## **Independent Auditor's Audit Report, Unconsolidated Financial Statements And Notes For The Year Ended December 31, 2022**

(Convenience Translation of the Auditor's Audit Report Originally Issued in  
Turkish)

## **Convenience Translation of the Auditor’s Audit Report Originally Issued in Turkish**

### **Independent Auditors’ Report on Audit of Unconsolidated Financial Statements**

#### **To the General Assembly of Türkiye Sınai Kalkınma Bankası A.Ş.;**

#### **Qualified Opinion**

We have audited the unconsolidated statement of financial position of Türkiye Sınai Kalkınma Bankası A.Ş. (“the Bank”) at December 31, 2022 and the related unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders’ equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements.

In our opinion, except for the effects of the matter on the unconsolidated financial statements described in the Basis of for Qualified Opinion paragraph, the accompanying unconsolidated financial statements present fairly, in all material respects, the unconsolidated financial position of the Türkiye Sınai Kalkınma Bankası A.Ş. as at December 31, 2022 and unconsolidated financial performance and unconsolidated its cash flows for the year then ended in accordance with the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Financial Reporting Legislation which includes “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Financial Reporting Standards (“TFRS”) for those matters not regulated by the aforementioned regulations.

#### **Basis of Qualified Opinion**

As explained in Note 7 of the Explanations and Disclosures related to the Liabilities, the accompanying unconsolidated financial statements as at December 31, 2022 include a free provision amounting to Thousands TL 900.000 that Thousands TL 440.000 which were provided within prior years, of which Thousands TL 460.000 was provided at 2022 respectively by the Bank management, for the possible effects of the negative circumstances which may arise in the economy or market conditions. Since the above mentioned provisions do not meet the accounting requirements of TAS 37 "Provisions, Contingent Liabilities and Contingent Assets", the "Other Provisions" for the period ended 31 December 2022 are overstated by Thousands TL 900.000, “retained earnings” and “net income” of December 31, 2022 are understated by Thousands TL 440.000 and Thousands TL 460.000, respectively.

Our audit was conducted in accordance with “Regulation on independent audit of the Banks” published in the Official Gazette no.29314 dated April 2, 2015 by BRSA (BRSA Independent Audit Regulation) and Independent Auditing Standards (“ISA”) which are the part of Turkish Auditing Standards issued by the Public Oversight Accounting and Auditing Standards Authority (“POA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with of Code of Ethics for Independent Auditors (Code of Ethics) published by POA and have fulfilled our other responsibilities in accordance with the code of ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the unconsolidated financial statements of the current period. Key audit matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How the matter is addressed in our audit
<b><i>Related important disclosures about recognition and impact of impairment on financial assets in accordance with TFRS 9</i></b>	
<p>As presented in Section 3 disclosure VIII the Bank calculates expected credit losses of financial assets in accordance with TFRS 9 “Financial Instruments”. We considered the TFRS 9 impairment of financial assets as a key audit matter since:</p> <ul style="list-style-type: none"> <li>- Amount of on and off-balance sheet items that are subject to expected credit loss calculation is material to the financial statements.</li> <li>- There are complex and comprehensive requirements of TFRS 9</li> <li>- The classification of the financial assets is based on the Bank’s business model and characteristics of the contractual cash flows in accordance with TFRS 9 and the Bank uses significant judgment on the assessment of the business model and identification of the complex contractual cash flow characteristics of financial instruments.</li> <li>- Policies implemented by the Bank management include compliance risk to the regulations and other practices.</li> <li>- Processes of TFRS 9 are advanced and complex.</li> <li>- Judgements and estimates used in expected credit loss calculation are new, complex and comprehensive.</li> <li>- Disclosure requirements of TFRS 9 are comprehensive and complex.</li> </ul>	<p>In addition to our current audit procedures, our audit procedures are:</p> <ul style="list-style-type: none"> <li>- Evaluating the appropriateness of accounting policies as to the requirements of TFRS 9, Bank’s past experience, local and global practices.</li> <li>- Reviewing and testing of new or structured processes which are used to calculate expected credit losses by involving our Information technology and Process audit specialists.</li> <li>- Evaluation of the reasonableness and appropriateness of the key judgments and estimates determined by the management and the methods, judgments and data sources used in the expected loss calculation, taking into account the standard requirements, industry and global practices</li> <li>- Reviewing the appropriateness of criteria in order to identify the financial assets having solely payments of principal and interest and checking the compliance to the Bank’s Business model.</li> <li>- Assessing the appropriateness of definition of significant increase in credit risk, default criteria, modification, probability of default, loss given default, exposure at default and forward looking assumptions together with the significant judgements and estimates used in these calculations to regulations and bank’s past performance. Evaluating the alignment of those forward looking parameters to Bank’s internal processes where applicable.</li> <li>- Assessing the completeness and the accuracy of the data used for expected credit loss calculation.</li> <li>- Testing the mathematical accuracy of expected credit loss calculation on sample basis.</li> <li>- Evaluating the judgments and estimates used for the individually assessed financial assets.</li> <li>- Evaluating the accuracy and the necessity of post-model adjustments.</li> <li>- Auditing of TFRS 9 disclosures.</li> </ul>

**Building a better  
working world**

Key Audit Matter	How the matter is addressed in our audit
<b><i>Pension Fund Obligations</i></b>	
<p>Employees of the Bank are members of “TSKB A.Ş. Memur ve Müstahdemleri Yardım ve Emekli Vakfı”, (“the Fund”), which is established in accordance with the temporary Article 20 of the Social Security Act No. 506 and related regulations. The Fund is a separate legal entity and foundation recognized by an official decree, providing all qualified employees with pension and post-retirement benefits. As disclosed in Section Three Note XVI the “Explanations on Liabilities regarding employee benefits” to the financial statements, Banks will transfer their pension fund to the Social Security Institution and the President has been authorized to determine the transfer date.</p> <p>The Bank’s present value of the liabilities of TSKB A.Ş. Memur ve Müstahdemleri Yardım ve Emekli Vakfı fund, subject to the transfer to the Social Security Institution of the Pension Fund as of December 31, 2022 has been calculated by an independent actuary in accordance with the actuarial assumptions in the Law and as per actuarial report dated January 24, 2023, there is no need for technical or actual deficit to book provision as of December 31, 2022.</p> <p>The valuation of the Pension Fund liabilities requires judgment in determining appropriate assumptions such as defining the transferrable social benefits, discount rates, salary increases, demographic assumptions, inflation rate estimates and the impact of any changes in individual pension plans. The Bank Management uses Fund actuaries to assist in assessing these assumptions.</p> <p>Considering the subjectivity of key assumptions and estimate used in the calculations of transferrable liabilities and the effects of the potential changes in the estimates used together with the uncertainty around the transfer date and given the fact that technical interest rate is prescribed under the law, we considered this to be a key audit matter.</p>	<p>It has been addressed whether there have been any significant changes in regulations governing pension liabilities, employee benefits plan during the period, that could lead to adjust the valuation of employee benefits. Support from actuarial expert who is in the same audit network within our firm, has been taken to assess the appropriateness of the actuarial assumptions and calculations performed by the external actuary.</p> <p>We further focused on the accuracy and adequacy of the deficit and also disclosures on key assumptions related to pension fund as well as footnotes to significant assumptions.</p>

Key Audit Matter	How the matter is addressed in our audit
<b><i>Derivative Financial Instruments</i></b>	
<p>Derivative financial instruments including foreign exchange contracts, currency and interest rate swaps, currency and interest rate options, futures and other derivative financial instruments which are held for trading are initially recognized on the statement of financial position at fair value and subsequently are re-measured at their fair value. Details of related amounts are explained in Section Five Note I.2.c Positive differences related to derivative financial assets and Section Five Note II.2 Negative differences related to derivative financial liabilities disclosures.</p> <p>Fair value of the derivative financial instruments is determined by selecting most convenient market data and applying valuation techniques to those particular derivative products. Derivative Financial Instruments are considered by us as a key audit matter because of the subjectivity in the estimates, assumptions and judgements used.</p>	<p>Our audit procedures involve obtaining written confirmations from the third parties and comparing the details of the related derivative transactions. Our audit procedures included among others involve reviewing policies regarding fair value measurement accepted by the bank management fair value calculations of the selected derivative financial instruments which is carried out by valuation experts in our audit team and the assessment of used estimations and the judgements and testing operating effectiveness of the key controls in the process of fair value determination.</p> <p>Our procedures included, amongst others, recalculating fair value calculation and disclosures relating to derivative financial instruments considering the requirements of Turkey Accounting Standards ("TAS") and Turkey Financial Reporting Standards ("TFRS").</p>

### **Responsibilities of Management and Directors for the Unconsolidated Financial Statements**

The Bank management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the BRSA Accounting and Reporting Legislation and for such internal control as management determines is necessary to enable the preparation of the financial statement that is free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements**

In an independent audit, the responsibilities of us as independent auditors are:

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but, is not a guarantee that an audit conducted in accordance with BRSA Independent Audit Regulation and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with BRSA Independent Audit Regulation and ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. (The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.)
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with government with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Building a better  
working world**

#### **Report on Other Legal and Regulatory Requirements**

- 1) In accordance with Article 402 paragraph 4 of the Turkish Commercial Code (“TCC”) no 6102; no significant matter has come to our attention that causes us to believe that the Bank’s bookkeeping activities and financial statements for the period January 1 – December 31, 2022 are not in compliance with the TCC and provisions of the Bank’s articles of association in relation to financial reporting.
- 2) In accordance with Article 402 paragraph 4 of the TCC; the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

The engagement partner who supervised and concluded this independent auditor’s report is Fatma Ebru Yücel.

**GENERAL INFORMATION (Continued)**

**IV. Information about the persons and institutions that have qualified shares in the Bank**

Explanation about the people and institutions that have qualified shares control the Bank's capital directly or indirectly are described in General Information Section II.

**V. Summary on the Bank's functions and areas of activity**

Türkiye Sınai Kalkınma Bankası A.Ş. is the first private development and investment bank which was established by the Council of Ministers resolution number of 3/11203 established in 1950 with the support of World Bank, Government of Republic of Turkey, Central Bank of Republic of Turkey and commercial banks. As per the articles of association published in the Official Gazette on June 2, 1950, the aim of the Bank is to support all private sector investments but mostly industrial sectors, to help domestic and foreign capital owners to finance the new firms and to help the improvement of Turkish capital markets. The Bank is succeeding its aims by financing, consulting, giving technical support and financial intermediary services. The Bank, which operates as a non-deposit accepting bank, played a major role on manufacturing and finance sectors in every phase of the economic development of Turkey. The Bank started its journey in 1950 financing the private sector investments in Turkey and today it provides loans and project finance with the goal of sustainable development to corporations in different fields. As a leader in meeting the long term financing needs of the private sector, the Bank also continues to offer solutions with respect to the newest needs and client demands.

**VI. Differences between the Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards and short explanation about the institution subject to line-by-line method or proportional consolidation and institutions which are deducted from equity or not included in these three methods**

Due to differences between the Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Account Standards (TAS), the non-financial subsidiaries and associates, TSKB Gayrimenkul Değerleme A.Ş., TSKB Sürdürülebilirlik Danışmanlığı A.Ş., Terme Metal Sanayi ve Ticaret A.Ş. and Ege Tarım Ürünleri Lisanslı Depoculuk A.Ş. are not consolidated since they are not in scope of financial institutions according to related Communiqué.

The Bank and its financial institutions, Yatırım Finansman Menkul Değerler A.Ş., TSKB Gayrimenkul Yatırım Ortaklığı A.Ş. and Yatırım Varlık Kiralama A.Ş. which founded on September 20, 2019 as a subsidiary of Yatırım Finansman Menkul Değerler A.Ş. are included in the accompanying consolidated financial statements line by line consolidation method; İş Finansal Kiralama A.Ş., İş Girişim Sermayesi Yatırım Ortaklığı A.Ş. and İş Faktoring A.Ş. are included in the accompanying consolidated financial statements by equity method.

Financial institutions included in the consolidation are determined in accordance with "Communiqué on Preparation of Consolidated Financial Statements of Banks" published in the Official Gazette dated 8 November 2006 numbered 26340. The Bank has no partnership share on banks and financial institutions, with shareholding of more than 10% and deducted from capital.

(1) Since the Board of Directors has not prepared any proposal for profit distribution relating to the year 2022 yet, only profit available for distribution for the year 2022 is presented.

(2) A nominal value of 1 kuruş figures a share in unconsolidated income statement and unconsolidated statement of profit distribution and an earnings per share is calculated for a nominal value of 1 kuruş.

(3) The current period and the prior period amounts are related to deferred tax income.

(4) The profit distribution table for the previous period became final with the decision of the Ordinary General Assembly dated March 29, 2022, after the publication of the independently audited financial statements dated December 31, 2021 and rearranged in this direction.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE**

**ACCOUNTING POLICIES**

**I. Basis of presentation**

**I.a Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents**

The unconsolidated financial statements have been prepared in TL, under the historical cost convention except for the financial asset, liabilities and buildings revaluation model which are carried at fair value.

Accounting policies and valuation principles used in the preparation of the financial statements are determined and applied, in accordance with the principles published by the Banking Regulation and Supervision Agency ("BRSA").

The accounting policies and valuation principles used in the 2022 period are presented in the accompanying notes and the accounting policies and valuation principles are explained in Notes II to XXII below.

The format and content of the accompanying unconsolidated financial statements and footnotes have been prepared in accordance with the "Communique' on Publicly Announced Financial Statements Explanations and notes to the Financial Statements" and "Communique on Disclosures About Risk Management to be Announced to Public by Banks."

The accompanying unconsolidated financial statements and the explanatory footnotes, unless otherwise indicated, are prepared in thousands of Turkish Lira ("TL").

TAS 29 Financial Reporting in Hyperinflation Economies requires entities whose functional currency is that of a hyperinflationary economy to prepare their financial statements in terms of the measuring unit current at the end of the reporting period. TAS 29 describes characteristics that may indicate that an economy is hyperinflationary, and it requires all entities that report in the currency of the same hyperinflationary economy apply this Standard from the same date. Therefore, it is expected that TAS 29 will start to be applied simultaneously by all entities with the announcement of Public Oversight Accounting and Auditing Standards Authority to ensure consistency of the application required by TAS 29 throughout the country. However, the Authority has not published any announcement that determines entities would restate their financial statements for the accounting period ending on 31 December 2022 in accordance with TAS 29. In this context, financial statements as of December 21, 2022, in accordance with TFRS are not adjusted for inflation (TAS 29 is not applied).

**I.b The valuation principles used in the preparation of the financial statements**

The accounting rules and the valuation principles used in the preparation of the financial statements were implemented as stated in the Turkish Accounting Standards and related regulations, explanations and circulars on accounting and financial reporting principles announced by the BRSA. These accounting policies and valuation principles are explained in the below notes through II to XXII.

The coronavirus epidemic spread to various countries around the world, causing potentially fatal respiratory infections, affects both regional and global economic conditions negatively, as well as causing malfunctions in operations, especially in countries exposed to the epidemic. As a result of the spread of COVID-19 throughout the world, various measures have been taken in our country as well as in the world and still continue to be taken in order to prevent the transmission of the virus. In addition to these measures, economic measures are also taken to minimize the economic impact of the virus outbreak on individuals and businesses in our country and worldwide. Due to COVID-19, the Bank allowed loan customers to translate their principal, interest and installments under current conditions if they demand and began to apply the translations within this context.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**I. Basis of presentation (Continued)**

**I.b The valuation principles used in the preparation of the financial statements (continued)**

As it is intended to update the financial information contained in the latest annual financial statements in the year end financial statements prepared as of December 31, 2022 and considering the magnitude of the economic changes occurred due to COVID-19, the Bank made estimates in the calculation of expected credit losses and disclosed these in footnote VIII "Disclosures on impairment of financial assets". In the coming periods, the Bank will update its relevant assumptions according to necessary extents and review the realizations of past estimates.

**I.c The accounting policies for the correct understanding of the financial statements**

The following accounting policies that applied according to BRSA regulations and TAS for the correct understanding of the financial statements and valuation principles used in preparation of the financial statements are presented in more detail below.

**Changes in accounting policies and disclosures**

TAS / TFRS changes, which entered into force as of January 1, 2022, do not have a significant effect on the accounting policies, financial status and performance of the Bank. TAS and TFRS changes, which were published but not put into effect as of the final date of the financial statements, will not have a significant effect on the accounting policies, financial status and performance of the Bank.

In addition, the Indicator Interest Rate Reform - 2nd Phase, which brings changes in TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16, was published in December 2020, effective from January 1, 2022, and early implementation of the changes is allowed. With the amendments made, certain exceptions are provided for the basis used in determining contractual cash flows and hedge accounting provisions. The effects of the changes on the Bank's financials have been evaluated and it has been concluded that there is no need for early application.

**I.d Other**

The conflict between Russia and Ukraine since January 2022 still continues as of the report date. The Bank does not carry out any activities in these two countries that are subject to the crisis. Considering the geographies in which the Bank operates, no direct impact is expected on Bank operations. However, as of the date of this report, it is not possible to reasonably estimate the effects of the global developments and their potential impact on the global and regional economy, on the Bank's operations because of the uncertainty about how the crisis will evolve.

**II. Explanations on usage strategy of financial assets and foreign currency transactions**

The main sources of the funds of the Bank have variable interest rates. The financial balances are monitored frequently and fixed and floating interest rate placements are undertaken according to the return on the alternative financial instruments. The macro goals related to balance sheet amounts are set during budgeting process and positions are taken accordingly.

Due to the fact that the great majority of the loans extended by the Bank have a flexibility of reflecting changes in the market interest rates to the customers, the interest rate risk is kept at minimum level. Moreover, the highly profitable Eurobond and the foreign currency government indebtness securities portfolio have the attribute of eliminating the risks of interest rate volatility.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**II. Explanations on usage strategy of financial assets and foreign currency transactions (Continued)**

The fixed rate Subordinated bond, Eurobond and Greenbond issued by the Bank and a portion of fixed rate funds borrowed are subject to fair value hedge accounting. The Bank enters into interest rate swap agreements in order to hedge the change in fair values of its fixed rate and cross currency financial liabilities. The changes in the fair value of the hedged fixed rate financial liabilities and hedging interest cross currency rate swaps are recognized under the trading profit/loss.

In the beginning and later period of the hedging transaction, the aforementioned hedging transactions are expected to offset changes occurred in the relevant period of the hedging transaction and hedged risk (attributable to hedging risk) and effectiveness tests are performed in this regard.

The Bank performs effectiveness test at the beginning of the hedge accounting and at each reporting period. The effectiveness tests are carried out using the “Dollar off-set model” and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness. TFRS 9 provides the option of deferring the adoption of TFRS 9 hedge accounting and the option to continue to apply the provisions of TAS 39 hedge accounting in the selection of accounting policies. In this context, the Bank continues to apply the provisions of TAS 39 hedge accounting.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortized and recognized in income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

The Bank liquidity is regularly monitored. Moreover, the need of liquidity in foreign currencies is safeguarded by currency swaps.

Commercial placements are managed with high return and low risk assets considering the international and domestic economic expectations, market conditions, creditors’ expectations and their tendencies, interest-liquidity and other similar factors. Prudence principle is adopted in the placement decisions. The long term placements are made under project finance. A credit policy is implemented such a way that harmonizing the profitability of the projects, the collateral and the value add introduced by the Bank.

The movements of foreign exchange rates in the market, interest rates and prices are monitored instantaneously. While taking positions, the Bank’s unique operating and control limits are watched effectively besides statutory limits. Limit overs are not allowed.

The Bank’s strategy of hedging interest rate and foreign currency risks arising from fixed and variable interest rate funds and foreign currency fair value through other comprehensive income securities are indicated below.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**II. Explanations on usage strategy of financial assets and foreign currency transactions (continued)**

A great majority of foreign currency fair value through other comprehensive income securities are financed with foreign currency resources. Accordingly, the anticipated possible depreciation of local currency against other currencies is eliminated. A foreign currency basket is formulated in terms of the indicated foreign currency to eliminate the risk exposure of changes in cross currency parity. Interest rate risk is mitigated by constituting a balanced asset composition in compliance with the structure of fixed and floating rate of funding resources. The hedging strategies for other foreign exchange risk exposures: A stable foreign exchange position strategy is implemented and to be secured from cross currency risk, the current foreign exchange position is monitored by considering a currency basket in specific foreign currencies.

The foreign exchange gains and losses on foreign currency transactions are accounted for in the period of the transaction. Foreign exchange assets and liabilities are translated to Turkish Lira using foreign exchange bid rate as of the reporting date, and the resulting gains and losses are recorded in foreign exchange gains or losses.

**III. Explanations on forward and option contracts and derivative instruments**

The Bank is exposed to financial risk which depends on changes in foreign exchange rates and interest rates due to activities and as part of banking activities uses derivative instruments to manage financial risk that especially associated with fluctuations in foreign exchange and interest rate. Mainly derivative instruments used by the Bank are foreign currency forwards, swaps and option agreements.

The derivative financial instruments are accounted for at their fair values as of the date of the agreements entered into and subsequently valued at fair value. Derivative financial instruments of the Bank are classified under "IFRS 9 Financial Instruments" ("IFRS 9"), "Derivative Financial Assets Designated at Fair Value Through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value Through Other Comprehensive Income".

Payables and receivables arising from the derivative instruments are recorded in the off-balance sheet accounts at their contractual values. Derivative transactions are valued at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, if the fair value is positive, the amount is classified as "Derivative Financial Assets Designated at Fair Value Through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value Through Other Comprehensive Income", if the fair value is negative, the amount is classified as "Derivative Financial Liabilities Designated at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities Designated at Fair Value Through Other Comprehensive Income". The fair value differences of derivative financial instruments are recognized in the income statement under trading profit/loss line in profit/loss from derivative financial transactions.

When a derivative financial instrument, is originally designed as a hedge by the Bank, the relationship between the Bank's financial risk from hedged item and the hedging instrument, the risk management objectives and strategy of hedging transaction and the methods that will be used in the measurement of effectiveness, describe in written. The Bank, at the beginning of the aforementioned engagement and during the ongoing process, evaluates whether the hedging instruments are effective on changes in the fair values or actual results of hedging are within the range of 80% - 125%.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**IV. Explanations on associates and subsidiaries**

In the unconsolidated financial statements, Financial subsidiaries and Investments in associates are recognized equity method within the scope of Communiqué published on the Official Gazette dated 9 April 2015 no.29321 related to the amendments to the Turkish Accounting Standard 27 (TAS 27) “Separate Financial Statements”.

In accordance with Turkish Accounting Standard 28 (TAS 28) for “Investments in Associates and Joint Ventures” in the equity method, the book value of investment in associates and subsidiaries is reflected in the financial statements in proportion to the Bank's share of the net assets of these investments. The portion of the profit or loss of investment in associates and subsidiaries that are included in the Bank's share is accounted in the income statement of the Bank. The portion of the other comprehensive income that falls on the Bank's share is accounted in the other comprehensive income statement of the Bank.

**V. Explanations on interest income and expenses**

Interest income is recorded according to the effective interest rate method (rate equal to net present value of future cash flows or financial assets and liabilities) defined in the TFRS 9 “Financial Instruments” standard by applying the effective interest rate via accrual basis to the gross carrying amount of a financial asset except for: purchased or originated credit-impaired financial assets or financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets.

If the financial asset is impaired and classified as a non-performing receivable, the Bank applies the effective interest rate on the amortized cost of the asset for subsequent reporting periods. Such interest income calculation is made on an individual contract basis for all financial assets subject to impairment calculation. It is used effective interest rate during calculation of loss given default rate in expected credit loss models and accordingly, the calculation of expected credit losses includes an interest amount.

Therefore, a reclassification is made between the accounts of “Expected Credit Losses” and “Interest Income From Loans” for calculated amount. If the credit risk of the financial instrument improves to the extent that the financial asset is no longer considered as impaired and the improvement can be attributed to an incident that eventually takes place (such as an increase in the loan's credit rating), interest income at subsequent reporting periods are calculated by applying the effective interest rate to the gross amount.

Interest income and expenses are recognized in the income statement for all interest bearing instruments on an accrual basis using the effective interest method (the rate that equalizes the future cash flows of financial assets and liabilities to the current net book value).

**VI. Explanations on fees and commission income and expenses**

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers. Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting throughout the service period. Revenues obtained through contracts or through the purchase of assets for a third party real person or corporate person are recorded in the period when they occur.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VII. Explanations on financial assets**

**Initial recognition of financial instruments**

Initial recognition of financial instruments the Bank shall recognize a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. A regular way purchase or sale of financial assets shall be recognized and derecognized, as applicable, using trade date accounting or settlement date accounting. Purchase and sale transactions of securities are accounted at the settlement date.

**Initial measurement of financial instruments**

The classification of financial instruments at initial recognition depends on the contractual conditions and the relevant business model. Except for the assets in the scope of TFRS 15 Revenue from contracts with customers, at initial recognition, the Bank measures financial asset or financial liabilities at fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit/loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

**Classification of financial instruments**

On which category a financial instruments shall be classified at initial recognition depends on both the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

**Assessment of business model**

As per TFRS 9, the Bank's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The business model is not dependent on management's intentions for an individual financial instrument, so the requirement is not an instrument-based classification approach, but rather an aggregate valuation of financial assets. While assessing the business model used for the management of financial assets, all relevant evidence available at the time of the assessment is taken into account. Such evidence includes:

- How the performance of financial assets held within the scope of the business model and business model is reported to key management personnel,
- Risks affecting the performance of the business model (financial assets held within the scope of the business model), and in particular the way these risks are managed and
- How the additional payments to managers are determined (for example, whether the bonuses are based on the fair value of the assets managed or on the contractual cash flows collected).

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VII. Explanations on financial assets (continued)**

**Assessment of business model (continued)**

The business model evaluation is not made on the basis of scenarios that the business does not reasonably expect to occur, such as “worst case” or “pressure case ” scenarios. The fact that cash flows differed from expectations at the time the business model was evaluated does not require error correction in the financial statements or a change in the classification of other financial assets using the same business model, as long as all relevant information available at the date of the business model evaluation is taken into account. However, when evaluating the business model for newly created or newly acquired financial assets, information about how cash flows have been realized in the past, along with other relevant information, is also taken into account. The aforementioned business models consist of three categories. These categories are stated below:

- Business model whose aimed to hold assets in order to collect contractual cash flows: This is a business model whose objective is to hold assets in order to collect contractual cash flows are managed to realise cash flows by collecting contractual payments over the life of the instrument. Financial assets held under this business model are measured at amortized cost if the contractual terms of the financial asset pass the cash flow test, which includes only the principal and interest payments on the principal balance at specified dates.

- Business model whose aimed to hold assets in order to collect contractual cash flows and selling financial assets: Business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

Financial assets held under this business model are accounted for at fair value through other comprehensive income if the contractual terms of the financial asset pass the cash flow test, which includes only the principal and interest payments on the principal balance on certain dates.

- Other business models: Financial assets are measured at fair value through profit or loss in case they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Financial assets measured at fair value through profit/loss and derivative financial assets are assessed in this business model.

**Contractual cash flows that include only principal and interest payments on the principal balance**

As per TFRS 9, the Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In a basic lending agreement, the time value of money and the cost of credit risk are often the most important elements of interest. Judgment is used to assess whether that element simply pays for the passage of time, taking into account relevant factors such as the currency in which the financial asset is expressed and the period in which the interest rate applies. Where the terms of the contract begin to expose it to risks or volatility of cash flows that are inconsistent with a core lending agreement, the financial asset is measured at fair value through profit or loss.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VII. Explanations on financial assets (continued)**

**Measurement categories of financial assets and liabilities**

Financial assets are classified compliance with TFRS 9 in three main categories as listed below:

- Financial assets measured at fair value through profit/loss
- Financial assets measured at fair value through other comprehensive income and
- Financial assets measured at amortized cost

**a. Financial assets at the fair value through profit or loss:**

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aimed to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and in case of the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from shortterm fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. The Parent Bank has used the option to classify some of its loans and securities issued irrevocably as financial assets/liabilities at fair value through profit or loss in order to eliminate accounting mismatches in accordance with TFRS 9 at the time of first disbursement. Financial assets at fair value through profit or loss are recorded with their fair values and are then valued with their fair values. Gains and losses resulting from the valuation are included in the profit/loss accounts. In accordance with the Uniform Chart of Accounts (THP) explanations, the positive difference between the acquisition cost and the discounted value of the financial asset is in "Interest Income", if the fair value of the asset is above the discounted value, the positive difference is calculated in the "Capital Market Transactions Profits" account. if the fair value is below the discounted value, the negative difference between the discounted value and the fair value is recorded in the "Capital Market Transactions Losses" account. In case the financial asset is disposed of before its maturity, the resulting gains or losses are accounted for on the same basis.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VII. Explanations on financial assets (continued)**

**a. Financial assets at the fair value through profit or loss (continued)**

Syndicated loans extended to Ojer Telekomünikasyon A.Ş. (OTAŞ) in the previous periods were restructured. Within this scope, in order to form the collateral of these loans, taking over process of 192.500.000.000 A Group shares which constitute 55% of Turk Telekom's issued capital, pledged in favor of the creditors, were completed on 21 December 2018, by LYY Telekomünikasyon A.Ş. (formerly known as Levent Yapılandırma Yonetimi A.Ş.) which was established as a privately-owned company and all creditors are direct or indirect shareholders. The Bank has a share of 1,617% in LYY Telekomünikasyon A.Ş., which is the share of OTAŞ receivables.

Later, at the Ordinary General Assembly Meeting of LYY Telekomünikasyon A.Ş. held on 23 September 2019, it was decided to convert some of the loan to capital and add it to the capital of LYY Telekomünikasyon A.Ş. The nominal value of shares increased from TL 0,8 to TL 64.403. With the restructuring on 17 August 2022, the Bank's participation rate increased to 1,8403% and no fee was paid by the Bank for the increase.

Total assets amounting to TL 327.500 are measured at fair value under TFRS 9 Financial Instruments Standard and TFRS 5 Assets Held for Sale and Discontinued Operations. The determination of this value is based on the results of an independent appraisal firm. In the valuation study, fair value is determined by considering the average of different methods (discounted cash flows, similar market multipliers, similar transaction multipliers in the same sector, market value and analyst reports).

55% of LYY Telekomünikasyon A.Ş. Türk Telekomünikasyon A.Ş. was authorized as an international investment bank sales consultant on September 19, 2019 for the purpose of selling its shares, and within this scope, necessary studies regarding the sale and meetings with potential investors were carried out.

As of the date of March 31, 2022, Türk Telekomünikasyon A.Ş., owned by LYY Telekomünikasyon A.Ş. 192.500.000.000 Group A shares representing 55% of its capital were sold to the Turkey Wealth Fund, in consequence of the collection made from the sales amount, a collection was made from the related loan at the rate of the Bank's share. However, a provision for impairment has been made for the entire acquired asset.

As of June 30, 2022, the risk related to LYY Telekomünikasyon A.Ş., which has been fully provisioned, has been transferred to the follow-up accounts, and the amount transferred to the follow-up accounts and its specific provisions have been written off from the asset in accounting terms (555.395 Thousand TL).

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VII. Explanations on financial assets (continued)**

**b. Financial Assets at Fair Value Through Other Comprehensive Income:**

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are measured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement.

“Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated Other Comprehensive Income or Loss Reclassified Through Profit or Loss” under shareholders’ equity. Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

During initial recognition an entity can choose in an irrevocable way to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

**c. Financial Assets Measured at Amortized Cost:**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost. Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VII. Explanations on financial assets (continued)**

**c. Financial Assets Measured at Amortized Cost (continued):**

In the “Fair value through other comprehensive income” and “measured at amortized cost” securities portfolio of the Parent Bank, there are Consumer Price Indexed (CPI) Bonds.

Bank considered expected inflation index of future cash flows prevailing at the reporting date while calculating internal rate of return of the Consumer Price Indexed (CPI) marketable securities. The effect of this application is accounted as interest received from marketable securities in the unconsolidated financial statements. These securities are valued and accounted according to the effective interest method based on the real coupon rates and the reference inflation index at the issue date and the estimated inflation rate. As stated in the Investor’s Guide of CPI Government Bonds by Republic of Turkey Undersecretariat of Treasury the reference indices used to calculate the actual coupon payment amounts of these securities are based on the previous two months CPI’s. The Parent Bank determines the estimated inflation rate accordingly. The inflation rate is estimated by considering the expectancies of the Central Bank and the Bank which are updated as needed within the year.

**d. Loans:**

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate (internal rate of return) Method". Duties paid, transaction costs and other similar expenses on assets received against such risks are considered as a part of transaction cost and charged to customers.

Turkish Lira (“TL”) cash loans are composed of foreign currency indexed loans and working capital loans; foreign currency (“FC”) cash loans are composed of investment loans, export financing loans and working capital loans.

All loans of the Parent Bank has classified under Measured at Amortized Cost, after loan portfolio passed the test of " All cash flows from contracts are made only by interest and principal" during the transition period.

Foreign currency indexed loans are converted into TL from the foreign currency rate as of the opening date and followed in TL accounts. Repayments are measured with the foreign currency rate at the payment date, the foreign currency gains and losses are reflected to the income statement.

**VIII. Explanations on impairment of financial assets**

As of January 1, 2018, the Bank recognizes a loss allowance for expected credit losses on financial assets and loans measured at amortized cost, financial assets measured at fair value through other comprehensive income, loan commitments and financial guarantee contracts not measured at fair value through profit/loss based on TFRS 9 and the regulation published in the Official Gazette no. 29750 dated 22 June 2016 in connection with “Procedures and Principals regarding Classification of Loans and Allowances Allocated for Such Loans”. TFRS 9 impairment requirements are not eligible for equity instruments.

At each reporting date, whether the credit risk on a financial instrument has increased significantly since initial recognition is assessed. The Bank considers the changes in the default risk of financial instrument, when making the assessment.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VIII. Explanations on impairment of financial assets (continued)**

**Calculation of expected credit losses**

The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions. Risk parameters used in TFRS 9 calculations are included in the future macroeconomic information. While macroeconomic information is included, macroeconomic forecasting models and multiple scenarios used in the Internal Capital Assessment Process (“ICAAP”) are considered.

Within the scope of TFRS 9, the probability of default (PD), Loss given default (LGD) and Exposure at default (EAD) models have been developed. The models developed under TFRS 9 are based on the following segmentation elements:

- Loan portfolio (corporate /specilization)
- Product type
- Credit risk rating notes (ratings)
- Collateral type
- Duration since origination of a loan
- Remaining time to maturity
- Exposure at default

Probability of Default (PD): PD refers to the likelihood that a loan will default within a specified time horizon given certain characteristics. Based on TFRS 9, two different PDs are used in order to calculate expected credit losses:

- 12-month PD: as the estimated probability of default occurring within the next 12 months following the balance sheet date.
- Lifetime PD: as the estimated probability of default occurring over the remaining life of the financial instrument.

The Bank uses internal rating systems for loan portfolio. The internal rating models used include customer financial information and knowledge of survey responses based on expert judgement. Probability of default calculation has been carried out based on past information, current conditions and forward looking macroeconomic parameters.

Loss Given Default (LGD): If a loan default occurs, it represents the economic loss incurred on the loan. It is expressed as a percentage.

Exposure at Default (EAD): For cash loans, it corresponds to the amount of loan granted as of the reporting date. For non-cash loans and commitments, it is the value calculated through using credit conversion factors. Credit conversion factor corresponds to the factor which adjusts the potential increase of the exposure between the current date and the default date.

Financial assets are divided into three categories depending on the increase in credit risk observed since their initial recognition:

**Stage 1:**

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk is recorded in the amount of 12-month expected credit losses. 12-month expected credit loss is calculated based on a probability of default realized within 12 months after the reporting date. Such expected 12-month probability of default is applied on an expected exposure at default, multiplied with loss given default rate and discounted with the original effective interest rate.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VIII. Explanations on impairment of financial assets (continued)**

**Calculation of expected credit losses (continued)**

***Stage 2:***

In the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined on the basis of the instrument's lifetime expected credit losses. Calculation of expected credit losses is similar to descriptions above, but probability of default and loss given default rates are estimated through the life of the instrument.

***Stage 3:***

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized and interest revenue is calculated on the net carrying amount. The probability of default is taken into account as 100%.

The default assessment of the Bank is made according to the following conditions:

1. Objective Default Definition: It means debt having past due more than 90 days. Current definition of default in the Bank and its consolidated financial subsidiaries is based on a more than 90 days past due definition.
2. Subjective Default Definition: It means a debt is considered is unlikely to be paid. Whenever an obligor is considered is unlikely to pay its credit obligations, it should be considered as defaulted regardless of the existence of any past-due amount or of the number of days past due.

**Debt instruments measured at fair value through other comprehensive income**

The impairment requirements are applies for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through other comprehensive income in accordance with TFRS 9. However, the loss allowance shall be recognised in other comprehensive income and shall not reduce the carrying amount of the financial asset in the statement of financial position. The expected credit loss is reflected in other comprehensive income and the accumulated amount is recycled to statement of profit/loss following the derecognition of related financial asset.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**VIII. Explanations on impairment of financial assets (continued)**

**Calculation of expected credit losses (continued)**

**Significant increase in credit risk**

As of the reporting date, if the credit risk on a financial instrument has not increased significantly since initial recognition, the loss allowance for that financial instrument is measured at an amount equal to 12-month expected credit losses. However, if there is a significant increase in credit risk of a financial instrument since initial recognition, the Bank measures loss allowance regarding such instrument at an amount equal to “lifetime expected credit losses”.

The Bank makes qualitative and quantitative assessments regarding assessment of significant increase in credit risk of financial assets to be classified as stage 2 (Significant Increase in Credit Risk).

Within the scope of quantitative assessment, the quantitative reason explaining the significant increase in the credit risk is based on a comparison of the probability of default calculated at the origination of the loan and the probability of default assigned for the same loan as of the reporting date. If there is a significant deterioration in PD , it is considered that there is a significant increase in credit risk and the financial asset is classified as stage 2. In this context, the Bank has calculated thresholds at which point the relative change is a significant deterioration. When determining the significant increase in bank credit risk, The Bank also assessed the absolute change in the PD date on the transaction date and on the reporting date. If the absolute change in the PD ratio is above the threshold values, the related financial asset is classified as stage 2.

The Bank classifies the financial asset as Stage 2 (Significant Increase in Credit Risk) where any of the following conditions are satisfied as a result of a qualitative assessment:

- Loans overdue more than 30 days as of the reporting date
- Loans classified as watchlist
- When there is a change in the payment plan due to restructuring

In the future expectations, 3 scenarios are used to be as base, bad and good. Final provisions are calculated by weighing on the possibilities given to the scenarios. As of December 31, 2022, within the scope of the ECL effects of Covid-19, the weight of the base scenario was decreased of 3 scenarios, and weights of the bad and very bad scenarios was increased. Also for possible effects the Bank has established additional provisions for the sector and customers, which are considered to have a high impact on the expected credit loss calculations by making individual assessment for the risks that cannot be captured through the models.

This approach, which is preferred in expected credit losses calculations, will be revised in the following reporting periods, taking into account the impact of the pandemic, portfolio and future expectations.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**IX. Explanations on offsetting, derecognition and restructuring of financial instruments**

**a. Offsetting of financial instruments**

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and when the Bank has the intention of collecting or paying the net amount of related assets and liabilities or when the Bank has the right to offset the assets and liabilities simultaneously. Otherwise, there is not any offsetting transaction about financial assets and liabilities.

**b. Derecognition of financial instruments**

**Derecognition of financial assets due to change in contractual terms**

Based on TFRS 9, the renegotiation or modification of the contractual cash flows of a financial asset can lead to the derecognition of the existing financial asset. When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of the modified financial asset, the modified asset is considered a 'new' financial asset.

When the Bank assesses the characteristics of the new contractual terms of the financial asset, it evaluates the contractual cash flows including foreign currency rate changes, conversion to equity, counterparty changes and solely principal and interest on principle. When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, it is recalculated the gross carrying amount of the financial asset and recognized a modification gain or loss in profit or loss.

Where all risks and rewards of ownership of the asset have not been transferred to another party and the Bank retains control of the asset, the Bank continues to recognize the remaining portion of the asset and liabilities arising from such asset. When the Bank retains substantially all the risks and rewards of ownership of the transferred asset, the transferred asset continues to be recognized in its entirety and the consideration received is recognized as a liability.

**Derecognition of financial assets without any change in contractual terms**

The asset is derecognized if the contractual rights to cash flows from the financial asset are expired or the related financial asset and all risks and rewards of ownership of the asset are transferred to another party. Except for equity instruments measured at fair value through other comprehensive income, the total amount consisting of the gain or loss arising from the difference between the book value and the amount obtained and any accumulated gain directly accounted in equity shall be recognized in profit/loss.

**Derecognition of financial liabilities**

It shall be removed a financial liability (or a part of a financial liability) from the statement of financial position when, and only when, it is extinguished when the obligation specified in the contract is discharged or cancelled or expires.

**c. Reclassification of financial instruments**

Based on TFRS 9, the Bank shall reclassify all affected financial assets at amortised cost to financial assets measured at fair value through other comprehensive income and fair value through profit or loss in the subsequent accounting when, and only when, it changes its business model for managing financial assets.

The Bank's reclassification details of financial assets are presented in Section Three, Note VII.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**IX. Explanations on offsetting, derecognition and restructuring of financial instruments (continued)**

**d. Restructuring and refinancing of financial instruments**

The Bank may change the original contractual terms of a loan (maturity, repayment structure, guarantees and sureties) which were previously signed, in case the loan cannot be repaid or if a potential payment difficulty is encountered based on the new financing power and structure of the borrower.

Restructuring is to change the financial terms of existing loans in order to facilitate the payment of debt. Refinancing is granting a new loan by the Bank which will cover either the principal or the interest payment in whole or in part of one or a few existing loans due to the anticipated financial difficulty which the customer or bank currently or will encounter in the future. Changes in the original terms of a credit risk can be made in the current contract or through a new contract.

Restuctured Loans can be classified in standart loans unless the firm has difficulty in payment. Companies which have been restructured and refinanced can be removed from the watchlist when the following conditions are met:

- Subsequent to the through review of company's financial data and its owners' equity position, at circumstances when it is not anticipated that the owner of the company will face financial difficulties; and it is assessed that the restructured debt will be paid on time (starting from the date when the debt is restructured all due principal and interest payments are made on time).

- At least 2 years should pass over the date of restructuring (or if it is later), the date of removal from non-performing loan category, at least 10% (or the ratio specified in the legislation) of the total principal amount at the time restructuring /refinancing shall be paid and no overdue amount (principal and interest) shall remain at the date of restructuring / refinancing.

In order for the restructured non-performing loans to be classified to the watchlist category, the following conditions must be met in accordance with the relevant regulations:

- Recovery in debt service

- At least one year should pass over the date of restructuring

- Payment of all accrued and overdue amounts by debtor (interest and principal) since the date of restructuring /refinancing or the date when the debtor is classified as nonperforming (earlier date to be considered) and fulfillment of the payment condition of all overdue amounts as of the date of restructuring /refinancing

- Collection of all overdue amounts, disappearance of the reasons for classification as nonperforming receivable (based on the conditions mentioned above) and having no overdue more than 30 days as of the date of reclassification

During the follow-up period of at least two years following the date of restructuring / refinancing, if there is a new restructuring / refinancing or a delay of more than 30 days, the transactions which were non-performing at the beginning of the follow-up period are classified as non-performing loans again.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**X. Explanations on sales and repurchase agreements and lending of securities**

Funds provided under repurchase agreements are accounted under “Funds Provided under Repurchase Agreements-TL” and “Funds Provided under Repurchase Agreements-FC” accounts. The repurchase agreements of the Bank are based on the Eurobonds and government bonds issued by Republic of Turkey Undersecretariat of Treasury. Marketable securities subject to repurchase agreements are classified under assets at fair value through profit or loss, assets at fair value through other comprehensive income or assets at measured at amortized costs with parallel to classifications of financial instruments.

The income and expenses from these transactions are reflected to the interest income and interest expense accounts in the income statement. Receivables from reverse repurchase agreements are recorded in “Receivables from Reverse Repurchase Agreements” account in the balance sheet.

**XI. Explanations on assets held for sale and discontinued operations**

Assets held for sale are measured at the lower of the assets’ carrying amount and fair value less costs to sell. These assets are not amortized and presented separately in the financial statements. In order to classify a tangible fixed asset as held for sale, the asset (or the disposal group) should be available for an immediate sale in its present condition subject to the terms of any regular sales of such asset (or such disposal groups) and the sale should be highly probable. For a highly probable sale, the appropriate level of management must be committed to a plan to sell the asset (or the disposal groups), and an active programme to complete should be initiated to locate a customer. Also, the asset (or the disposal group) should have an active market sale value, which is a reasonable value in relation to its current fair value. Also, the sale is expected to be accounted as a completed sale beginning from one year after the classification date; and the essential procedures to complete the plan should indicate the possibility of making significant changes on the plan or lower probability of cancelling.

Events or circumstances may extend the completion of the sale more than one year. Such assets are still classified as held for sale if there is sufficient evidence that the delay in the sale process is due to the events and circumstances occurred beyond the control of the entity or the entry remains committed to its plan to sell the asset (or disposal group).

As of March 31, 2022, LYY Telekomünikasyon A.Ş. owned which Türk Telekomünikasyon A.Ş. 192.500.000.000 A group registered shares representing 55% of its capital were sold to the Turkey Wealth Fund, and as a result of the collection made from the sale amount, a collection was made from the related loan in proportion to the Bank's share. However, a provision for impairment has been made for the entire acquired asset.

As of June 30, 2022, the risk related to LYY Telekomünikasyon A.Ş., which has been fully provisioned, has been transferred to the follow-up accounts, and the amount transferred to the follow-up accounts and its specific provisions have been written off from the asset in accounting terms (555.395 Thousand TL).

A discontinued operation is a component of a bank that either has been disposed of, or is classified as held for sale. Gains or losses relating to discontinued operations are presented separately in the income statement.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XII. Explanations on goodwill and other intangible assets**

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the subsidiary or jointly controlled interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognized at the date of acquisition. Goodwill is initially recognized as an asset at cost and is subsequently measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill is allocated to each of the cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in a subsequent period. On disposal of a subsidiary or a jointly controlled entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal. As of reporting date, The Bank has no goodwill on the unconsolidated financial statements.

Intangible assets that are acquired prior to 1 January 2005 are carried at restated historical cost as of December 31, 2004; and those acquired subsequently are carried at cost less accumulated amortization, and any impairment. Intangible assets are depreciated on a straight line basis over their expected useful lives. Depreciation method and period are reviewed periodically at the end of each year. Intangible assets are mainly composed of rights and they are depreciated principally on a straight-line basis between 1-15 years.

**XIII. Explanations on tangible assets**

Tangible assets rather than real estate, purchased before 1 January 2005, are accounted for at their restated costs as of December 31, 2004 and the assets purchased in the following periods are accounted for at acquisition cost less accumulated depreciation and reserve for impairment. Gain or loss resulting from disposals of the tangible assets is reflected to the income statement as the difference between the net proceeds and net book value. Normal maintenance and repair expenditures are recognized as expense.

As of the third quarter of 2015, the Bank changed its accounting policy and adopted revaluation method on annual basis under scope of Standard on Tangible Fixed Assets (TAS 16) with respect to valuation of immovable included in its building and lands. The amortization periods of real estates are specified in the appraisal's report. In case of the cost of tangible assets over the net realizable value estimated under the "Turkish accounting standards for impairment of assets" (TAS 36), the value of the asset is reduced to its "net realizable value" and are reserved impairment provision associated with expense accounts. The positive difference between appraisement value and net book value of the property is accounted under shareholder' equity. Related valuation models such as cost model, market value and discounted cash flow projections approaches are used in valuation of real estates. There is no pledge, mortgage or any other lien on tangible assets. Tangible assets are depreciated with straight-line method and their useful lives are determined in accordance with the Turkish Accounting Standards.

The positive difference between the real estate values in the revised appraisal reports prepared by licensed valuation companies in 2022 and the net book value of the relevant real estates is followed in the equity.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XIII. Explanations on tangible assets (continued)**

Depreciation rates and estimated useful lives of tangible assets are as follows:

<b>Tangible Assets</b>	<b>Expected Useful Lives (Years)</b>	<b>Depreciation Rate (%)</b>
Cashvault	4-50	2-25
Vehicles	5	20
Other Tangible Assets	1-50	2-100

**XIV. Explanations on leasing transactions**

***The Bank as Lessor***

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Bank's net investment in the leases. The lease payments are allocated as principle and interest. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Bank's net investment outstanding in respect of the leases.

***The Bank as Lessee***

Assets held under finance leases are recognized as assets of the Bank at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are included in profit or loss in accordance with the Bank's general policy on borrowing costs. Tangible assets acquired by financial leases are amortized based on the useful lives of the assets.

In accordance with TFRS 16, the lessee, at the effective date of the lease, measures the leasing liability on the present value of the lease payments that were not paid at that date (leasing liability) and depreciates the existence of the right of use related to the same date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use their incremental borrowing rate. The interest expense on the lease liability and the depreciation expense right of use are recorded separately.

**TFRS 16 Leases**

TFRS 16 Leasing standard abolishes the dual accounting model currently applied for lessees through recognizing finance leases in the balance sheet whereas not recognizing operational lease. Instead, it is set forth a single model similar to the accounting of financial leases (on balance sheet). For lessors, the accounting stays almost the same. The Bank has started to apply "TFRS 16 Leases" Standard starting from 1 January 2019.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XIV. Explanations on leasing transactions (continued)**

The Bank has applied TFRS 16 with a simplified retrospective approach. The new accounting policies of the Bank regarding to application TFRS 16 are stated below:

***Right-of-use assets***

The Bank recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes:

- (a) the amount of lease liabilities recognized,
- (b) lease payments made at or before the commencement date less any lease incentives received and
- (c) initial direct costs incurred.

Unless the Bank is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

***Lease Liabilities***

At the commencement date of the lease, the Bank recognises lease liabilities measured at the present value of lease payments to be made over the lease term.

At the commencement date of the lease, Lease payments included in the measurement of the lease liability consist of the following payments for the right to use the underlying asset during the lease term, which are not paid at the commencement date of the lease:

- a) Fixed payments,
- b) Variable lease payments that depend on an index or a rate,
- c) Amounts expected to be paid under residual value guarantees,
- d) The exercise price of a purchase option reasonably certain to be exercised by the Company / the Group and payments of penalties for terminating a lease and
- e) If the lease term reflects the Company / the Group exercising the option to terminate.

The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Company / the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the effective date of the lease, the Bank measures the lease obligation as follows:

- a) The book value is increased to reflect the accretion of interest of lease liabilities and
- b) The book value is reduced to reflect the lease payments made.

In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XIV. Explanations on leasing transactions (continued)**

On 5 June 2020, Public Oversight Accounting and Auditing Standards Authority (“POA”) has changed to TFRS 16 “Leases” standard by publishing Privileges Granted in Lease Payments - "Amendments to TFRS 16 Leases" concerning Covid-19. Concessions Continuing in Lease Payments Regarding COVID-19 After 30 June 2021 - "Changes in TFRS 16" was published in the Official Gazette dated 7 April 2021 and numbered 31447. With this change, tenants are exempted from the concessions granted to tenants due to COVID-19 in rent payments, not to assess whether there is a change in the lease. This change did not have a significant impact on the financial status or performance of the Bank. However, due to the high level of the epidemic, on 7 April 2021, the POA decided to extend the exemption to include concessions that caused a reduction in lease payments that expired on or before 30 June 2022. This change did not have a significant impact on the financial status or performance of the Bank.

***Short-term leases and leases of low-value assets***

The Bank applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

**XV. Explanations on provisions and contingent liabilities**

Provisions are recognized when there is a present obligation due to a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If aforesaid criteria did not form, the Bank discloses the issues mentioned in notes to financial statements.

***Explanations on contingent assets***

Provisions are determined by using the Bank’s best expectation of expenses in fulfilling the obligation, and discounted to present value if material. Contingent assets consist of unplanned or other unexpected events that usually cause a possible inflow of economic benefits to the Bank. Since recognition of the contingent assets in the financial statements would result in the accounting of an income, which may never be generated, the related assets are not included in the financial statements; on the other hand, if the inflow of the economic benefits of these assets to the Bank is probable, an explanation is made thereon in the footnotes of the financial statements. Nevertheless, the developments related to the contingent assets are constantly evaluated and in case the inflow of the economic benefit to the Bank is almost certain, the related asset and the respective income are recognized in the financial statements of the period in which the change occurred. Severance pay according to the current laws and collective bargaining agreements in Turkey, is paid in case of retirement or dismissal.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XVI. Explanations on liabilities regarding employee benefits**

Bank calculates a provision for severance pay to allocate that employees need to be paid upon retirement or involuntarily leaving by estimating the present value of probable amount. There is no indemnity obligations related to the employees who are employed with contract of limited duration exceeding 12 month period. Actuarial gains and losses are accounted under Shareholder's Equity since 1 January 2013 in accordance with the Revised TAS 19. Employees of the Bank are members of "Türkiye Sınai Kalkınma Bankası Anonim Şirketi Memur ve Müstahdemleri Yardım ve Emekli Vakfı" and "Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı" ("the Pension Fund"). Technical financial statements of those funds are subject to audit in accordance with the Insurance Law and provisions of "Regulations on Actuaries" issued based on the related law by an actuary registered in the Actuarial Registry.

Paragraph 1 of the provisional Article 23 of the Banking Act ("Banking Act") No: 5411 published in the Official Gazette No: 25983 on 1 November 2005 requires the transfer of banking funds to the Social Security Institution within 3 years as of the enactment date of the Banking Act. Under the Banking Act, in order to account for obligations, actuarial calculations will be made considering the income and expenses of those funds by a commission consisting of representatives from various institutions. Such calculated obligation shall be settled in equal instalments in maximum 15 years. Nonetheless, the related Article of the Banking Law was annulled by the Constitutional Court's decision No: E. 2005/39 and K. 2007/33 dated 22 March 2007 that was published in the Official Gazette No: 26479 on 31 March 2007 as of the release of the related decision, and the execution of this article was cancelled as of its publication of the decision and the underlying reasoning for the cancellation of the related article was published in the Official Gazette No: 26731 on 15 December 2007.

After the publication of the reasoning of the cancellation decision of the Constitutional Court, articles related with the transfer of banks pension fund participants to Social Security Institution based on Social Security Law numbered 5754 were accepted by the Grand National Assembly of Turkey on 17 April 2008 and published in the Official Gazette No: 26870 on 8 May 2008.

Present value for the liabilities of the transferees as of the transfer date would be calculated by a commission that involves representatives of Social Security Institution, Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, SDIF, banks and banks' pension fund institutions and technical interest rate, used in actuarial account, would be 9,80%. If salaries and benefits paid by the pension fund of banks and income and expenses of the pension funds in respect of the insurance branches, stated in the Law, exceeds the salaries and benefits paid under the regulations of Social Security Institution, such differences would be considered while calculating the present value for the liabilities of the transferees and the transfers are completed within 3 years beginning from 1 January 2008.

According to the provisional Article 20 of 73<sup>rd</sup> article of Law No. 5754 dated 17 April 2008, has become effective on 8 May 2008 and was published in the Official Gazette No: 26870, transfer of Pension Funds to Social Security Institution in three years has been anticipated. With the amendment in the first paragraph of the temporary article 20 of the Social Security and General Health Insurance Law No. 5510 published in the Official Gazette dated March 8, 2012 and numbered 28227, the 2-year postponement authority given to the Council of Ministers was increased to 4 years. It has been resolved that the transfer process has been extended two years with Council of Ministers' Decree, has become effective on 9 April 2011 and was published in the Official Gazette No: 27900. The transfer had to be completed until 8 May 2013. Accordingly, it has been resolved that, one more year extension with Council of Ministers Decree No: 2013/467, has become effective on 3 May 2013 and was published in the Official Gazette No: 28636 and transfer needs to be completed until 8 May 2014. However, it has been decided to extend the time related to transfer by the decision of Council of Minister published in the Official Gazette No. 28987 dated 30 April 2014 for one more year due to not realizing the transfer process.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XVI. Explanations on liabilities regarding employee benefits (continued)**

In accordance with the Health and Safety Law numbered 6645 which became effective on 4 April 2015 and published in the Official Gazette No: 29335 and dated 23 April 2015 and together with some amendments and statutory decree, Council of Ministers authorized for the determination of transfer date to the Social Security institution and the transfer of Pension Fund was postponed to an unknown date. There is no decision taken by the Cabinet with regards to issue at the date of financial statements. Unmet social benefits and payments of the pension fund participants and other employees that receive monthly income although they are within the scope of the related settlement deeds would be met by pension funds and the institutions employ these participants after the transfer of pension funds to the Social Security Institution. The present value of the liabilities, subject to the transfer to the Social Security Institution, of the Pension Fund as of December 31, 2021 has been calculated by an independent actuary in accordance with the actuarial assumptions in the Law and as per actuarial report dated 17 January 2022. There is no need for technical or actual deficit to book provision as of December 31, 2021. In addition, the Bank's management anticipates that any liability that may come out during the transfer period and after, in the context expressed above, would be financed by the assets of the Pension Fund and would not cause any extra burden on the Bank.

**XVII. Explanations on taxation**

Income tax expense is the sum of current tax expense and deferred tax income or expense.

Current year tax liability is calculated over the taxable portion of the profit for the period. Taxable profit is calculated taking into account items of income or expense that are taxable or deductible, and items that are not taxable or deductible. Taxable profit therefore differs from the profit reported in the income statement.

As of December 31, 2022, the Corporate Tax rate valid in Turkey is 25%. However, with the Law No. 7394 on the Evaluation of Immovable Property Owned by the Treasury and Amending the Value Added Tax Law, which was published in the Official Gazette dated April 15, 2022 and numbered 31810, and the Law on Amendments to Some Laws and Decree-Laws, Article 26 With the paragraph added to the provisional article 13 of the Corporate Tax Law No. 5520, the Corporate Tax rate will be applied as 25% for the corporate earnings for the 2022 taxation period. This amendment will be valid in the taxation of corporate earnings for the periods starting from 1 January 2022, starting with the declarations that must be submitted as of July 01, 2022. Since the tax rate change came into effect as of April 15, 2022, 25% was used as the tax rate in the period tax calculations in the financial statements dated December 31, 2022 (December 31, 2021: 25%).

Within the scope of Article 298 of the Tax Procedure Code, it is stipulated that if the increase in the producer price index is more than 100% in the last 3 accounting periods including the current period and more than 10% in the current accounting period, the financial statements will be subject to inflation adjustment and these conditions have been fulfilled as of September 30, 2022. However, the Law No. 7352 "On the Amendment of the Tax Procedure Law and the Corporate Tax Law" published in the Official Gazette dated January 29, 2022 and numbered 31734 and the provisional Article 33 were added to the Tax Procedure Law No. 213 and the accounting periods of 2021 and 2022, including the temporary tax periods (as of the accounting periods ending in 2022 and 2023 for those who were assigned special accounting periods) and the 2023 accounting period within the scope of Article 298. It has been enacted that the financial statements will not be subject to inflation adjustment regardless of whether the conditions for inflation adjustment have occurred or not, and that the financial statements dated December 31, 2023 will be subject to inflation adjustment regardless of whether the conditions for inflation adjustment have occurred or not, and that the profit/loss differences arising from the inflation adjustment will be shown in the profit/loss account of previous years.

Deferred tax liability or assets are determined by calculating the tax effects of the temporary differences between the amounts of assets and liabilities shown in the financial statements and the amounts taken into account in the calculation of the legal tax base, according to the balance sheet method, taking into account the legal tax rates.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XVII. Explanations on taxation (continued)**

While deferred tax liabilities are calculated for all taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated provided that it is highly probable to benefit from these differences by generating taxable profit in the future.

Deferred tax is recognized for Stage 1 and Stage 2 expected loss provisions.

Except for goodwill or business combinations, deferred tax liability or asset is not calculated for temporary timing differences arising from the initial recognition of assets or liabilities and which do not affect both commercial and financial profit or loss. The carrying amount of deferred tax asset is reviewed as of each balance sheet date.

Carrying value of deferred tax asset is reduced to the extent that it is not probable that a taxable profit will be obtained to allow some or all of the deferred tax asset to be benefited. Deferred tax is calculated over the tax rates valid in the period when assets are created or liabilities are fulfilled and recorded as expense or income in the income statement. However, if the deferred tax is related to assets directly associated with equity in the same or a different period, it is directly associated with the equity account group.

In accordance with the Provisional Article 13 added to the Corporate Tax Law Numbered 5520 with the Law Numbered 7316, the 20% rate foreseen in the calculation of the corporate tax for the corporate earnings of the 2021 taxation period is determined as 25% (starting from the declarations to be submitted as of July 1, 2021 and to be valid for the corporate earnings for the taxation period starting from January 1, 2021), and as 23% for the corporate earnings for the 2022 taxation period. On the other hand, in accordance with the amendment made in Article 32 of the Corporate Tax Law with the Law No. 7394 published in the Official Gazette dated 15.04.2022 and numbered 31810, the corporate tax rate should start from the declarations that must be submitted as of 01.07.2022 and taxation starting from 01.01.2022. It has been determined as 25% to be valid for the corporate earnings of the period. The Bank has calculated deferred tax by using 25% rate (December 31, 2021: 20%, 23%, and 25% rates are used).

Deferred tax receivables and liability are netted off.

Pursuant to Article 53 of the Banking Law dated October 19, 2005 and numbered 5411, all of the special provisions set aside for loans and other receivables are taken into account as an expense in the determination of the corporate tax base in the year they are allocated pursuant to the second paragraph of the same article.

***Transfer pricing***

Transfer pricing is regulated through article 13 of Corporate Tax Law titled “Transfer Pricing Through Camouflage of Earnings”. Detailed information for the practice regarding the subject is found in the “General Communiqué Regarding Camouflage of Earnings Through Transfer Pricing”. According to the aforementioned regulations, in the case of making purchase or sales of goods or services with relevant persons/corporations at a price that is determined against “arm’s length principle”, the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not subject to deductions in means of corporate tax.

**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION THREE (Continued)**

**ACCOUNTING POLICIES (Continued)**

**XVIII. Additional explanations on borrowings**

The Bank borrows funds from domestic and foreign institutions borrowing from the money market and issues marketable securities in domestic and foreign markets when needed.

The funds borrowed are recorded at their purchase costs and valued at amortized costs using the effective interest method. Some of the securities issued by the Bank and resources used with fixed interest rates are subject to fair value hedge accounting. While the credit risk and rediscounted accumulated interest on hedging liabilities are recorded in the income statement under the interest expense, the credit risk and net amount excluding accumulated interest results from hedge accounting are accounted in the income statement under the derivative financial instruments gains/losses by fair value.

**XIX. Explanations on share certificates issued**

In the meeting of the General Assembly held on 29 March 2022, it has been resolved that, the Bank has no capital increase.

**XX. Explanations on acceptances**

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as commitments in the off-balance sheet accounts.

**XXI. Explanations on government incentives**

The Bank does not use government incentives.

**XXII. Explanations on segment reporting**

In accordance with its mission, the Bank mainly operates in corporate and investment banking segments. The corporate banking is serving financial solutions and banking services for its medium and large-scale corporate customers. Services given to corporate customers are; investment credits, project financing, TL and foreign exchange operating loans, letters of credit, letters of guarantees and foreign trade transaction services covering letters of guarantee with external guarantees.

Income from the activities of investment banking includes income from the operations of Treasury and Corporate Finance. Under the investment banking activities, portfolio management for corporate, marketable securities intermediary activities, cash flow management and all types of corporate finance services is provided. The segmental allocation of the Bank's net profit, total assets and total liabilities are shown below.

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION FOUR**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT**

**I. Explanations related to shareholders' equity**

Total capital and capital adequacy ratio have been calculated in accordance with the "Regulation on Equity of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy of Banks" and in addition to regulations of BRSA numbered 3397 dated 23 March 2020. As of December 31, 2022, the capital adequacy ratio of the Bank has been calculated as 22,43% (December 31, 2021: %20,77%).

As stated in the Board Decision dated 21 December 2021 and numbered 9996, in accordance with the Regulation on the Measurement and Evaluation of Capital Adequacy of Banks (Regulation), which was published in the Official Gazette dated 23 October 2015 and numbered 29511, with the amount in the calculation of credit risk-monetary assets and non-monetary items that are measured in terms of historical cost, except for assets in foreign currencies in the rest of the valued special provision in accordance with international accounting standards and related amounts when calculating the amount of the business day as of the date of recent December 31, 2021 252 can be used for simple arithmetic mean of the exchange rate, the central bank oriented application; otherwise the decision of the assembly is received until history of the exchange rate to be maintained by the Central Bank of 31 December 2021 use is provided.

In addition, with the Board Decision of the same date and numbered, in case the net valuation differences of the securities held by the banks in the portfolio of "Securities at Fair Value Reflected in Other Comprehensive Income" as of the date of the Decision are negative, these differences are negative, dated 05 September 2013 and numbered 28756. It has provided the opportunity not to be taken into account in the amount of equity to be calculated in accordance with the Regulation on the Equity of Banks published in the Official Gazette and to be used for the capital adequacy ratio.

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**II. Explanations related to credit risk**

The sectoral breakdown of loans is documented monthly and limitations are made according to evaluations. There is no limitation applied geographically. Monitoring and checking are made for the treasury operations. Risk limits are identified for the operations implemented.

The credit monitoring department screens the creditworthiness of loan customers once every six months regularly. The debtors' creditworthiness is screened regularly in accordance with the related legislation. Their financial statements are obtained as prescribed in the legislation. The credit limits have been set by the Board of Directors, the Banks credit committee and the credit management. The Bank takes enough collateral for the loans and other receivables extended. The collaterals obtained consist of personal suretyship, mortgage, cash blockage and client checks.

Limits have also been set for transactions with banks. Credit risks are managed on the counterparty's creditworthiness and limits.

The definitions of overdue and impaired loans and information related to impairment and provisions are provided in Section Four, Note X.

Exposures in the form of bonds secured by mortgages	-	-	-	-
Securitization positions	-	-	-	-
Short term exposures to banks, brokerage houses and corporates	-	-	-	-
Equity investments in the form of collective investment undertakings	545.914	127.399	72.151	31.009
Equity investments	3.615.882	2.302.916	1.870.214	1.526.268
Other exposures	512.481	1.164.554	537.393	613.101

(1) Includes total risk amounts before the effect of credit risk mitigation.

(2) Average risk amounts are the arithmetical average of the amounts in monthly reports prepared as per the Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks.

There are control limits on positions held in the form of futures and options contracts and other similar contracts. Limits are continuously checked by the bank management. Credit risk is managed together with the potential risks arising from market movements. Credit risk, market risk, liquidity risk and other risks are considered as a whole. When exposed to significant credit risk, the Bank is on the verge of reducing total risk by concluding futures and similar contracts, exercising their rights, fulfilling or selling their performances in a short period of time. Indemnified non-cash loans are subject to the same risk weight as the unpaid credits when they occur.

Except for the monitoring method determined by the related legislation of the renewed and re-amortized loans, the current rating of the relevant company is changed within the Bank within the scope of internal rating application and all kinds of measures are taken for risk classification. The Bank follows concentration on a maturity basis and examines the risks that differ from the normal course. Foreign transactions are made with many correspondent banks in many countries. The counterparty limits have been set in transactions with banks. As an active participant in the international banking market, the Bank does not have significant credit risk concentration when evaluated together with the financial activities of other financial institutions.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**II. Explanations related to credit risk (continued)**

The first 100 and 200 largest cash loans constitute 79,29% and 96,07% of the total cash loans portfolio of the Bank respectively (December 31, 2021: 77,25% and 95,32%).

The first 100 and 200 largest non-cash loans constitute 100% and 100% of the total non-cash loans portfolio of the Bank respectively (December 31, 2021: 99,98% and 100%).

The first 100 and 200 largest cash and non-cash loans constitute 79,34% and 95,79% of the total on and off balance sheet accounts of the Bank respectively (December 31, 2021: 76,46% and 94,47%).

For the credit risk assumed by the Bank, the expected loss provision for stage 1 and stage 2, measured in accordance with the TFRS 9 forecast loss model, is TL 3.413.700 (December 31, 2021: TL 2.064.589).

Credit risk is assessed according to the Bank's internal rating model. While the ratings of the customers outside the financial sector in the loan portfolio are made with the internal rating model, the ratings of the customers involved in the financial sector are matched to the internal ratings of the Bank given by external rating agencies.

Information on credit amounts rated by internal rating model is given table below.

Loan Quality Categories	Current Period	Prior Perior
Above Average Grade	28.134.700	17.878.017
Average Grade	42.703.957	37.184.769
Below Average Grade	13.023.518	13.639.443
Impaired	2.300.636	2.081.117
<b>Total</b>	<b>86.162.811</b>	<b>70.783.346</b>

The total risk of the Bank's cash loans, non-cash loans and financial leasing receivables (including non-performing loans, excluding expected loss provisions) amounted to TL 87.579.622 (December 31, 2021: TL 72.450.475) as of the balance sheet date, and customers constituting TL 1.416.811 of this amount (December 31, 2021: TL 1.667.129) were not rated.

In cases where financial institutions do not have their own external rating, the credit quality was evaluated as average by taking into account the external rating of the bank, which is the main partner of the financial institution to which it is affiliated.

An aging analysis of loans with a delay of 31 days or more in close monitoring but not impaired is as follows:

	Current Period				Prior Period			
	31- 60 Days	61- 90 Days	Other	Total (1)	31- 60 Days	61- 90 Days	Other	Total(1)
Corporate Loans	-	-	-	-	241	254	-	495
SME Loans	-	-	-	-	41.379	-	-	41.379
Consumer Loans	-	-	-	-	-	-	-	-
<b>Total</b>	-	-	-	-	<b>41.620</b>	<b>254</b>	-	<b>41.874</b>

(1) Only the overdue amounts of the loans included in the relevant items are included and the total credit balance of these loans is TL 301.772 on 31 December 2021. No delay in closely monitored loans on 31 December 2022.

*Disclosures on credit risk (continued)*

In determining the risk weights of the risk classes specified in Article 6 of the Regulation on the Measurement and Evaluation of the Capital Adequacy of Banks, the international ratings of Fitch Ratings International Rating and JCR Avrasya Derecelendirme A.Ş. are used.

The ratings given by Fitch Ratings are used for receivables from banks and intermediary institutions whose counterparty is a resident of abroad and for receivables from central governments and central banks in the risk classes. The ratings given by JCR Avrasya Derecelendirme A.Ş. are used for receivables from banks and intermediary institutions whose counterparties are resident domestically and corporate receivables are included in the risk classes and for receivables that are denominated in TL. Other receivables from domestic residents who are not included in this scope are considered as ungraded. Credit ratings for these risk classes are not used for other assets from the borrower.

The table on matching the ratings used in the calculations to the credit quality grades is given below.

Credit Quality Level	1	2	3	4	5	6
Grade	AAA with AA-	A+ with A-	BBB+ with BBB-	BB+ with BB-	B+ with B-	CCC+ and below

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**III. Explanations related to currency risk**

Due to the uncertainties and volatilities in the markets, no short or long positions are followed, so it is foreseen that there will be no exchange rate risk. However, the exchange rate risks that may occur are still calculated on a monthly basis in the exchange rate risk table within the scope of the standard method, and the results are reported to the official authorities and the Bank's senior management. Thus, exchange rate risk is closely monitored. As part of the overall market risk, currency risk is also taken into account in the calculation of the Standard Ratio of Capital Adequacy.

No open positions are taken for foreign currency risks, and when any exchange rate risk arises from customer transactions, no exchange rate risk is carried by taking a counter position.

Announced current foreign exchange buying rates of the Bank as at reporting date and the previous five working days in US Dollar and Euro are as follows:

	<b>1 US Dollar</b>	<b>1 Euro</b>
<b>The Bank's "Foreign Exchange Valuation Rate"</b>		
December 31, 2022	18,6065	19,8215
<b>Prior Five Workdays:</b>		
December 30, 2022	18,6065	19,8215
December 29, 2022	18,6220	19,7784
December 28, 2022	18,5770	19,7715
December 27, 2022	18,5650	19,7773
December 26, 2022	18,5500	19,7112

Simple arithmetic one month averages of the US Dollar and Euro buying rates of the Bank before the reporting date are full TL 18,5540 and 19,6391 respectively.

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**III. Explanations related to currency risk (continued)**

The Bank is mostly exposed to Euro, US Dollars and other foreign currencies.

The following tables detail the Bank's sensitivity to 10% increase/decrease in the TL against US Dollar, Euro and other currencies.

	Increase in Currency Rate	Effect on Profit / Loss (1)		Effect on Equity (2)	
		Current Period	Prior Period	Current Period	Prior Period
US Dollar	10	120.463	61.241	27.765	17.563
Euro	10	145.778	62.214	(1.132)	6.330
Other	10	606	145	-	-

	Decrease in Currency Rate	Effect on Profit / Loss (1)		Effect on Equity (2)	
		Current Period	Prior Period	Current Period	Prior Period
US Dollar	10	(120.463)	(61.241)	(27.765)	(17.563)
Euro	10	(145.778)	(62.214)	1.132	(6.330)
Other	10	(606)	(145)	-	-

(1) Values expressed are before the tax effect.

(2) Effect on equity does not include effect on profit/loss.

**IV. Explanations related to interest rate risk**

Interest rate sensitivity of the assets, liabilities and off-balance sheet items are measured by the Bank. General and specific interest rate risk tables in the standard method, by including assets and liabilities, are taken into account in determination of Capital Adequacy Standard Ratio and to calculate the overall interest rate risk of the Bank.

Forecast results, which have been formed using estimation-simulation reports are prepared and then the effects of fluctuations in interest rates are evaluated with sensitivity and scenario analysis. Cash requirement for every maturity period is determined based on maturity distribution analysis (Gap). In addition, a positive spread between the yield on assets and the cost of liabilities is kept while determining interest rates.

The amount of local borrowings are very low considering the total liabilities of the Bank. As the Bank is a development and investment bank, it obtains most of the funding from abroad.

The fluctuations in interest rates are controlled with interest rate risk tables, gap analysis, scenario analysis and stress tests, its effect on assets and liabilities and the probable changes in cash flows are being screened. The Bank screens many risk control ratios including the markets risk ratio to the sum of risk weighted assets and the ratio of the value at risk calculated as per the internal model to the equity.

Under the scope of risk policies, continuous controls are made to prevent assets or shareholders' equity from adverse effects because of fluctuations in interest rates or liquidity difficulties and top management, the Board of Directors and the Audit Committee are informed of these risks.

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**VI. Explanations related to the liquidity risk management and liquidity coverage ratio**

**1. Explanations related to the liquidity risk**

**1.a Information about the governance of unconsolidated liquidity risk management, including: risk tolerance, structure and responsibilities for unconsolidated liquidity risk management, internal unconsolidated liquidity reporting and communication of unconsolidated liquidity risk strategy, policies and practices across business lines and with the board of directors**

Liquidity risk management is conducted by Treasury Department in line with the strategies set by Asset and Liability Committee within the limits and policies approved by Board of Directors, and is monitored and controlled through reportings from Risk Management, Budget Planning and Financial Control Departments to Audit Committee, Board of Directors, Senior Management and relevant departments.

The Bank's liquidity risk capacity is determined by the Bank's internal limits and the regulations on liquidity coverage ratio and liquidity adequacy. Regarding its risk appetite, in addition to legal limits, the Bank also applies internal limits for monitoring and controlling the liquidity risk.

Considering the Bank's strategies and competitive conditions, Asset and Liability Committee has the responsibility of taking the relevant decisions regarding optimal balance sheet management of the Bank, and monitoring the implementations. Treasury Department performs cash position management within the framework of the decisions taken at Asset and Liability Committee meetings.

The Risk Management Department reports to the Board of Directors and the Asset and Liability Committee regarding liquidity risk within the scope of internal limits and legal regulations. Additionally, liquidity stress tests are performed based on various scenarios and reported with their impact on legal limit utilization. Treasury Control Unit under the Budget Planning Department also makes cash flow projection reportings to the Treasury Department and the Asset Liability Committee at certain periods and when needed.

As a result of the financial uncertainty caused by the coronavirus epidemic, liquidity management has been one of the main priorities of the Parent Bank. The Parent Bank continues to manage LCR within the framework of risk appetite by keeping its high quality liquid assets at a sufficient level.

**1.b Information on the centralization degree of unconsolidated liquidity management and funding strategy and the functioning between the Bank and the Bank's subsidiaries**

Within the scope of consolidation, liquidity management is not centralized and each subsidiary is responsible for its own liquidity management. However, the Bank monitors the liquidity risk of each subsidiary within the defined limits.

**1.c Information on the Bank's funding strategy including the policies on funding types and variety of maturities**

Among the main funding sources of the Bank, there are development bank credits, capital market transactions, syndicated loans, bilateral contractual resources, repo transactions and money market transactions and these sources are diversified to minimize the liquidity risk within the terms of market conditions. The funding planning based on those loans is performed long term such as a minimum of one year and the performance is monitored by the Asset and Liability Committee.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**VI. Explanations related to the liquidity risk management and liquidity coverage ratio (continued)**

**1. Explanations related to the liquidity risk (continued)**

**1.ç Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Bank's total liabilities:**

The Bank's obligations consist of Turkish Lira (TRY), US Dollar (USD) and Euro (EUR) currency types. Turkish Lira obligations mainly consist of equity and repurchase agreements, whereas foreign currency obligations consist of foreign currency credits, securities issued and repurchase agreements. All loans provided from foreign sources are in foreign currencies. For this reason, foreign resources can be used in TL funding by currency swap transactions when necessary.

**1.d Information on unconsolidated liquidity risk mitigation techniques**

Unconsolidated Liquidity limits are defined for the purpose of monitoring and keeping the risk under certain levels. The Bank monitors those limits' utilization and informs the Board of Directors, the Bank Senior Management and the relevant departments regularly. Regarding those limits, the Treasury Department performs the required transactions with the relevant cost and term composition in accordance with market conditions from the sources previously defined in Article c. The Bank minimizes the liquidity risk by holding high quality liquid assets and diversification of funds.

**1.e Information on the use of stress tests**

Within the scope of liquidity stress tests, the deteriorations that may occur in the cash flow structure of the Bank are assessed by the Bank's scenarios. The results are analyzed by taking into account the risk appetite and capacity of the Bank and reported to the senior management by the Risk Management Department ensuring the necessary actions are taken.

**1.f General information on urgent and unexpected unconsolidated liquidity situation plans**

There is a Contingency Funding Plan for the contingent periods that arises beyond the Bank's control. In a potential liquidity shortfall, Treasury Department is responsible from assessment, taking relevant actions and informing Asset and Liability Committee. In contingent cases, to identify the liquidity risk arising, cash flow projections and funding requirement estimations are exercised based on various scenarios. To assess the stress scenarios, cash flow in terms of local currency is monitored regularly by Treasury Department. Scenario analysis on the Bank's unencumbered sources are conducted daily. Transaction limits for organized markets are monitored timely and essential collateral amount to trade in those markets is withheld at hand. Repo transactions and/or available for sale portfolio securities in local and foreign currency that are major funding sources in shortfall periods for the Bank are monitored consistently. In contingent periods outflows due to the irrevocable commitments, contingencies and derivative transactions can be deferred temporarily in a way that won't hurt the Bank's reputation. TSKB has the optionality of choosing one or more of the following for meeting it's liquidity requirement that are selling liquid assets off, increasing short term borrowing, decreasing illiquid assets, increasing capital.

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**VI. Explanations related to the liquidity risk management and liquidity coverage ratio (continued)**

**3. Minimum explanations related to the liquidity coverage ratio by Banks:**

As per The Regulation on The Calculation of Liquidity Coverage Ratio, Liquidity Coverage Ratio is the ratio of high quality liquid assets to net cash outflows. Total and foreign currency limits 100% and 80% are assigned on consolidated and unconsolidated basis respectively. For the development and investment banks, Banking Regulations and Supervision Agency decided to apply zero percent to the total and foreign currency consolidated and unconsolidated liquidity coverage ratios unless stated otherwise.

In the Liquidity Coverage Ratio calculation, the items with the highest impact are high quality liquid assets, foreign funds and money market transactions. High quality liquid assets mainly consist of the required reserves held in the Central Bank of the Republic of Turkey and unencumbered securities issued by the Treasury.

Main funding source of the Bank is long term loans attained from international financial institutions. The ratio of those loans in total funding is around 68%. The total ratio of the securities issued in purpose of funding diversification and loans attained through subordinated loans and syndication loans in overall borrowing is 28%. 4% of the Bank's total funding is provided from the repo money markets.

30-day cash flows arising from derivative transactions are included in the calculation in accordance with the Regulation. The Bank also takes into consideration the liabilities depending on the possibility of changing the fair values of the derivative transactions in accordance with the Regulation.

**VII. Explanations related to leverage ratio**

**a) Information on subjects that causes difference in leverage ratio between current and prior period**

The table related to calculation of leverage ratio in accordance with the principles of the “Regulation on Measurement and Evaluation of Banks’ Leverage Level” which is published on the Official Gazette no.28812 dated 5 November 2013 is given below.

As of the Bank’s balance sheet date, the leverage ratio, calculated on the basis of the arithmetic average of the values found at the end of the month in the past three months, was 12,21% (December 31, 2021: 7,82%). The amount of assets on the balance sheet increased by 46,87% compared to the previous period.

**b) Leverage Ratio**

		<b>Current Period (1)</b>	<b>Prior Period (1)</b>
	<b>Balance sheet Assets</b>		
<b>1</b>	Balance sheet assets (excluding derivative financial assets and credit derivatives, including collaterals)	111.087.792	75.635.580
<b>2</b>	(Assets deducted from Core Capital)	(356.929)	(230.165)
<b>3</b>	<b>Total risk amount of balance sheet assets (sum of lines 1 and 2)</b>	<b>110.730.863</b>	<b>75.405.415</b>
	<b>Derivative financial assets and credit derivatives</b>		
<b>4</b>	Cost of replenishment for derivative financial assets and credit derivatives	782.152	1.106.330

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**VIII. Explanations related to presentation of financial assets and liabilities at fair value (continued)**

The methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements:

- i- For the fair value calculation of loans, the prevailing interest rates as of the reporting date were used.
- ii- For the fair value calculation of the balances with banks, the prevailing interest rates as of the reporting date were used.
- iii- For the fair value calculation of held-to-maturity investments, quoted prices as of the reporting date were used.
- iv- For the fair value calculation of marketable securities issued, market prices as of the reporting date were used.

The following table shows an analysis of financial instruments recorded at fair value, between those whose fair value is recorded on quoted market prices, those involving valuation techniques where all model inputs are observable in the market and, those where the valuation techniques involves the use of non observable inputs.

The table below analyses financial instruments carried at fair value, by valuation method.

- a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- b) Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2);
- c) Inputs for the asset or liability that are not based on observable market data (Level 3).

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**X. Explanations related to risk management**

**Linkages between financial statements and risk amounts**

The footnotes prepared in accordance with the "Regulation on Calculation Risk Management Disclosures", which was published in the Official Gazette No. 29511 of 23 October 2015 and entered into force as of March 31, 2016, and the disclosures pertaining thereto are provided in this section.

As the standard approach is utilized for the calculation of the capital adequacy of the Bank, no statement has been included as regards the methods based on internal models as per the relevant communiqué.

**Disclosures on the risk management approach and risk-weighted amount**

Risk management approach of the Bank allows for ensuring the establishment of a common risk culture covering the entire institution within the scope of the policies and codes of practice designated by the Board of Directors, for identifying risks in harmony with international arrangements and for performing the activities of measurement, analysis, monitoring and reporting accordingly.

The risk management process, which is shaped within the scope of relevant policies and application principles and serves to create a common risk culture throughout the organization; It has a structure where risks are defined in accordance with international regulations and measurement, analysis, monitoring and reporting activities are carried out within this framework. A Risk Management Department has been established within the Bank in order to ensure compliance with the relevant policy, application principles and processes and to manage the risks faced by the Bank in line with these policies. The Risk Management Department, whose duties and responsibilities have been determined by regulations approved by the Board of Directors, carries out its activities independently from executive activities and executive units and under the Audit Committee.

Risk Management Department develops the systems required within the process of risk management and carries out the relevant activities, monitors the compliance of risks with policies, standards, limits of the Bank and its risk appetite indicators and performs activities aimed at harmonization with the relevant legislation and the Basel criteria. Risk measurements are performed through the standard approaches for legal reporting and the advanced approaches are utilized internally.

Risk Management Department submits its detailed risk management reports prepared on monthly and quarterly basis to the Board of Directors via the Audit Committee. These reports cover measurements regarding main risks, stress tests and scenario analyses and the status of compliance with the identified limit levels and risk appetite indicators.

Prospective risk assessments are carried out by conducting periodical stress tests on loan, market, interest and liquidity risks and the impact of results on the overall financial power of the Bank is evaluated. The relevant results are notified to the Audit Committee and contribute to the assessment of the financial structure of the Bank at the moment of stress. Stress test scenarios are determined by evaluating the impacts posed by previous economic crises on macroeconomic indicators and expectations from the upcoming period. By estimating the risks and capital position of the Bank within the upcoming period, various analyses are performed in terms of legal and internal capital adequacy ratios, and the ICAAP (Internal Capital Adequacy Assessment Process) report is submitted to the BRSA.

As of June 2022, in determining the risk weights in the period the bank's capital adequacy calculations, the rating given by international rating agencies Fitch Ratings, in addition to the use of "Receivables From Banks and Intermediary Institutions" resident domestic receivables with banks and brokerage firms corporate risk within the class is contained in the risk of receivables from companies and financial institutions resident in the country in JCR Avrasya A.Ş. rating determining the weights in TL the national rating grades assigned by have started to be used.

(1)The differences between the values of the assets and liabilities included in the financial statement values and the capital adequacy calculation and the amounts in the matching table.

	Prior Period	Total	Credit Risk	Securitization Positions	Counterparty credit risk	Market risk
1	Asset carrying value amount under scope of regulatory consolidation	84.096.485	84.695.274	-	5.721.674	693.717
2	Liabilities carrying value amount under regulatory scope of consolidation(1)	84.096.485	-	-	2.175.446	591.030
3	<b>Total net amount</b>	<b>-</b>	<b>84.695.274</b>	<b>-</b>	<b>3.546.228</b>	<b>102.687</b>
4	Off-balance sheet amounts	107.447.979	7.486.284	-	727.354	-
5	Differences due to prudential filters	-	(25.326.383)	-	(785.879)	1.134.276
6	<b>Risk Amounts</b>	<b>-</b>	<b>66.855.175</b>	<b>-</b>	<b>3.487.703</b>	<b>1.236.963</b>

(1)The differences between the values of the assets and liabilities included in the financial statement values and the capital adequacy calculation and the amounts in the matching table.

Difference between the amounts of assets within the scope of legal consolidation as valued in accordance with TAS and credit risk exposures results from the transactions which are not subject to credit risk. Difference between off-balance sheet exposures and credit risk exposures results from the application of credit conversion factors to off-balance sheet exposures in line with the Regulation on the Measurement and Assessment of the Capital Adequacy of Banks.

The Bank takes into account the prudent valuation principles and principles in Annex-3 annexed to the Regulation on the Measurement and Evaluation of Capital Adequacy of Banks for all positions in trading or banking accounts to be taken into account in the measurement of capital adequacy with its fair value. The Bank uses the valuation method with market value as much as possible and the valuation methods are included in detail in the third section of the report under the heading VII. Explanations for Financial Instruments in the Accounting Policies section of the report.

**TÜRKİYE SİNAİ KALKINMA BANKASI A.Ş.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2022**

(Amounts are expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**X. Explanations related to risk management (continued)**

**Explanations related to credit risk**

**General qualitative information on credit risk**

Credit risk is the possibility of incurring losses due to fulfill the credit customer or the counterparty, with whom the Bank has made an agreement with, does not fulfill its obligations appropriately or is not able to meet these obligations. While the largest and most visible source of credit risk consists of the loans extended by the bank, other assets included in balance sheets, non-cash loans and commitments are also taken into consideration within the scope of credit risk.

Credit risk is measured and managed in accordance with the Credit Risk Policies developed within the scope of the Risk Management Policies of the Bank. In this sense, the structure and characteristics of a loan, the provisions of loan agreements and financial conditions, structure of the risk profile until the end of maturity in parallel with potential market trends, guarantees and collaterals, internal risk ratings and potential changes with regard to the ratings in the process of risk exposure and concentrations (a single company, a group of affiliated companies, sector, country etc.) are taken into consideration. Compliance with the limits and risk appetite levels determined by the Board of Directors is monitored. Credit risk is managed by loan allocation and loan monitoring units in the Bank. Creditworthiness of loan customers is monitored and reviewed on a regular basis. Credit limits are set by the Board of Directors, the credit committee of the bank and the loan management. The Bank receives a sufficient amount of collateral in return for the loans extended thereby and its other receivables.

Credit risk is measured, monitored and reported by the Risk Management Department. Concentrations in the loan portfolio, loan quality of the portfolio, collateral structure, measurements concerning capital adequacy, stress tests and scenario analyses and the level of compliance with limits are regularly reported to the Board of Directors and the senior management.

**Additional disclosure related to the credit quality of assets**

The Bank considers stage 2 loans that collections of principal and interest payments have not been realized on due dates as past due in accordance with the “Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables”.

Loans that collections of principal and interest payments are over due more than 90 days and losing creditworthiness is considered by the Bank as impaired or provisioned loans.

General loan loss provision is calculated for past due loans; Specific provision is calculated for impaired loans. The methods used in determining the provision amounts are explained in Section Three Note VIII.

Refinancing and restructuring; is the replacement of one or several loans extended by the Bank to a new loan that will cover the principal or interest payment in whole or in part due to the financial distress expected by the customer or the group in the present or future, or change the terms in the current loans to ensure that the debt can be paid.

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**X. Explanations related to risk management (continued)**

**Explanations related to credit risk (continued)**

***Breakdown of receivables according to major regions, sector and remaining maturities***

Breakdown of receivables by major regions, sectors and remaining maturities is included in footnotes under Section Four, Note II, "Explanations Related to Credit Risk."

***Impaired loans on the basis of major regions and sectors and amounts written off corresponding provisions***

On the basis of geographical regions, the receivables from the Bank consist of domestic receivables.

On sectoral basis, the amount of the Bank's impaired loans and related provisions are included in footnotes under Section Four, Note II. "Information of major sectors or type of counterparties" explanations credit risk explanations.

As of December 31, 2022, the amount of written off receivables is TL 557.916 (December 31, 2022: None).

***Aging analysis for overdue receivables***

The aging analysis of the receivables past due is included in footnotes under Section Four, Note II. "Explanations related to credit risk".

**Credit risk mitigation**

**Qualitative disclosure on credit risk mitigation techniques**

In the valuations made within the scope of credit risk mitigation techniques, the methods used in relation to the valuation and management of collateral are carried out in parallel with the Communiqué on Credit Risk Mitigation Techniques. Offsetting is not used as a credit risk reduction technique.

Financial guarantees in the Bank are subject to valuation on a daily basis. Due to the use of the comprehensive financial collateral method, the risk-reducing effects of collateral are taken into account through standard volatility adjustments. The valuations of real estate mortgages used in capital adequacy calculations are reviewed at regular intervals.

It is ensured that the value of the real estate is determined by the valuation institutions authorized by the CMB.

The main collateral that the Bank can use within the scope of credit risk mitigation techniques are; financial collateral, guarantees and mortgages. In the reporting made as of December 31, 2022, guarantees and mortgages were used as credit risk reduction techniques in the calculation of the amount based on credit risk.

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**X. Explanations related to risk management (continued)**

**Disclosures on counterparty credit risk (CCR)**

**Qualitative disclosures on CCR**

Counterparty credit risk is managed by monitoring the concentrations at various levels with regard to counterparty credit risks, the capital requirement imposed by the counterparty credit risk and the limits set by the Board of Directors for counterparty transactions. Moreover, the ratio of the counterparty credit risk exposure to total risk-weighted assets has been identified as a risk appetite indicator.

Counterparty credit risk resulting from repurchase transactions, securities and commodities lending transactions and derivatives transactions is calculated within the framework of Annex 2 of the Regulation on the Measurement and Assessment of the Capital Adequacy of Banks. Fair Value Valuation Method is applied for derivatives transactions. Risk exposure of derivative transactions is equal to 1,4 times the sum of replacement cost and potential credit risk amount. Besides, capital requirement is also calculated for credit valuation adjustment (CVA) risk in relation to derivatives transactions. For repurchase and securities lending transactions risk amount is calculated considering volatility and credit quality level.

Derivatives transactions executed with counterparties are carried out within the scope of "ISDA" and "CSA" agreements. These agreements contain the same collateralization provisions for our Bank and counterparties and daily collateral settlement is performed.

**Analysis of counterparty credit risk exposure by approach**

	Current Period	Replacement cost	Potential future exposure	EEPE	Alpha used for computing regulatory exposure at default	Exposure at default post Credit risk mitigation	Risk weighted amount

**SECTION FOUR (Continued)**

**INFORMATION ON FINANCIAL STRUCTURE AND RISK MANAGEMENT (Continued)**

**X. Explanations related to risk management (continued)**

**Explanations on market risk**

**Qualitative information to be disclosed to public concerning market risk**

Market risk is the possibility of a risk being incurred by the portfolio or position accepted within the scope of trading portfolio as a result of interest rates, equity prices, commodity prices in financial markets and exchange rate fluctuations. The purpose of market risk management is to manage, within the appropriate parameters, the risks which the Bank might be exposed to with a proactive approach and thus maximize the Bank's risk adjusted return.

Interest rate, exchange rate, stock and commodity price risks are the major elements of market risk. In order to control these risks in a healthy manner the core principal is to manage transactions carried out in money and capital markets such that they do not form concentration in terms of instrument, maturity, currency, interest type and other similar parameters, and in a "well diversified" manner in accordance with their risk levels. Moreover, the creditworthiness of issuers of financial instruments causing market risk is monitored carefully.

Market Risk is managed by using consistent risk measurements and criteria fluctuation level of interest rates and/or prices and Value at Risk calculations, establishing appropriate procedures for control and monitoring compliance with identified risk limits and risk appetite.

Market risk is measured, monitored and reported by the Department of Risk Management. The Bank uses in the calculation of market risk, BRSA Standard Method and advanced method which is Value at Risk (VaR) and Expected Shortfall approaches.

The standard method is applied in the calculation of capital adequacy on a monthly basis. VaR calculations are performed on a daily basis and are reported to the senior management. Monte Carlo simulation method is used for VaR calculations.

The VaR model is based on the assumptions of a 99% confidence interval and a 1-day holding period, and the accuracy of the model is assured by back-testing which is based on the comparison of calculated VaR Value against incurred losses. Besides, stress tests are conducted so as to identify the impacts on VaR which will be highly damaging, although their occurrence is a low possibility.

In addition to the activities of the Risk Management Department, the Treasury Control Unit also reports daily positions and limit use status to the senior management.

<b>Total</b>	<b>18.958</b>	<b>2.778.981</b>	<b>14.691</b>	<b>2.023.420</b>

(1) Expected credit loss amounting to TL 372 is allocated in "Balances with the Central Bank of Turkey" (December 31, 2021: TL 1.086).

(2) Includes the amount of required reserves blocked at the CBRT for Turkish lira assets and foreign currency liabilities.

As per the Communiqué numbered 2005/1 "Reserve Deposits" of the CBRT, banks keep reserve deposits at the CBRT for their TL and FC liabilities mentioned in the communiqué. Reserves are calculated and set aside every two weeks on Fridays for 14 days periods. The CBRT Required reserves of 2 May 2015 has started to pay interest to the Required reserves, reserve options and unrestricted account held in US dollars according to regulation released at 5 May 2015.

Pursuant to the CBRT's Communiqué on the Amendment of the Communiqué on Compulsory Reserves dated 23 April 2022 and numbered 31818 (No: 2013/15) (No: 2022/17); It was announced that commercial cash loans in Turkish lira, excluding the loan types of banks and financing companies specified in the communiqué, will be subject to reserve requirements, with the Communiqué Amending the Communiqué on Required Reserves (No: 2013/15) dated 20 August 2022 and numbered 31929 (No: 2022/24) published after, it was announced that the required reserve ratio for the assets subject to required reserves would be 0 percent for banks.

Pursuant to Communiqué Amending the CBRT's Communiqué dated 20 August 2022 and numbered 31929 on the Establishment of Turkish Lira Securities for Foreign Currency Liabilities (No: 2022/20) (No: 2022/23), It was announced that securities should be established for commercial cash loans in Turkish lira, excluding the loan types specified in the communiqué, of banks and financing companies.

- 2. Information on financial assets at fair value through profit and loss (continued)**
- 2.c Positive differences table related to derivative financial assets:**

Financial Derivative Assets (1)	Current Period		Prior Period	
	TL	FC	TL	FC
Forward Transactions	90.994	870	37.763	1.971
Swap Transactions	869.636	1.046.170	1.727.686	420.933
Futures Transactions	-	-	-	-
Options	-	-	-	33
Other	-	-	-	-
<b>Total</b>	<b>960.630</b>	<b>1.047.040</b>	<b>1.765.449</b>	<b>422.937</b>

(1) Derivative Financial Assets for Hedging Purposes amounting to TL 387.926 are shown in the "Derivative Financial Assets" account (December 31, 2021: TL 256.505).

As part of its economic hedging strategy, the Bank has implemented TL cross currency interest rate swap transactions in which the Bank's default risk is the reference. These swap agreements are subject to a direct closing condition for both the Bank and the counterparty, in the event of a credit default event (such as a non-payment) related to the Bank, to cancel the amounts accrued in the contract and all future payments. As of December 31, 2022, the market rediscount value of these swaps with a nominal amount of \$ 70 million is TL 720.082 and the average rates is between 2023 and 2027 (December 31, 2021: The market rediscount value of swaps with a nominal amount of \$ 120 million is TL 774.589).

**2.d Loans measured at Fair Value through Profit/Loss:**

Net Book Value	Current Period	Prior Period
Loans Measured at Fair Value through Profit/Loss	-	263.097

Include the loan granted to the special purpose entity as detailed in Section Five Note I.16. This loan is accounted under loans measured at fair value through profit/loss as per TFRS 9.

As of March 31, 2022, LYY Telekomünikasyon A.Ş. owned by Türk Telekomünikasyon A.Ş. 192.500.000.000 Group A registered shares representing 55% of the capital were sold to the Turkey Wealth Fund, and as a result of the collection made from the sale amount, the portion of the related loan corresponding to the Bank's share was closed. Provision has been made for the entire loan amount remaining after collection. It has been classified as non-performing loans as of June 30, 2022 and has been written off from the asset in accounting terms with the specific provision amount set under TFRS 9 since there is no reasonable expectation regarding its recovery.

(1) As of March 31, 2022, Türk Telekomünikasyon A.Ş., owned by LYY Telekomünikasyon A.Ş. 192.500.000.000 Group A shares representing 55% of its capital were sold to the Turkey Wealth Fund, and as a result of the collection made from the sale amount, a collection was made from the related loan at the rate of the Bank's share. However, a provision for impairment has been made for the entire acquired asset. As of June 30, 2022, the risk related to LYY Telekomünikasyon A.Ş., which has been fully provisioned, has been transferred to the follow-up accounts, and the amount transferred to the follow-up accounts and its specific provisions have been written off from the asset in accounting terms (555.395 Thousand TL). As of December 31, 2022, the effect of the Bank's NPL ratio is calculated as 67 basis points when the calculation is made by taking into account the loans written off.

**5.k Main principles of liquidating non-performing loans and receivables:**

In case of existence of the collateral elements stated in Article 13 of the Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables to be set aside for these, these elements are liquidated as soon as possible as a result of both administrative and legal initiatives and liquidation of the receivables is ensured.

In the absence of collateral, the debtor is provided with an insolvency certificate, but in various periods, intense intelligence is made and the legal asset is applied to determine the acquired assets.

Legal procedures followed before and after; on the financial information of the company when the creditor deemed able to live in the investigation that will be made by the Bank and if it contributed to the economy in relation to firms that dominate considers that contributed to the production, efforts are made to the liquidation of receivables agreement.

**5.l Explanations about the write-off policies from the assets:**

Within the scope of the "Regulation Amending the Regulation on the Procedures and Principles Regarding the Classification of Loans and the Provisions for These" published in the Official Gazette dated November 27, 2019 and numbered 30961, loans classified as "Fifth Group-Uncollectible Loans", for which there is no reasonable expectation of recovery, can be excluded from the balance sheet. The deduction of the loans that cannot be collected from the records is an accounting application and does not result in the waiver of the right to receivable.

The Bank allocates expected loan loss provisions within the scope of TFRS 9 for the parts of the loans that are not expected to be collected, and the details are given in VIII. Explanations on impairment of financial assets and Calculation of expected credit losses are given under the headings. Amounts written off during the period are disclosed in the footnotes of the financial statements.

As of December 31, 2022, the amount of the Bank's written off loan is TL 557.916 (December 31, 2021: None).

(1) The information is obtained from financial statements subject to consolidation as of December 31, 2021.

Paid-in capital has been indicated as Turkish Lira in articles of incorporation and registered in trade registry. The effect of inflation adjustments on paid-in capital is the difference caused by the inflation adjustment on shareholders' equity items. Extraordinary reserves are the status reserves which have been transferred with the General Assembly decision after distributable profit have been transferred to legal reserves. Legal reserves are the status reserves which have been transferred from distributable profit in accordance with the Article 519 of the Turkish Commercial Code numbered 6102. The Bank's internal capital adequacy assessment process is made annually on a consolidated basis. Consolidated associates and subsidiaries are included in the operation.

**8.b As per Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards unconsolidated subsidiaries and reason of consolidating and needed capital if they are subject to capital requirement:**

TSKB Gayrimenkul Değerleme A.Ş. and TSKB Sürdürülebilirlik Danışmanlığı A.Ş. are valued at cost and are not consolidated since they are not financial subsidiaries. Unconsolidated subsidiaries of the Bank are not subject to minimum capital requirement.

**13. Explanations on tangible assets**

**13.a Useful life or amortization rates used:**

Tangible assets, purchased before 1 January 2005, are accounted for at their restated costs as of December 31, 2004 and the assets purchased in the following periods are accounted for at acquisition cost less accumulated depreciation and reserve for impairment. Rental or administrative purposes or other unspecified purposes of assets that under construction will be amortised when they are ready to use.

**13.b Amortization methods used:**

The intangible assets are amortized principally on straight line basis which amortize the assets over their expected useful lives.

The Parent Bank have reached an agreement on restructuring the debts of Ojer Telekomünikasyon A.Ş. (OTAS), the major shareholder of Türk Telekomünikasyon A.Ş. (Türk Telekom) provided under the loan agreements. It was completed that 192.500.000.000 Class A shares owned by OTAS in Türk Telekom, representing 55% of Türk Telekom's issued share capital, which have been pledged as security for the existing loan facilities of OTAS, would be taken over by a special purpose vehicle incorporated or to be incorporated in the Republic of Turkey, owned directly or indirectly by the creditors. The Parent Bank has participated in LYY Telekomünikasyon A.Ş. which was established within this context with 1,6172% stake and amounting to TL 64.403. With the restructuring on 17 August 2022, the Bank's participation rate increased to 1,8403% and no fee was paid by the Bank for the increase. The Parent Bank considered the related investment within the scope of TFRS 5 "Assets Held for Sale and Discontinued Operations".

As of March 31, 2022, LYY Telekomünikasyon A.Ş. owned by Türk Telekomünikasyon A.Ş. 192.500.000.000 A group registered shares representing 55% of its capital were sold to the Turkey Wealth Fund, and as a result of the collection made from the sales amount, a collection was made from the related loan in proportion to the Bank's share. However, as of the current period, a provision for impairment has been set aside for the entire acquired asset. The liquidation decision of LYY Telekomünikasyon A.Ş. was taken at the General Assembly Meeting dated 27.12.2022 and the liquidation of the company was registered by the Istanbul Registry of Commerce on 28.12.2022. In this context, the amount of the partnership share, all of which was allocated in its provisions for the previous years and follow-up accounts under the "Fixed Assets Related to Held and Discontinued Activities for Sale Purposes", have been written off from the asset in accounting terms.

**17. Information about other assets**

**17.a Other assets which exceed 10% of the balance sheet total and breakdown of these which constitute at least 20% of grand total:**

Other assets do not exceed 10% of total assets, excluding off-balance sheet commitments (December 31, 2021: None).

**III. Explanations and disclosures related to the off-balance sheet items (continued)**

**3. Explanations on loan derivatives and risk exposures**

The Bank has no risk of credit derivatives or incurred as a result of them (December 31, 2021: None).

**4. Explanations on contingent liabilities and assets**

There are 28 legal cases against the Bank which are amounting to TL 648 as of the reporting date (December 31, 2021: TL 648 - 25 legal cases).

Tax Audit Committee inspectors made an investigation for the years 2008-2011 about the payments made by the Bank and employees to “Türkiye Sınai Kalkınma Bankası A.Ş. Mensupları Munzam Sosyal Güvenlik ve Yardımlaşma Vakfı” (Foundation) established in accordance with the decisions of Turkish Commercial Law and Civil Law as made to all Foundations in the sector. According to this investigation it has been communicated that the amount Bank is obliged to pay is a benefit in the nature of fee for the members of Foundation worked at the time of payment, the amount Foundation members are obliged to pay should not be deducted from the basis of fee; accordingly tax audit report was issued with the claim that it should be taken penalized income tax surcharge / penalized stump duty deducted from allowance and total amount of TL 17.325 tax penalty notice relating to period in question to Bank relying on this report.

The Bank assesses that the Bank’s practice is in compliance with the legislation and there is no legal basis for the tax administration’s suspended assessments, therefore, lawsuits have been filed against the subjected assessments in various tax courts in İstanbul, Ankara and İzmir. Some of the lawsuits are decided favourable, remaining of lawsuits are decided unfavourable by the tax courts of first instance. On the other hand, appeal and objection have been requested by the Bank against the decision of the Court with respect to the Bank and by the administration against the decision of the Court with respect to the administration and completion of appeal process is waited. The tax and penalty notices related to the decision of the tax court of first instance against the Bank are accrued by administration depending on legal process and as of July 31, 2014 the Bank has made total payments amounting to TL 22.091.

A similar case has been submitted to the Constitutional Court in the form of individual remedies by the main shareholder of the Bank in relation to the Bank’s liabilities to pay, the Constitutional Court gave the decision with court file number 2014/6192. According to court decision published in the Official Gazette dated 21 February 2015 and numbered 29274, the assessments against the Bank were contrary to the principle of legality and the Bank’s property rights have been violated. This decision is considered to be a precedent for the Bank and an amount of TL 12.750 corresponding to the portion that the Bank was obliged to pay for the related period is recognized as income in the prior period.,

According to Legal Department of the Bank, it is not expected that the other lawsuits against the Bank will have a significant impact on the financial statements. The provision for a lawsuit filed against the Bank is included in the Note 7.c.3 of Section Five.

**5. Custodian and intermediary services:**

The Bank has not provides trading and safe keeping services in the name and account of real persons, legal entities, funds, pension funds and other entities, which are presented in the statement of contingencies and commitments. The details of the securities taken as collateral are shown in the off-balance sheet accounts.
