are recognized in the income statement for all interest bearing instruments on an accrual basis using the effective interest method (the rate that equalizes the future cash flows of financial assets and liabilities to the current net book value). In accordance with the related regulation, realized and unrealized interest accruals of the non-performing loans are reversed and interest income related to these loans are recorded as interest income only when collected.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE (Continued)

ACCOUNTING POLICIES (Continued)

XXVI. Explanations on prior period accounting policies not valid for the current period (continued)

4. Explanations on impairment on financial assets

At each reporting date, the Parent Bank evaluates the carrying amounts of its financial asset or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss. If any such indication exists, the Parent Bank determines the related impairment. A financial asset or a financial asset group incurs impairment loss only if there is an objective evidence related to the occurrence of one or more than one event ("loss event") after the first recognition of that asset; and such loss event (or events) causes, an impairment as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of high probability the expected losses for future events are not recognized.

5. Explanations on fees and commission income and expenses

Fees and commissions received from cash loans, that are not an integral part of the effective interest rate, and fees for various banking services are recorded as income when collected. Fees and commissions paid for the funds borrowed, which are not integral parts of the effective interest rate of the funds borrowed, are recorded as expense on the date of the payment. The fees and commission income and expenses obtained from cash and non-cash loans are recorded under income and expense accounts in the related period by discounting with effective interest method according to matching principle. Commission income received from non-cash loans are recorded on accrual basis.

6. Explanations on taxation

Deferred tax asset had not been provided over provisions for general loan loss provisions according to the circular of BRSA numbered BRSA.DZM.2/13/1-a-3 and dated 8 December 2004.

Deferred tax rate calculation has started to be measured over temporary expected provision losses differences according to TFRS 9 articles from 1 January 2018. Deferred tax calculation is not made for free provisions.

Deferred tax, related to items recognized directly in equity is also credited or charged directly to equity.

SECTION FOUR (Continued)

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE AND RISK MANAGEMENT
(Continued)

II. Explanations related to consolidated currency risk

No long or short position is taken due to the uncertainties and changes in the markets therefore; no exposure to foreign currency risk is expected. However, possible foreign currency risks are calculated on monthly basis under the standard method in the foreign currency risk table and their results are reported to the official authorities and the Parent Bank's top management. Thus, foreign currency risk is closely monitored. Foreign currency risk, as a part of general market risk, is also taken into consideration in the calculation of Capital Adequacy Standard Ratio.

No short position is taken regarding foreign currency risk, whereas, counter position is taken for any foreign currency risks arising from customer transactions as to avoid foreign currency risk.

Announced current foreign exchange buying rates of the Parent Bank as at reporting date and the previous five working days in US Dollar and Euro are as follows:

	1 US Dollar	1 Euro
The Parent Bank's "Foreign Exchange Valuation Rate"		
30 June 2018	4,5475	5,2978
<u>Prior Five Workdays:</u>		
29 June 2018	4,5475	5,2978
28 June 2018	4,5975	5,3097
27 June 2018	4,6000	5,3567
26 June 2018	4,6350	5,4313
25 June 2018	4,5725	5,3242

Simple arithmetic thirty-day averages of the US Dollar and Euro buying rates of the Parent Bank before the reporting date are full TL 4,5813 and 5,3590 respectively.

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE AND RISK MANAGEMENT
(Continued)

III. Explanations related to consolidated interest rate risk

Interest rate sensitivity of the assets, liabilities and off-balance sheet items are measured by the Parent Bank. General and specific interest rate risk tables in the standard method, by including assets and liabilities, are taken into account in determination of the Capital Adequacy Standard Ratio and to calculate the overall interest rate risk of the Parent Bank.

Forecast results which have been formed using estimation-simulation reports are prepared and then the effects of fluctuations in interest rates are evaluated with sensitivity and scenario analysis. Cash requirement for every maturity period are determined based on maturity distribution analysis (Gap). In addition, a positive spread between the yield on assets and the cost of liabilities is kept while determining interest rates.

The amount of local borrowings is very low considering the total liabilities of the Parent Bank. As the Parent Bank is a development and investment bank, it obtains most of the funding from abroad.

The fluctuations in interest rates are controlled with interest rate risk tables, gap analysis, scenario analysis and stress tests, its effect in assets and liabilities and the probable changes in cash flows are being screened. The Parent Bank screens many risk control ratio including the markets risk ratio to the sum of risk weighted assets and the ratio of the value at risk calculated as per the internal model to the equity.

Under the scope of risk policies, continuous controls are made to prevent assets or shareholders' equity from adverse effects because of fluctuations in interest rates or liquidity difficulties and top management, the Board of Directors and the Audit Committee are informed of these risks.

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE AND RISK MANAGEMENT
(Continued)

V. Consolidated liquidity risk management and coverage ratio

1. Explanations related to the consolidated liquidity risk:

1.a Information about the governance of consolidated liquidity risk management, including: risk tolerance; structure and responsibilities for consolidated liquidity risk management; internal consolidated liquidity reporting; and communication of consolidated liquidity risk strategy, policies and practices across business lines and with the board of directors

Liquidity risk management is conducted by Treasury Department in line with the strategies set by Asset and Liability Committee within the limits and policies approved by Board of Directors, and is monitored and controlled through reportings from Risk Management, Budget Planning and Financial Control Departments to Audit Committee, Board of Directors, Senior Management and relevant departments.

The Bank's liquidity risk capacity is determined by the Bank's internal limits and the regulations on liquidity coverage ratio and liquidity adequacy. Regarding its risk appetite, in addition to legal limits, the Bank also applies internal limits for monitoring and controlling the liquidity risk.

Considering the Bank's strategies and competitive conditions, Asset and Liability Committee has the responsibility of taking the relevant decisions regarding optimal balance sheet management of the Bank, and monitoring the implementations. Treasury Department performs cash position management within the framework of the decisions taken at Asset and Liability Committee meetings.

The Risk Management Department reports to the Board of Directors and the Asset and Liability Committee regarding liquidity risk within the scope of internal limits and legal regulations. Additionally, liquidity stress tests are performed based on various scenarios and reported with their impact on legal limit utilization. Treasury Control Unit under the Budget Planning and Investor Relations Department also makes cash flow projection reportings to the Treasury Department and the Asset Liability Committee at certain periods and when needed.

1.b Information on the centralization degree of consolidated liquidity management and funding strategy and the functioning between the Parent Bank and the Parent Bank's subsidiaries

Within the scope of consolidation, liquidity management is not centralized and each subsidiary is responsible for its own liquidity management. However, the Bank monitors the liquidity risk of each subsidiary within the defined limits.

1.c Information on the Parent Bank's funding strategy including the policies on funding types and variety of maturities

Among the main funding sources of the Bank, there are development bank credits, capital market transactions, syndicated loans, bilateral contractual resources, repo transactions and money market transactions and these sources are diversified to minimize the liquidity risk within the terms of market conditions. The funding planning based on those loans is performed long term such as a minimum of one year and the performance is monitored by the Asset and Liability Committee.

1.ç Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Parent Bank's total liabilities:

The Bank's obligations consist of Turkish Lira (TRY), US Dollar (USD) and Euro (EUR) currency types. Turkish Lira obligations mainly consist of equity and repurchase agreements, whereas foreign currency obligations consist of foreign currency credits, securities issued and repurchase agreements. All loans provided from foreign sources are in foreign currencies. For this reason, foreign resources can be used in TL funding by currency swap transactions when necessary.

SECTION FOUR (Continued)

INFORMATION ON CONSOLIDATED FINANCIAL STRUCTURE AND RISK MANAGEMENT
(Continued)

V. Consolidated liquidity risk management and coverage ratio (continued)

1. Explanations related to the consolidated liquidity risk (continued)

1.d Information on consolidated liquidity risk mitigation techniques:

Liquidity limits are defined for the purpose of monitoring and keeping the risk under certain levels. The Bank monitors those limits' utilization and informs the Board of Directors, the Bank Senior Management and the relevant departments regularly. Regarding those limits, the Treasury Department performs the required transactions with the relevant cost and term composition in accordance with market conditions from the sources previously defined in Article C. The Bank minimizes the liquidity risk by holding high quality liquid assets and diversification of funds.

1.e Information on the use of stress tests

Within the scope of liquidity stress tests, the deteriorations that may occur in the cash flow structure of the Bank are assessed by the Bank's scenarios. The results are analyzed by taking into account the risk appetite and capacity of the Bank and reported to the senior management by the Risk Management Department ensuring the necessary actions are taken.

1.f General information on urgent and unexpected consolidated liquidity situation plans:

There is a Contingency Funding Plan for the contingent periods that arises beyond the Parent Bank's control. In a potential liquidity shortfall, Treasury Department is responsible from assessment, taking relevant actions and informing Parent Bank's Asset and Liability Committee. In contingent cases, to identify the liquidity risk arising, cash flow projections and funding requirement estimations are exercised based on various scenarios. To assess the stress scenarios, cash flow in terms of local currency is monitored regularly by Treasury Department. Scenario analysis on the Parent Bank's unencumbered sources are conducted daily. Transaction limits for organized markets are monitored timely and essential collateral amount to trade in those markets is withheld at hand. Repo transactions and/or available for sale portfolio securities in local and foreign currency that are major funding sources in shortfall periods for the Parent Bank are monitored consistently. In contingent periods outflows due to the irrevocable commitments, contingencies and derivative transactions can be deferred temporarily in a way that won't hurt the Bank's reputation. TSKB has the optionality of choosing one or more of the following for meeting its liquidity requirement that are selling liquid assets off, increasing short term borrowing, decreasing illiquid assets, increasing capital.

V. Consolidated liquidity risk management and coverage ratio (continued)

3. Minimum explanations related to the liquidity coverage ratio by Banks:

As per The Regulation on The Calculation of Liquidity Coverage Ratio, Liquidity Coverage Ratio is the ratio of high quality liquid assets to net cash outflows. During the implementation process, the minimum limits increase gradually until January 2019, and for total and foreign currency limits 100% and 80% are assigned on consolidated and unconsolidated basis respectively. For the development and investment banks, Banking Regulations and Supervision Agency decided to apply zero percent to the total and foreign currency consolidated and unconsolidated liquidity coverage ratios unless stated otherwise.

In the Liquidity Coverage Ratio calculation, the items with the highest impact are high quality liquid assets, foreign funds and money market transactions. High quality liquid assets mainly consist of the required reserves held in the Central Bank of the Republic of Turkey and unencumbered securities issued by the Treasury.

Main funding source of the Parent Bank is long term loans attained from international financial institutions. The ratio of those loans in total funding is around 66%. The total ratio of the securities issued in purpose of funding diversification and loans attained through syndication loans in overall borrowing is 31%. 3% of the Parent Bank's total funding is provided from repurchase agreements.

30-day cash flows arising from derivative transactions are included in the calculation in accordance with the Regulation. The Bank also takes into consideration the liabilities depending on the possibility of changing the fair values of the derivative transactions in accordance with the Regulation.

VI. Explanations related to consolidated leverage ratio

a) Information about the consolidated leverage ratio between current and prior periods

The table related to calculation of leverage ratio in accordance with the principles of the “Regulation on Measurement and Evaluation of Banks’ Leverage Level” which is published on the Official Gazette no.28812 dated 5 November 2013 is given below.

Leverage ratio of the Bank calculated from the arithmetic average of the three months is 8,80% (31 December 2017: 9,83%). Leverage ratio is almost on the same level in the current and prior period. Total balance sheet assets increased by 15,78% compare to prior period.

b) Comparison table of total assets and total risk amounts in the financial statements prepared in accordance with TAS

		Current Period	Prior Period
1	Total Amount of Asset and Risk Situated in The Consolidated Financial Statements Prepared in Accordance with TAS (**)	29.857.351	24.863.504
2	The difference between Total Amount of Asset in the Consolidated Financial Statements Prepared in Accordance with TAS and the Communiqué on Preparation of Consolidated Financial Statements of Banks (**)	(60.285)	(11.982)
3	The difference between total amount and total risk amount of derivative financial instruments with credit derivative in the Communiqué on Preparation of Consolidated Financial Statements of Banks (*)	(266.874)	(312.337)
4	The difference between total amount and total risk amount of risk investment securities or commodity collateral financing transactions in the Communiqué on Preparation of Consolidated Financial Statements of Banks (*)	1.667.628	1.829.247
5	The difference between total amount and total risk amount of off-balance sheet transactions in the Communiqué on Preparation of Consolidated Financial Statements of Banks (*)	(3.814.077)	(3.581.505)
6	The other differences between amount of assets and risk in the Communiqué on Preparation of Consolidated Financial Statements of Banks (*)	-	-
7	Total Exposures (*)	42.446.413	36.730.076

(*) The arithmetic average of the last 3 months in the related periods.

(**) The consolidated financial statements prepared in accordance with the sixth paragraph of the Article 5 in the Communiqué on Preparation of Consolidated Financial Statements of the Banks. 31 December 2017 figures are used for the current period because consolidated financial statements prepared in accordance with TAS are not audited as of the report date and 31 December 2016 figures are used for prior period.

c) Consolidated Leverage Ratio

		Current Period (*)	Prior Period (*)
	Balance sheet Assets		
1	Balance sheet assets (excluding derivative financial assets and credit derivatives, including collaterals)	35.231.243	30.429.254
2	(Assets deducted from Core Capital)	(33.428)	(134.589)
3	Total risk amount of balance sheet assets (sum of lines 1 and 2)	35.197.815	30.294.665
	Derivative financial assets and credit derivatives		
4	Cost of replenishment for derivative financial assets and credit derivatives	678.884	374.558
5	Potential credit risk amount of derivative financial assets and credit derivatives	404.048	264.567
6	Total risk amount of derivative financial assets and credit derivatives (sum of lines 4 and 5)	1.082.932	639.125
	Financing transactions secured by marketable security or commodity		
7	Risk amount of financing transactions secured by marketable security or commodity	528.977	507.764
8	Risk amount arising from intermediary transactions	155.434	77.417
9	Total risk amount of financing transactions secured by marketable security or commodity (sum of lines 7 and 8)	684.411	585.181
	Off-balance sheet transactions

SECTION FIVE

EXPLANATIONS AND DISCLOSURES ON CONSOLIDATED FINANCIAL STATEMENTS

I. Explanations and disclosures related to the consolidated assets

1.a Information on cash and balances with the Central Bank of Turkey:

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash in TL/Foreign Currency	23	-	24	-
Balances with the Central Bank of Turkey	37.819	974.302	10.571	836.540
Other	-	-	-	-
Total	37.842	974.302	10.595	836.540

1.b Information on Central Bank of Turkey

	Current Period		Prior Period	
	TL	FC	TL	FC
Unrestricted demand deposits	37.819	5.960	10.571	4.862
Unrestricted time deposits	-	-	-	-
Restricted time deposits	-	-	-	-
Other (*)	-	968.342	-	831.678
Total	37.819	974.302	10.571	836.540

(*) Deposits at Central Bank of Turkey held as reserve requirement.

As per the Communiqué numbered 2005/1 “Reserve Deposits” of Central Bank of Republic of Turkey (CBRT), banks keep reserve deposits at the CBRT for their TL and FC liabilities mentioned in the communiqué. Reserves are calculated and set aside every two weeks on Fridays for 14-days periods. The CBRT has started to pay interest to the Required Reserves held in Turkish Lira according to regulation released at 5 November 2014.

In accordance with the regulation issued at 27 January 2015, CBRT has begun to collect monthly commissions over daily balances of Two Days Notice Deposit Accounts and Required Reserves held in the foreign currencies, to be valid from 1 February 2015. The CBRT Required reserves of 2 May 2015 has started to pay interest to the Required reserves, reserve options and unrestricted account held in US dollars according to regulation released at 5 May 2015.

As per the “Communiqué on Amendments to be Made on Communiqué on Required Reserves” of Central Bank of Turkey, numbered 2011/11 and 2011/13, required reserves for Turkish Lira and Foreign currency liabilities are set at Central Bank of Turkey based on rates mentioned below. Reserve rates prevailing at 30 June 2018 are presented in table below:

Reserve Rates for Turkish Lira Liabilities (%)		
Original Maturity	Reserve Ratio	
Other liabilities until 1 year maturity (1 year include)	10,5	
Other liabilities until 3 year maturity (3 year include)	7	
Other liabilities more than 3 year maturity	4	

Reserve Rates for FC Liabilities (%)		
Original Maturity	Reserve Ratio If the fund borrowed Before 28.08.2015	Reserve Ratio If the fund borrowed After 28.08.2015
Other liabilities until 1 year maturity (1 year included)	19	24
Other liabilities until 2 year maturity (2 year included)	13	19
Other liabilities until 3 year maturity (3 year included)	7	14
Other liabilities until 5 year maturity (5 year included)	6	6
Other liabilities more than 5 year maturity	5	4

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD 1 JANUARY- 30 JUNE 2018

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION FIVE (Continued)

EXPLANATIONS AND DISCLOSURES ON CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

I. Explanations and disclosures related to the consolidated assets (continued)

2. Information on financial assets at fair value through profit and loss:

2.a. Information on financial assets designated at fair value through profit and loss given as collateral or blockage:

As of the reporting date, the Group has no financial assets designated at fair value through profit and loss given as collateral or blockage.

2.a.1 Trading securities given as collateral or blockage:

As of 31 December 2017, the Group has no trading securities given as collateral or blockage.

2.b Information on financial assets designated at fair value through profit and loss given as repurchase agreements:

As of the reporting date, the Group has no financial assets designated at fair value through profit and loss subject to repurchase agreements.

2.b.1 Financial assets designated at fair value through profit and loss subject to repurchase agreements:

As of 31 December 2017, the Group has no financial assets designated at fair value through profit and loss subject to repurchase agreements.

2.c Positive differences related to derivative financial assets held-for-trading:

Derivative Instruments Held for Trading (1)	Current Period		Prior Period	
	TL	FC	TL	FC
Forward Transactions	102.804	27.128	14.734	7.175
Swap Transactions	467.771	146.637	179.366	82.997
Futures Transactions	-	-	-	-
Options	-	71.718	-	42.516
Other	-	-	-	-
Total	570.575	245.483	194.100	132.688

(1) Positive differences related to derivative financial assets held for trading was classified in "Derivative Financial Assets" line for the current period because of TFRS 9 while classified in "Financial assets at fair value through profit or loss" line in prior period.

The Parent Bank has entered into extinguishing cross-currency interest rate swaps as part of its strategy to hedge TL denominated fixed rate assets. These swap arrangements provide that, on the occurrence of certain credit-related events in relation to the company (such as failure to make a payment), the swap arrangements may immediately terminate with no further payments due and payable by either party. As of 30 June 2018, the fair value of such swaps is TL 352.028 income with a total outstanding notional amount of USD 200 million. The average maturity of such swaps range between 2020 and 2022 years.

(1) According to Bank account plan purchasing Loans, Fleet Leasing Credits, Refinancing Loans and Portfolio Transfer Credits amounting to TL 5.789.044 shown under "Working Capital Loans", due to the nature of "Investment" shown under the category "other" in the above footnote.

(2) Loans with exposure a cash loan and interest rate risk amounting to USD 81.548.746, provided by a consortium of domestic and foreign banks, given by the Bank to the parent company of a company operating in the telecommunication sector with strategic prescription are classified in watchlist as of the balance sheet date. In the present case, a consensus has been reached for all the consortium banks, including TSKB, to restructure the loans. In this context, the creditors of the Republic of Turkey will be established in direct or indirect shareholders or the acquisition of the shares is planned to be established special purpose in securing the loan of a company by company. It is envisaged that the process will be completed in a positive manner following the concluding of agreements on the loan to be restructured in the new company, the necessary institutional, administrative and all approvals and permits and the necessary conditions under the contracts.

8.a.1 Information related to equity component of subsidiaries (continued):

Paid in capital has been indicated as Turkish Lira in articles of incorporation and registered in trade registry. Effect of inflation adjustments on paid in capital is the difference caused by the inflation adjustment on shareholders' equity items. Extraordinary reserves are the status reserves which have been transferred with the General Assembly decision after distributable profit have been transferred to legal reserves. Legal reserves are the status reserves which have been transferred from distributable profit in accordance with the Article of 519 of the Turkish Commercial Code No 6102.

The Parent Bank's internal capital adequacy assessment process is made annually on a consolidated basis. Consolidated subsidiaries and associates are included in the assessment.

8.a.2 As per Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards unconsolidated subsidiaries and reason of unconsolidating and needed capital if they are subject to capital requirement:

TSKB Gayrimenkul Değerleme A.Ş., and TSKB Sürdürülebilirlik Danışmanlığı A.Ş. are valued at cost and are not consolidated since they are not financial subsidiaries. Unconsolidated subsidiaries of the Parent Bank are not subject to minimum capital requirement.

3. Explanations on loan derivatives and risk exposures

Not prepared in accordance with the Article No.25 of the Communiqué on the Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks.

4. Explanations on contingent liabilities and assets

There are 61 legal cases against the Group which are amounting to TL 5.209 as of the reporting date (31 December 2017: TL 4.976 - 56 legal cases).

Tax Audit Committee inspectors made an investigation for the years 2008-2011 about the payments made by the Parent Bank and employees to “Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı” (Foundation) established in accordance with the decisions of Turkish Commercial Law and Civil Law as made to all Foundations in the sector. According to this investigation it has been communicated that the amount Parent Bank is obliged to pay is a benefit in the nature of fee for the members of Foundation worked at the time of payment, the amount Foundation members are obliged to pay should not been deducted from the basis of fee; accordingly tax audit report was issued with the claim that it should be taken penalized income tax surcharge / penalized stamp duty deducted from allowance and total amount of TL 17.325 tax penalty notice relating to period in question to Parent Bank relying on this report.

SECTION FIVE (Continued)

**EXPLANATIONS AND DISCLOSURES ON CONSOLIDATED FINANCIAL STATEMENTS
(Continued)**

III. Explanations related to the consolidated off-balance sheet items (continued)

4. Explanations on contingent liabilities and assets (continued):

Some of the lawsuits are decided favorable, remaining of lawsuits are decided unfavorable by the tax courts of first instance. On the other hand, appeal and objection have been requested by the Parent Bank against the decision of the Court with respect to the Parent Bank and by the administration against the decision of the Court with respect to the administration and completion of appeal process is waited. The tax and penalty notices related to the decision of the tax court of first instance against the Parent Bank are accrued by administration depending on legal process and as of 31 July 2014 the Parent Bank has made total payments amounting to TL 22.091.

A similar case has been submitted to the Constitutional Court in the form of individual remedies by the main shareholder of the parent Bank in relation to the parent Bank's liabilities to pay, the Constitutional Court gave the decision with court file number 2014/6192. According to court decision published in the Official Gazette dated 21 February 2015 and numbered 29274, the assessments against the Parent Bank was contrary to the principle of legality and the Parent Bank's property rights has been violated. This decision is considered to be a precedent for the Parent Bank and an amount of TL 12.750 corresponding to the portion that the Parent Bank was obliged to pay for the related period is recognized as income in the prior period.

There is a lawsuit for Pendorya Mall of TSKB GYO registered in Pendik, Doğu District, plot 105, map 865, parcel 64 against IBB and Karacan Yapı at Pendik 2nd Court of First Instance Pendorya Mall claiming the road intersects his own property and demanding compensation amounting TL 7. TSKB GYO has been involved in the lawsuit as intervening party.

Relating to immovable property, subject of litigation discovery review and expert reports were submitted to the court file. Objections to the report and statement of TSKB GYO has been given. IBB Presidency has declared that expropriation proceedings related to the subject have been initiated. For this reason, lawsuit was removed from "Possessory Actions" and converted to the "Confiscating without expropriating" by the judge.

Accepting in the new case, the plaintiff claimed compensation from the Administration and in order to determine the amount of compensation the Court decided an expert examination since the information provided by the Land Registry and the Municipality was not deemed sufficient.

Expert reports submitted to the Court on 30 May 2013 and the Court decided to add Pendik Municipality as a defendant in the case. At the latest hearing on 24 December 2013 it was decided to accept the expert reports and Pendik Municipality to pay the relevant amount (TL 645) to the plaintiff. The reasoned decision has been notified, the decision which has been appealed by the appellant and the respondent Pendik Municipality has turned deteriorate the Supreme Court decision was a request for the correction requested by the İstanbul Metropolitan Municipality (IMM). The decision has been requested adjustment by IMM and plaintiff Sağlam Satış ve Paz. A.Ş. (Malazlar A.Ş.). Breaking decision of the Supreme Court is expected to evaluate the requests for correction of decision. The Court decided to apply of Supreme Court's decision to dismiss.

SECTION FIVE (Continued)

**EXPLANATIONS AND DISCLOSURES ON CONSOLIDATED FINANCIAL STATEMENTS
(Continued)**

III. Explanations related to the consolidated off-balance sheet items (continued)

4. Explanations on contingent liabilities and assets (continued):

Beyoglu Municipality approved the reclaim of TSKB GYO for the Building II which has the location as 1486 map and 76 parcel in Fındıklı in Beyoglu, Istanbul for the forfeiture because of zoning change. However, Municipality of Beyoglu sued because of no approbation by Istanbul Metropolitan Municipality, in order to keep rights on the subject.

The court made a decision as no solution for the relevant claim due to Beyoglu Municipality approved the reclaim. However, There has to be permission by Istanbul Metropolitan Municipality, and Cultural and Natural Heritage Preservation Board for the exact result. That's why, decision was appealed by the company. The Council of State reversed the judgement based on inappropriate zoning plan changes with the decision of 28 March 2014. In addition, a new implementation development plan covering the Fındıklı Building II, which has been canceled by the judicial authorities and which is owned by TSKB GYO, is being prepared by the Municipality of Beyoğlu on December 21, 2010, the 1/1000 Scaled Beyoğlu District Protected Urban Site Protected Development Plan. For this content, TSKB GYO's application were made in writing to the Beyoğlu Municipality on 28 October 2014 in order to plan by taking into account the 1/1000 Scale Implementation Plan which is being prepared by the Municipality of Beyoğlu and the Istanbul Metropolitan Municipality. The court requested the Municipality to ask the plan including the immovable subject to the decision of the Council of State is still in force as a result of the decision of dismissal and that the plan canceled by the court in the letter sent from the Municipality is still valid answered in the form. In the case which was started to discuss again in court; an expert opinion examination was made. The Court has ruled in favor of the Parent Bank by canceling the administrative proceeding. Against decision, within the legal period, Beyoglu Municipality has applied for the appeal law and it is expected that the file will be sent to Istanbul Regional Administrative Court for examination and, if necessary, for re-trial.

A lawsuit was filed by one of the investors of TSKB GYO on the cancellation of the 5th, 7th and 9th articles decided at the Ordinary General Assembly meeting on 27 April 2018. Although the request for the case was demanded to stop the execution of the 5th and 7th articles, no decision was taken as of 30 June 2018. Responded with a petition and a legal opinion presented to lawsuit. The trial is ongoing.

According to Legal Department of the Bank, it is not expected that the other lawsuits against the Bank will have a significant impact on the financial statements.

5. Custodian and intermediary services

**Considered as an independent member pursuant to the Corporate Governance Communique by the CMB for being a Member of the Audit Committee*

The second quarter of the year saw no changes in the Board or Senior Management.

Information on the Bank's Board Meetings

The Board of Directors issued 24 decisions in the period between January 1, 2018 - June 30, 2018. Board Members attended the meetings at a satisfactory level.

ASSESSMENTS OF THE BOARD CHAIRMAN FOR THE PERIOD

The first six months of 2018 saw key developments in domestic and foreign politics alike including, among others, negative ones such as a significant rise in inflation and interest rates and a remarkable devaluation in the local currency. Despite all, TSKB has retained a carefully-selected funding and loan facility practice and managed to maintain a genuine relationship with both its creditors and loan customers.

In the first six months of 2018, ever improving development projects in Turkey and its vicinity have once again set the basis for our Bank, a leading agency in development banking, to continue improving itself in line with the goals set forth in its business programs.

Sincerely,

Chairman
H. Ersin Özince

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (continued)

ASSESSMENTS OF THE BOARD CHAIRMAN FOR THE PERIOD

Having a robust start for the year and growing by 7,4% in the first quarter, the Turkish economy managed to retain a positive outlook in the second quarter despite domestic and global risks. Notwithstanding the positive growth outlook, inflation rate deteriorated and the annual inflation rate rose to 15,39% by the end of June. TL was devalued in the wake of both weakening currencies in developing countries led by the tightening measures introduced by the central banks of developed countries and the uncertainty caused by the election process domestically. USD/TL parity increased by 21% in the first half of the year. Despite increased fluctuations in financial markets, banking sector managed to maintain its strong capital structure and profitability.

In 2018, our Bank has so far delivered operations within a busy working tempo in line with our business plan. Following our successful Eurobond issuance in January and as a result of negotiations for long-term funding, we secured from the World Bank a loan of USD 400 million on a maturity of 29 years under the "Inclusive Access to Finance Project" in the second quarter, with the Undersecretariat of Treasury of the Turkish Prime Ministry standing as the guarantor. The said loan consists of two tranches: the APEX loans we will extend to SMEs through commercial banks and leasing companies as investment and working capital loans and our direct loan facility. This loan aims to make a significant contribution to increasing women's employment, a matter pointed out by the government as a priority in recent years and supported through various practices. Another focus for the loan is to reinvigorate the economy of and increase commercial and industrial operations in regions of priority development. We are sure the loan will be made available soon and yield rapid positive contribution.

In early July, we secured a syndicated loan worth USD 220 million participated by a total of 15 banks from 11 countries. We are truly glad to have obtained a syndicated loan with the participation of the leading prestigious banks from various countries as it had been the case in previous years.

As a bank operating to contribute to the inclusive and sustainable development of Turkey, we continued to extend funding for the sustainable transformation of numerous industries in the first six months. Recently extended loans mainly focused on renewable energy, logistics and women's employment as well as APEX loans and enabled us to improve our loan portfolio by 4% year-to-date to TL 27,2 billion on a fx-adjusted basis. In the same period, our consolidated assets rose by 19,5% to TL 35,7 billion and our shareholders' equity grew by 1,2% to TL 3,8 billion. As of June 30, 2018, our Bank posted a consolidated net income of TL 323,5 million with 7,2% year-on-year increase.

Our Banks stand by the investors, supporting them through both funding and consultancy products. In the upcoming period, we will continue to strengthen our funding structure and exponentially increase our support to the country's sustainable development through both the funding we will obtain from development finance institutions under various themes and the bond issuances and other kinds of borrowings we will be involved in on international markets.

Sincerely,

CEO and Board Member
Suat İnce

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (continued)

ECONOMIC DEVELOPMENTS DURING THE INTERIM PERIOD

Economic Developments in the First 6 Months of 2018

In the first quarter of 2018, Turkish economy grew by 7,4% on a year-on-year basis. In the first quarter, household consumption rose by 11%, thus emerging as the driver for growth. Data adjusted for seasonal and calendar effects indicated that the GDP increased by 1,95% in the first quarter of 2018 when compared to the previous quarter. As of the end of March 2018, the size of Turkish economy stood at TL 3,25 trillion (USD 883 billion).

Turkstat data revealed that annual inflation based on consumer prices was 15,39% as of June 2018. Completing 2017 at 11,92%, the inflation rate then surged due to a strong domestic demand, increasing global energy prices, the devaluation in TL and the rising food prices under a seasonal impact.

Turkstat data suggests that industrial production rose heftily in the first five months of the year. The increase rate stood at 9,9% on average for the first quarter of the year but slightly decelerated and decreased to 6,4% in the first two months of the second quarter.

The strong growth in iron and steel, white goods, automotive and chemistry exports and the decrease in gold exports led to an increase of 8% in total exports which stood at USD 69 billion in the first five months of the year. During the period, precious metal imports rose by 32% while energy and iron and steel imports increased by 17% and 43% respectively due to increasing commodity prices, causing the total imports to increase by 17,2% to reach USD 104,5 billion. This led the foreign trade deficit to rise to USD 35,2 billion with an increase of 41,4%. In the first five months, the rate of exports meeting imports stood at 66,3%. Current accounts deficit increased by 59% year-on-year to reach USD 27,7 billion in the first five months of 2018. The annual deficit was USD 47,3 billion in 2017, which constituted 5,6% of the GDP, but increased to USD 57,6 billion by the end of May 2018.

Ministry of Finance data showed that the central administration budget had a TL 46 billion deficit in the first half of 2018 with a year-on-year increase of 82,6%. Primary deficit stood at TL 12,3 billion.

Markets

Global developments include robust growth and changes in monetary policies. In the first half of the year, global economic growth maintained its pace despite political risks, increasing protectionist tendencies in trade and the rising oil prices. This was mainly led by increasing private investments as well as a concordant progress of fiscal loosening and monetary policies in the U.S. However, it is considered that a likely repercussion of normalization steps in monetary policies of developed countries and of the possible end to the rising commodity prices might be an unsustainably strong global growth. In the first half of the year, the Federal Reserve (Fed) hiked the policy rate by 0,25 points twice. The rest of the year is expected to see two further hikes. Thus, despite bearing a weak outlook inherited from 2017, the USD began to rise starting from mid-April. The IIF data suggests that, standing at USD 167,6 billion in the first half of last year, portfolio inflows into developing countries declined year-on-year to USD 59,7 billion in 2018. Production cuts by OPEC and non-OPEC countries, coupled with a strong growth, enabled the oil price to rise to USD 80, the highest of the last three years. Rising oil prices led to increased concerns on global inflation and, thus, a further increase in bond yields. Consequently, stock markets recorded a mixed outlook pattern. In the first half, the Emerging Markets Index (MSCIEM) and the European stock index (Stoxx600) fell by 9,3% and 2,3% respectively while the U.S. stock index (S&P500) rose by 1,7%. The U.S. 10-year interest rate started the period at 2,43% to go beyond 3% before going down to 2,85% by the end of the period.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION SEVEN (Continued)

INFORMATION ON INTERIM ACTIVITY REPORT (Continued)

I. Interim period activity report included chairman of board of directors and CEO's assessments for the interim activities (continued)

Domestically, markets had a positive start for the year thanks to the improving relations with the U.S. and Germany and the strong growth indicators, but fluctuated during the period due to international trade wars, the tightening measures by the Fed, the unexpected downgrade by Moody's and the beginning of the election process. The Central Bank made a simplification step in the monetary policy in order to curb inflation and reduce volatility in FX rates and increased the weekly repo rate to 17,75%, shifting the funding facility to weekly repo from the late liquidity window. Thus, the weighted average funding rate for the period increased from 12,75% to 17,75%. The USD/TL rate started the period at 3,7719 and completed it at 4,5607 with an increase of 20,9%. The two-year benchmark bond interest started the first half at 13,40% and finished it at 19,27%. BIST-100 completed the first half at 96.520 with a decline of 16,3%.

Banking Sector

In the first half of 2018, total loans grew by 5,5% on a fx-adjusted basis while TL loans rose by 8,2%. Year-to-date TL loan growth was about 8 basis points slower than the first half of 2017 when the impact of the Credit Guarantee Fund (CGF) was felt while the year-to-date FX loan growth was around 0,7% in the first half of 2018 despite a reduction in the same period of the previous year. Annual growth in total loans fell from 15,5% at 2017 year-end to 11,75% as of the end of June. This slowdown is mainly due to the recession in TL loan growth rate from 26,2% to 17,2%. A breakdown of the loan growth in the first six months of 2018 for loan types shows that the growth was mainly driven by TL other corporate loans with a growth of 18,6%, followed by consumer loans with 5,6% and personal credit card debts with 5,4%.

In the first half of the year, TL deposits grew by 6,4%, fx-adjusted FX deposits receded in a limited manner and total deposits rose by a net 3,4%. The growth in TL deposits in the first half was brought along by the 7,1% expansion in savings deposit. The fall in FX deposits originally stemmed from the 1,2% contraction in FX savings and the 2,1% decline in FX commercial deposits. Other FX deposits and FX participation funds gained ground in the same period.

In the first half of 2018, the loan-to-deposit ratio in the sector fluctuated within the range of 148%-153% on the TL side and completed the period at 152,9%. The total loan-to-deposit ratio fell as low as 118,8% in the first half but closed the period at 121,5%.

Change YTD	TL Terms	Adjusted for currency impact
Loans	12,5%	5,5%
Deposits	12,3%	3,4%

GENERAL ASSEMBLY RESOLUTIONS

The Bank's annual Ordinary General Assembly meeting was held at the Head Office on March 23, 2018. General Assembly resolutions were shared with shareholders via the Interim Report for the Period of January 1 - March 31, 2018, the Bank's web site and the Public Disclosure Platform.

HIGHLIGHTS FROM THE BANK'S OPERATIONS DURING THE INTERIM PERIOD

The agreement for the loan, TSKB secured from the World Bank (IBRD) worth USD 400 million under the "Inclusive Access to Finance Project", with the Undersecretariat of Treasury of the Turkish Prime Ministry standing as the guarantor, was signed on June 7, 2018. The first of the two primary themes to be supported via this loan is the funding facility for private sector companies promoting women's participation in labor force and offering a suitable working environment to enable this. The second theme, on the other hand, aims to support private sector companies operating in priority development regions in our country. This loan is expected to support the country's economy in terms of employment by backing the investments by private sector, mainly by SMEs, falling under the said themes and by meeting the need for working capital. Commercial banks will mediate the delivery of a certain portion of the loan to firms in need.

During the period, the Bank presented its stakeholders with its second Integrated Report, a pioneering sustainability practice by TSKB the first of which had been published last year. The Integrated Report shared detailed information on TSKB's 2017 performance in addition to its model, strategy and goals for job and value creation. Prioritization analysis and the Integrated Reporting Framework of the International Integrated Reporting Council (IIRC) are taken as basis, as it was the case last year, while drawing up the TSKB Integrated Report. The value created by TSKB is analyzed under six capital categories, namely financial, human, natural, intellectual, manufactured and social capitals, reflecting on how priority matters are transposed to the business model, performance and goals. Audit services were outsourced for the report, which included the assessment of the Advisory Board comprised of experienced and esteemed members of the academia.

Following authorization at the end of the period, the Bank signed a syndicated loan agreement consisting of two separate tranches, EUR 168.500.000 and USD 25.000.000 in total respectively, on a maturity of 367 days as participated by a total of 15 international banks under the coordination of Commerzbank Aktiengesellschaft and Filiale Luxemburg. The cost of the loan was Euribor/Libor + 1,45%.

Developments Regarding the Bank's Corporate Governance Operations

During the Ordinary General Assembly Meeting of the Bank, it is resolved in relation to cash dividends that a gross TL 96.000.000, which corresponds to 4% of the paid-in capital, out of TL 496.000.000, the total of primary and secondary dividends, be distributed to shareholders in cash, and TL 400.000.000, which corresponds to 16,67% thereof, be given as bonus share to be used in increasing the capital of the Bank to TL 2.800.000.000 from TL 2.400.000.000, and the distribution of the bonus share dividends start following the CMB approval for the issuance certificate regarding the said shares. On March 26, 2018, dividends were distributed first to shareholders and then to Board Members and employees. A capital increase through bonus issues took place on June 4, 2018 following the approvals granted by regulatory authorities.

RISK MANAGEMENT

TSKB's Risk Management Policies and the codes of practice pertaining to such policies are comprised of written standards set by the Board of Directors and applied by the Bank's senior management.

Under TSKB's Risk Management Policies, the main risks the Bank is exposed to are identified as credit risks, asset-liability management risks (market risk, structural interest rate risk, liquidity risk) and operational risks. A Risk Management Department is established within the Bank to ensure compliance with the said risk policies and the codes of practice pertaining thereto and manage the risks the Bank is exposed to in parallel with these policies.

TSKB's Risk Management Department is actively involved in all processes regarding the management of risks and regularly reports to the Board of Directors, the Audit Committee, the senior management and the relevant departments within the Bank. The roles, responsibilities and structure of the Department are set in the Regulation on Risk Management Department.

FURTHER INFORMATION

Developments making a significant impact on the Bank's operations during the period are explained above. For further information, please refer to the 2017 Annual Report at the following link:
